Cause of disability

V.D.H. old condition may be slightly aggv. by service.

Condition which prevents the soldier from earning a full livelihood

Complaints of shortness of breath and dizziness on walking 3 miles or other exertion. On exam.- The invalid is a poorly developed man. He states that he has never been able to play games etc. like other boys. Was not able to march after enlistment. There is a to and fro murmur at the aortic area and rough systolic 1st sound. Heart is slightly enlarged. Invalid states that he has no recollection of any illness except measels in childhood. First knew that anything was wrong with his heart four or five months ago when he was told of it by a doctor in England. The condition is undoubtedly of long standing and has been little if any exaggerated by service. He is fit for C-111.
