Opinion of the Medical Board.

NOTES—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as it is essential that the Members of the Pensions and Claims Board should be in possession of the most reliable information to **enable them to decide upon the man's claim to pension.**

(ii.) Expressions such as "may," "might," "probably," &c., should be avoided.

(iii.) The rates of pensions vary according to whether the disability is attributed to wounds or injuries received or illness contracted, (1) in the presence of the enemy, (2) on active service. It is therefore essential when assigning the cause of the disability to differentiate between them (*see* Articles 641 to 648 of the Canadian Pay and Allowance Regulations).

(iv.) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

20. (*a*) State whether the disability is the result of injuries received or illness contracted, (1) in the presence of the enemy, (2) on active service.

a1 yes a2 yes

(*b*) If due to one of these causes, to what specific conditions do the Board attribute it?

not applicable

26. Do the Board recommend

13. What is his present condition?

Weight should be given in all cases when it is likely to afford evidence of the progress of the disability.

man complains of weakness and pain in right knee joint and unable to depend on it supporting any weight as it bends under him and he falls down. Examination of joint reveals nothing but a slight crepitant feeling when knee joint is bent or flexed on thigh. Otherwise the man appears to be normal physically.
