The marginally named was wounded on Jany. 15th, 1918 by Shrapnel, sustaining fracture of lower jaw right premolar region, with loss of large number of teeth and fracture of alveolar portion of upper jaw on the right side. He has been under splint treatment since February - Splints have been removed and X-Ray and Clinical examination shows that bony union is progressing. This will not be complete for some time and owing to large number of teeth being lost would advise invaliding to Canada. ~~but~~ there is still a small alveolar sinus present.
