Court of Inquiry - Death of
No.781703.A/Sgt.W.Ploethner,C.F.C.

I am directed to enclose herewith copy of proceedings of Court of Inquiry held with reference to the death of the marginally named N.C.O, together with copy of A.F.W. 3428 for attachment to this N.C.O's documents.

On the night of the 20th June, 1918, at Eamont Bridge, near Carlisle, the marginally noted soldier was run over and killed by a motor car driven by William Farrar Wood, 14, Scotland Road, Stanwix, Carlisle, Supervisor, Food Production Tractors. With him in the car was Mr.John William Hewson of 42, Warwick Road, Carlisle, Veterinary Surgeon.

The court find that the accident was unavoidable as the soldier came out of a byway on a bicycle in such a manner as to cause the accident.

The finding of the court is concurred in by the Director General of Timber Operations, of Great Britain, and the Adjutant-General, O.M.F. of Canada, also concurs therein.

INSTRUCTIONS.

1. These forms are to be completed in all cases of accidental or self-inflicted injuries, involving a soldier's absence from duty, whether due to the man's own act, or that of a comrade, or to other extraneous circumstances.

2. Where several casualties occur as the result of one accident, one form is to be completed for each Officer or other rank injured, but only one set of statements from the witnesses of the accident need be attached.

3. Full statements are to be taken by an Officer from the witnesses of the accident. These statements will be signed by the witnesses making them, and by the Officer who takes them, and will be forwarded with this Form. Where it is intended to take disciplinary action, copies of these statements should be retained by the Unit for use in lieu of a summary of evidence.

4. Where it is possible to obtain it, a statement from the injured man will also be forwarded. This, however, should not be used as evidence against him in any subsequent disciplinary proceedings.

Special Instructions as to Evidence in Cases of Self-Inflicted Wounds.

5. In these cases the statements mentioned in paragraphs 2 and 3 above should bring out all material points, *e.g.*, statements to the effect that the witness was with the accused standing on the fire step (or sitting in a dug-out); that the accused was cleaning his rifle; position of safety catch, magazine, etc., if known; muzzle of rifle on toe of foot; hand on muzzle; that accused pulled trigger; that the rifle was afterwards examined and an empty cartridge case was found in chamber; that accused was seen to be wounded; what accused said ("I have shot myself," "I did not know it was loaded," etc.).

6. A soldier is specially trained in the safe use of his rifle and revolver, and evidence of any neglect of the ordinary precautions as to their handling in such cases usually has considerable bearing on the question of negligence. In cases of wilful self-wounding the fullest possible evidence should be obtained; unless the evidence is conclusive this charge should not be used. The charge will therefore usually be laid under sec. 40 Army Act—"Conduct to the prejudice of good order and military discipline in wounding himself through negligently handling a rifle," and an alternative charge to this effect should be made, even if the accused is to be tried under section 18 for wilful maiming.

The Court. having assembled pursuant to order, proceed to take evidence.

Lieut.Frank R.Reeve.Adjutant.131 Company.C.F.C.Cliburn having been duly sworn states as follows.

I am a Lieutenant 131 Company.C.F.C. I identify the body as Sergt.William Ploethner 131 Company. Canadian Forestry Corps.Reg.No. 781703. late of Moose Jaw, Saskatchewan, aged about 26 years.He would leave camp about 7.00.P.M.

F.R.Reeve Lieutenant.

131 Coy C.F.C.

Dr.Hubert Walter Ward.Medical Practitioner,Penrith having been duly sworn states as follows.-.

I live at Bishopyards Penrith and I am a Doctor practising in Penrith on behalf of Dr.Johnston. I was called on Thursday June 20th between 10 and 10.30.P.M. to go to Eamont Bridge to an accident. I found a man lying at the side of the road in a pool of blood not conscious bleeding from both ears.I sent for an ambulance and did what I could. He died however before reaching hospital. His injuries were.-.Fracture of base of skull which was the cause of death, cut over right temple slight scalp wound back of head, compound fracture leg above ankle, abrasions on both knees and hips and down left side. I think fracture caused by contact with road and not car. It was light when I arrived at Eamont Bridge.The body was about 15 yards from the Skirsgill Road end.

H.Walter Ward. LRCP & SEdec

Lieut.Stanley L.Glanfield having been duly sworn states as follows.-.

I am a Lieutenant and Adjutant 133 Company.C.F.C.At 10.10.P.M. on the 20th inst. I was cycling towards Penrith and had just crossed Eamont Bridge and was ascending hill towards Penrith I heard a motor Car horn sound behind me.I turned around but could see nothing in sight. I then dismounted and immediately heard crash. When I looked back previously there was no car or anyone on the road. I do not remember seeing anyone on the road to the left but I did not take particular notice. When I heard the crash I turned around immediately. I noticed a bicycle and a man being dragged along under the car. I should estimate he was dragged about 20 yards but what I actually saw would be about 10 yards. The car was quite over to the right hand side of the road at that time.

