CONDITION ON ADMISSION AND PROGRESS OF CASE. This officer has, for several years, been troubled with pain in the loin and R. iliac fossa. On several occassions pain very severe and accompanied with nausea. This present attack began on 10/3/19 with stinging pain in penis and bladder on urination. He desire to urinate became more pronounced the following two days. On the third day ✕ condition worse: frequency and pain in micturition and constant pain in R. iliac fossa. Desire to urinate, difficulty control of... then followed by dribbling of urine with intense pain, He has nausea & vomited, during the severe attacks sweating was profuse.

Condition on admission to Hospital, Pale ... face with Cold moist skin. No Complaint of ... in R. iliac fossa and loin. There is definite tenderness R. loin and R. iliac fossa & particularly over appendix region, slight tenderness over bladder, No palpable mass in painful area. Pain & tenderness continued, although of a less severe character, to following two days after admission.

FAMILY HISTORY Analysis of urine the day after admission showed: microscopic blood, Pus cells, trace of albumin, few Calcium oxilate and urie acid Crystals. The third day, a stone, the size of a bean, was passed, it was of a brownish Color with a rough

TREATMENT sharp surface. After this pain in bladder & Penis disappeared, as also the frequency of micturition, Soreness in R. iliac fossa persisted, X-ray examination of Kidney and bladder with Special reference to stone proved negative. This x ray examination was carried out after stone was passed. On 19/3/19 Patient feeling very well and

CONDITION ON ADMISSION AND PROGRESS OF CASE

Sent in to C. Hill for Medical examination and report.

7-10-18 Having on this date examined the marginally named man, I am of the opinion that as regards his abdomen, there is insufficient evidence for a confident diagnosis of chronic appendix. With respect to circulatory system, allowing for the fact that he is definitely overweight, his response to functional tests is fairly good. There is trifling if any cardiac enlargement but his pulse rate at rest is rather frequent, though it recovers pretty well after standardized exercise. The heart has probably too much fat in inter ventricular groove. I think it would stand an anaesthetic all right but I do not recommend an exploratory operation on appendix at present. He is still improving generally.

10. Give a full description of wounds, scars, deformities, signs or symptoms, or abnormal conditions present, but not included in answer 8.
[Answer to this question cannot be made without stripping the officer and subjecting him to a thorough physical examination.]

Was slightly gassed at Passchendaele and found heart troublesome- he found he could not walk as fast as previously. Had Rheumatic Fever February 1914, but Medical Board passed fit in 1915. Had attack of pain in abdomen, right lower quadiant, June 1916 with tenderness and vomiting. No other attacks until in France, 1917, and these attacks followed every three months. Always had tenderness after attack and usually vomiting. Last attack Nov. 21/18 No signs present now.

11. To what extent, stated in percentages, is incapacity to earn a livelihood in the untrained labour market reduced? If there is more than one disabling condition, estimate the incapacity due to each and that due to all combined.

12. Did the disability arise on or off duty? On.

13. Was a Court of Inquiry held? N.A.

14. If the disabling condition had its origin before enlistment, has it been aggravated on service?

Yes N.A. No

(If the answer is in the affirmative, state in percentages, to what extent the pensioner is incapacitated by that aggravation.)

15. Was the disability caused or aggravated by negligence, by vice or by misconduct, or by unreasonable refusal to accept treatment?

(If the answer is in the affirmative, state in percentages, to what extent the patient is incapacitated by that causation or aggravation. In answering this question, conduct sheets should be considered. If treatment has been refused, the circumstances surrounding the refusal should be described on page 4.)

16. What is the probable duration, in months, of the disability or of each of the disabling conditions if there is more than one? 6 Months.

17. Treatment (Case reports, general or special, should be secured and attached where possible).

P.N.O. France, . Hospitals, England, France and Canada.

18. Is further treatment in hospital, convalescent home, etc., likely to be of material benefit?

No.

19. Can the former trade or occupation be resumed? - Yes-

20. Recommendations.

Director General of Medical Services.

1. In using this Form the "Instructions issued for the guidance of Medical Officers serving on Medical Boards" will be carefully followed.
2. The Medical Officer in charge of the case is responsible for the proper completion of pages 1 and 2 of this Form. The President of the Board of Medical Officers is responsible for the proper completion of the space, of page 3, reserved for recording the Proceedings of a Board of Medical Officers.
3. In answering the questions, Medical Officers will carefully obtain and record the officer's statements concerning his condition. They will distinguish observations made by themselves from hearsay. They will distinctly state the authority for statements not resulting from their personal observation; it must be made clear whether such statements are obtained from the officer concerned, from witnesses, or from documents.
4. If a complete answer to any question requires more space than that reserved for it, the answer may be continued on the blank space at the foot of this page.
5. The nomenclature of diseases to be followed is that described in "List of Diseases, printed in the order in which they appear in the Annual Report on the Health of the Army", published in London, (1915) by Messrs. Harrison & Sons.
