10. History :

Here give a description of wounds, scars, deformities, and signs and symptoms of abnormal conditions present and not included in answer 8. This section cannot be completed without stripping the soldier and subjecting him to a thorough physical examination.

Following Vimy Ridge advance, he noted tremulous nervous condition, which became gradually worse. Was shell gassed (W.shell gas) on 7-9-17, but fully recovered; no present disability from this source. Had operation on his eyes at age of 8. States that he wore glasses for a year, but after this did not trouble him till after Vimy attack.

11. What is the extent (state in percentages) of the disability in earning a livelihood in the untrained labour market ? If there is more than one disabling condition, estimate the disability, due to each, and that due to all combined.

12. Did the disability arise on or off duty ? 1 2 3 on duty.

13. Was a Court of Inquiry held ? 1 2 3 No.

14. If the disabling condition had its origin before enlistment, has it been aggravated on service ? 1,2,3 N.A.

If the answer is in the affirmative, state in percentages, *to what extent the soldier is incapacitated by that aggravation.*

15. Was the disability caused or aggravated by negligence, by vice or by misconduct, or by unreasonable refusal to accept treatment ? 1,2,3 No.

(If the answer is in the affirmative, state in percentages, to what extent the patient is incapacitated by that causation or aggravation. In answering this question, conduct sheets should be considered. If treatment has been refused, the circumstances surrounding the refusal should be described on page 4.)

16. What is the probable duration, in months, of the disability or of each of the disabling conditions, if there is more than one ? 1,2, Permanent 3, six months.

17. Treatment (Case reports, general or special, should be secured and attached where possible).

No. 4 Gen. Hosp., Etaples. Eastbourne-V.A.D. and Fairfield Hospital.

18. Is further treatment in hospital, convalescent home, etc., likely to be of material benefit ?

No.

19. Can the former trade or occupation be resumed ? No.

20. Recommendations I would recommend that this man be discharged as permanently unfit. He wishes to go on his sisters farm and probably the exercise and open air would benefit him more than convalescent home treatment.

of isthmus and rt. lateral lobe; whether this has anything to do or bears a direct relationship to the nervousness, is open to question.

States that he can walk about one and a half miles, when he becomes fatigued, heart palpitates; does not notice any shortness of breath on walking the above distance. Strength has returned during the past few months. This case looks to me as though he had previous shell shock(N.Y.D. neurasthenia) ; on close questioning I find that he had after he arrived at Etaples (No. 4 Gen.
