The Board having assembled pursuant to order, proceed to

take evidence as follows:—

Capt. W. A. Reddick, C.A.M.C.

Capt. W. A. Reddick, C. A. M. C. having been called states that "At 8.20 P.M. Thursday June 27th I was called to see No. 3258052, Pte. E. F. Durant at the Camp Hospital that I found him, conscious, pulse respiration and temperature normal; that on examination I found that there was complete paralysis both motor and sensory of the extremities and of the trunk as high up as the lower costal margin; that he complained of pain and tenderness about the junction of the cervical and dorsal vertebrae; that I diagnosed the condition as Spinal Concussion with danger of probable development of compression of cord; that I ordered him kept quiet in bed with absolute immobilization that I visited him at periods of about three hours during the remainder of the night; that at 8.00 A.M. when I went off duty, I saw him again and found little change in his condition and he had passed no urine".

Lieut. J. M. Donnelly, C.A.M.C.

Lieut. J. M. Donnelly, C. A. M. C. having been called states that:-

"At 8.10 P.M. Thursday June 27th, I was called to see No. 3258052 Pte. E. F. Durant; that I found him in front of "F" Coy's lines, lying on the ground, conscious that examination revealed motor paralysis of arms and legs that I at once had him conveyed on a stretcher to the hospital; that I saw him three times before twelve o'clock and found little change in his condition; that the condition, in my opinion was fracture of the spine in the cervico-dorsal region.

J. M. Donnelly

Lieut. L. Robert, C.A.M.C.

Lieut. L. Robert, C.A.M.C. having been called states that:-

"As Officer i-c Camp Hospital I visited No. 3258052 Pte. E. F. Durant at 9.00 A.M. and found him conscious but paralyzed in the lower extremities with pain in the arms; that there was a discharge from the urthra; that his temperature was 99 degrees Fahr.; that there were rales over the lungs, and he complained of a cold on his chest but was unable to cough; that he did not pass his urine voluntarily and I catheterized him at or about 10.00 A.M. June 28th and discovered a profuse purulent urethral discharge which was apparently not from the bladder; that his condition continued to grow worse; that I notified the S.M.O. about 4.30 P.M. June 28th that the patient was growing worse that on his orders I took the patient to St. James Street Hospital, St. John on the 7.40 P.M. train this date; that I turned him over to Capt. Thomas, Officer I-C Military Hospitals at 9.45 P.M. this date; that in my opinion the condition was one of fracture of the spine about the cervico-dorsal region".

Capt. G.G. Clegg, C.A.M.C., S.M.O. and Pres. of Board states that "I saw the deceased about 10.00 A.M. June 28th, and at that time he had the free use of his arms but complained of pain in them and he was paralyzed in the lower extremities and as high up as the lower costal margin; that I was notified by Lieut. Robert at 4.30 P.M. this date that the patient was growing worse and I immediately notified the A.D.M.S. who ordered me to transfer him at once to St. James St. Hospital St. John. I at once arranged for this and he was sent to St. John under charge of Lieut. Robert by the 7.40 train.

Finding.

The Board having considered the evidence and from personal observation, are of the opinion that the death of 3258052 Pte. Durant, E.F.B., was probably due to transverse lesion of the spinal cord about the lower portion of the cervical vertebrae.