I examined the wheel marks on the road immediately after the accident, on the bridge they were in the middle from the point where the car must have struck the man they slanted to the right. I found the Sergt, bleeding profusely and I asked Mr.Hewson to rush for a Doctor. Mr.Hewson was I believe a passenger in the car. I do not remember that anything was said then about the accident. I was primarily concerned about the man's life. When the Doctor came I went with Mr. Hewson for the ambulance. I met Major Walker and Mr.Reeve and went back with them to the scene of the accident. After the ambulance had left I went back in Mr.Hewson's car and they left me near the Beacon camp. The deceased would be able to hear the horn. It was quite light.

Stanley Glanfield Lieutenant. 133 Coy C.F.C.

Mr.Joseph William Hewson having been duly sworn states as follows.-.

I live at 42 Warwick Rd.Carlisle and am a Veterinary Surgeon. On the 20th inst.Mr.Wood met me with a Motor Car on the road to Penrith from Kirkby Stephen. I then had to go to Lowther Castle. The car is mine. Mr.Wood brought it out to meet me-A Ford Car 20.H.P-. When at the other side of Eamont Bridge Mr.Wood was driving. I was sitting next to him. Just the other side of the bridge the horn was only sounded once. The road was clear. It was clear when we got to the top of the bridge. When we were more than half way down the incline from the bridge a man came out of a side road on the left on a bicycle.He appeared to be going to cross the bridge. At first I thought he was going to keep to the right but eventually he attempted to cross the road right in front of us. When I first saw him he was about 7 or 8 yards away. The brakes were applied before we struck the man. I think we ran about 15 yards before pulling up. I think the speed we were travelling would be about 15 miles per hour when we struck the man. We had been travelling about 12 miles per hour before we croseed the bridge. The car and brakes are in good order.I thought the man was thrown off the cycle to the right. I knew the bicycle was under the car and that was partly the reason why the car was not pulled up sooner.I think the car could be pulled up in 10 tp 15 yards travelling at the speed we were going.

I was half way down incline from bridge when I saw deceased. We could be about a yard or two Eamont Bridge side of Lamp Post when we hit deceased. When we struck deceased he was on his right side of road but was broadside to us. The brakes were applied when we came into view.

J.O. Hewson

William Farrar Wood having been duly sworn states as follows.-.

I live at 14 Scotland Rd., Stanwix Carlisle and I am Supervisor Food Production Tractors. On the 20th inst I came to meet Mr. Hewson at Penrith. I took him to Lowther Castle. I was driving car from the village of Eamont Bridge to the Bridge. I was travelling from 12 to 14 miles an hour-clear road. I sounded horn just the other side of Eamont Bridge-once only-but loud blast. When we got to top of incline in bridge over river we had a clear road. When, I think, rather more than half way down incline I saw a man and cycle. I did not actually see him come out of the side road. I was practically on top of him before I saw him. He seemed to be coming fast as though to mount the incline. He first swerved to the right and I thought he was go ing to pass on right. He then seemed to re-consider and turned right over to the left. I had swerved to right to avoid him and so dashed into him. I applied brakes just before I struck him. The car would be gaining speed when it struck him. I thought cycle was under car but not man. I might have pulled up a little quicker if I had known man was under car. When we pulled up I think deceased was in front of the car and the bicycle under towards the back. I think it a very dangerous road. I applied the brakes to the fullest extent. I might have applied them harder during the last yard or two if I had known deceased was under. I have driven a Ford Car for 2 years and I consider brakes would be in good working order. I have driven this car many times before. I did notice Mr. Glanfield. I know road well. I think 27 miles an hour is top speed to be got out of this particular car on a good road.

W. J. Wood

Acting Sergt. Robert Swan, Penrith Police Force having been duly sworn states as follows.

I am stationed at Penrith. On the 20th inst at 10.30. I heard of accident. When I got there deceased had been conveyed into cottage close by. The car was not there. Mr. Wood and Mr. Hewson were there and Lieut. Glanfield. I examined wheel marks at Bridge top, in centre of road about 6 yards down the marks slanted to the right. There was nothing on the road to point directly to the place where car first struck but Mr. Hewson pointed out the place. The car had apparently pulled up in a line with the side of the Skirwith Rd farthest from river, mark more on right than left side. I stepped the space between these marks and found them 27 paces from where car struck and car stopped.
