8. **Disability.**

Inability to carry out ordinary duties on account of nervousness.

Statement of Case.

Note.—The answers to the following questions are to be filled in by the Officer in medical charge of the case. In answering them he will carefully discriminate between the man's unsupported statements and evidence recorded in his military and medical documents. He will also carefully distinguish cases entirely due to venereal disease.

9. Date of origin of disability. April 1915.

10. Place of origin of disability. France. Langemarck

11. Give concisely the essential facts of the history of the disability, noting entries on the Medical History Sheet bearing on the case.

He has always been of a nervous temperament. He has been a poor sleeper.
At Valcartier he was nervous and could not stand steady at drill. He was then made a batman and got along fairly well. At Langemarck he was in reserve but all reserves were called up and he was sent into the trenches. He was under severe fire and found he had to steady his rifle to fire. When it came to close work with a bayonet his nerves steadied down during the excitement. He was wounded by a bullet in the left arm. He fainted and was unconscious for a time. On coming to was very nervous, talking to himself and trembling. On leave at home he was better but when returned to the unit the nervousness returned. As long as he is quiet in the ward he is all right but the excitement of being in the noisy ward spoils him.

12. (*a*) Give your opinion as to the causation of the disability.

(*b*) If you consider it to have been caused by active service, climate, or ordinary military service, explain the specific conditions to which you attribute it (*See notes on page* 3).

Nervous strain of active service on an already nervous temperament.

13. What is his present condition?

Weight should be given in all cases when it is likely to afford evidence of the progress of the disability.

He is pale but physically fit. He is ~~a good~~ well nourished. His memory no good. His main trouble is inability to control himself. He trembles on the least excitement. Noise upsets him and he cannot sleep without frequently awaking with a start.

14. If the disability is an injury, was it caused

An injury accentuated the condition.

(*a*) In action? yes.

(*b*) On field service? yes

(*c*) On duty? yes.

(*d*) Off duty? no.

15. Was a Court of Inquiry held on the injury? No.

If so—(*a*) When?

(*b*) Where?

(*c*) Opinion?

16. Was an operation performed? If so, what? no.

17. If not, was an operation advised and declined? no.

18. *In case of loss or decay of teeth.* Is the loss of teeth the result of wounds, injury or disease, directly* attributable to active service? not applicable

19. Do you recommend

(*a*) Discharge as permanently unfit, or

(*b*) Change to England?

Discharge as permanently unfit for active service but to go home in about 6 months probably.

Geo. S. Shatky. Capt. C.A.M.C.

Officer in medical charge of case.

I have satisfied myself of the general accuracy of this report, and concur therewith, *except*† ~~MOORE BARRACKS, CANADIAN HOSPITAL, SHORNCLIFFE~~

Date 21/7/15

Wallace a. Scott
~~LIEUT.-COLONEL, C.A.M.C. OFFICER I/C HOSPITAL~~

* Loss of teeth on, or immediately after, active service, should be attributed thereto, unless there is evidence that it is due to some other cause.

† Delete this word if no exceptions are to be made.

Opinion of the Medical Board.

NOTES.—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as, in the event of the man being invalided, it is essential that the Commissioners of Chelsea Hospital should be in possession of the most reliable information to enable them to decide upon the man's claim to pension.

(ii.) Expressions such as "may," "might," "probably," &c., should be avoided.

(iii.) The rates of pension vary directly according to whether the disability is attributed to (*a*) active service, (*b*) climate, or (*c*) ordinary military service. It is therefore essential when assigning the cause of the disability to differentiate between them (*see* Articles 1162 and 1165, Pay Warrant, 1913).

(iv.) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

(v.) A disability is to be regarded as due to climate when it is caused by military service abroad in climates where there is a special liability to contract the disease.

20. (*a*) State whether the disability is the result of (i.) active service, (ii.) climate, or (iii) ordinary military service. 1. yes 2. no 3 no

(*b*) If due to one of these causes, to what specific conditions do the Board attribute it? Bullet.

21. Has the disability been aggravated by

(*a*) Intemperance? no.

(*b*) Misconduct? no.

22. Is the disability permanent? no.

23. If not permanent, what is its probable minimum duration? 3 mths.

To be stated in months.

24. To what extent is his capacity for earning a full livelihood in the general labour market lessened at present? total

In defining the extent of his inability to earn a livelihood, estimate it at $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, *or total incapacity.*

25. If an operation was advised and declined, was the refusal unreasonable? not applicable

26. Do the Board recommend

(*a*) Discharge as permanently unfit, or. no

(*b*) Change to England? yes. 3 mths. Conv. Home.
