Treatment recommended

Probable minimum duration of treatment?

Where may treatment be most satisfactory carried out?

In your opinion is this man sufficiently recovered to return to the colors at an early date?

Does his physical condition warrant his undertaking with benefit some employment, thus supporting himself partially or entirely?

Is he likely to make further improvement under treatment in the Military Convalescent Hospital or tributary institutions?

If his case is stationary, would it be better to arrange for ultimate disposition at the present time?
