INSTRUCTIONS to be observed by the Medical Board preparing the Report.

1. On the occasion of an officer's first appearance before a medical board, the circumstances under which the wound or injury was sustained will be fully detailed.

2. If the injuries be more than one, they should be numbered and described separately; and should it be considered that, though only "severe" or "slight" in themselves, they represent together the equivalent of a single 'very severe" injury, such an opinion may be expressed in the columns provided for that purpose.

3. The board will not express any opinion, either to the Officer examined, or in their report, as to whether he is entitled to compensation, or as to the amount of it, nor will it inform the Officer how the wound or injury has been classified.

PROCEEDINGS OF A MEDICAL BOARD assembled

RECEIVED MILITIA & DEFENCE APR -9 1917 H.Q. CANADA

at Winnipeg. Man..

on the 31st day of March 1917. by order of

A.D.M.S. M.D.10.

for the purpose of examining and reporting upon the present state of health of

Lieut. George G.Creighton. 43rd Battalion. C.E.F.

PRESIDENT. Capt. D.A.Macdonald. A.M.C.

MEMBERS { Lieut. W.G.Campbell. A.M.C.
Lieut. G.S.Fahrni. A.M.C.

BOARD OF PENSION COMMISSIONERS FOR CANADA. MAY 3 1917 HAS BEEN CONSIDERED FOR PENSION.

The Board having assembled pursuant to order, proceed to examine the above-named officer and find that he is suffering from shrapnel wound of left side of chest, the healed wound of entrance being a few inches below left clavicle. The piece of shrapnel is still present in anterior mediastinum behind left border of sternum. This shows up well in radiographs. There is a marked flattening and receding of left chest; flatness over left base with barely perceptibale breath sounds on auscultation. Fremitus, both vocal and tactile, about normal. There is a healed scar of incision 4" in length below angle of scapula (left) apparently a rib has been partly re-sected for drainage of lung or plural cavity.

This Officer has improved considerably since coming to Canada, although he is still rather weak and tires very easily. Short of breath on exertion. Can only walk slowly about one mile. Left lung of apparently very little service, the upper part being greatly collapsed.

The opinion of the Board upon the questions herein is as follows:—

(1) Is the officer fit for service?* No.

(2) If not so fit, how long is the disability likely to continue? We believe he is permanent-ly unfit for service and that he has had adequate treatment. His condition was received in action. We recommend his discharge from the service.

(3) To what extent does it prevent his earning a livelihood? 3/5ths. Permanent.

RECEIVED
AUG 10 1917
D.H.S. & D.-M.

The Board having assembled pursuant to order, proceed to

report that we have investigated the death of the Officer above named. From information obtainable and report made by Dr. W. J. Gunne of Kenora, Ontar we are satisfied that his death was caused by drowning on the evening of July 18th, 1917.

An inquest was not held.
