Ward, T.H. a Soldier of the 64th Can. Batt.n Corps, and that the said Soldier is a dangerous Lunatic and a proper person to be taken charge of and detained under Care and Treatment, and is in such a state of health as not to suffer bodily or mental injury by his removal, and that I have formed this opinion upon the following grounds, viz. :— Mental Instability.

(d) *Here insert the street and number of the house (if any) or other like particulars.*

(e) *Here state the facts.*

1. Facts indicating dangerous Insanity observed by myself (e)

Emotional Instability: At times is irritable & lacks self-control to extent that he might harm himself or others. Weeps & is depressed without cause. (f) *Here state the information, and from whom received.*

2. Other facts (if any) indicating dangerous Insanity communicated to me by others (f): Could not concentrate his mind sufficiently to carry on with his civil occupation. Abused his wife & on one occasion chased her with an open razor, threatening to murder her.

Disease Mental Instability

Canada Aug. 1915 – May 1916

England May, 1916 – present

Had been about 6 weeks training in England – when he reported sick, & has been in Hosp. practically ever since. Was discharged 24 Aug. 1916. On 17 June 1918 went before Pension Board for reconsideration of Pension & was found to be in a much worse condition. He was then ordered to Gran. Spec. Hosp, Buxton for treatment & a view to terminating his pensionable disability. Trans. Lond 17:8:18.

After obtaining discharge in Aug. on 24 Aug., 1916, he went to work in Post-Office in Hull where he carried on well for about 8 mos. when he found that his former mental symptoms were recurring. Made mistakes in his work; broke out in profuse perspiration & found it hard work to put up letters in boxes in a proper manner. Once after he had his letters put up in boxes, he began to tremble all over & had to leave the building.

*The first and last entries will be signed, and transfers from one Medical Officer to another, attested by their signatures.

Present Condition: Much the same as described in previous case - sheets. He will require prolonged treatment in a suitable Institution.
