Statement of Case.

Note.—The answers to the following questions are to be filled in by the Officer in medical charge of the case. In answering them he will carefully discriminate between the man's unsupported statements and evidence recorded in his military and medical documents. He will also carefully distinguish cases entirely due to venereal disease.

- 9. Date of origin of disability. April 1916
- 10. Place of origin of disability. Shorncliffe Camp, England, France.

11. Give concisely the essential facts of the history of the disability, noting entries on the Medical History Sheet bearing on the case.

Pains began in April 1916 in hips and back. He was working in the Engineers Corps and had heavy lifting to do. He was exposed to a great deal of wet weather and was frequently wearing clothes which were wet. He was sent back to Shorncliffe to the 33rd Batt. & from there to Meuse Barracks Hup. for 4 weeks. From here he was sent to Auxigny for 14 weeks, where he improved. From there he went back to Folkestone where he worked for about 4 weeks & had to give up.

- 12. (a) Give your opinion as to the causation of the disability. Exposure in duty.
- (b) If you consider it to have been caused by wounds received or illness contracted (1) in the presence of the enemy (2) on active service, explain the specific conditions to which you attribute it. (See notes on page 3). No

Opinion of the Medical Board.

NOTES.—(i.) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as it is essential that the Members of the Pensions and Claims Board should be in possession of the most reliable information to enable them to decide upon the man's claim to pension.

(ii.) Expressions such as "may," "might," "probably," &c., should be avoided.

(iii.) The rates of pensions vary according to whether the disability is attributed to wounds or injuries received or illness contracted (1) in the presence of the enemy, (2) on active service. It is therefore essential when assigning the cause of the disability to differentiate between them (see Articles 641 to 648 of the Canadian Pay and Allowance Regulations).

(iv.) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

20. (a) State whether the disability is the result of injuries received or illness contracted, (1) in the presence of the enemy, (2) on active service.

1 yes
2 yes

(b) If due to one of these causes, to what specific condition do the Board attribute it?

Service conditions aggravating an old disability

21. Has the disability been caused or aggravated by

(a) Intemperance? — no
(b) Misconduct? — no

(c) Negligence

22. Is the disability permanent?

yes in this climate

23. If not permanent, what is its probable minimum duration?

not applicable

To be stated in months.

24. To what extent is his capacity for earning a full livelihood in the general labour market lessened at present?

30% and 3/4 which is due to service condition. It ought to cease in 6 mos in drier climate

In defining the extent of his inability to earn a livelihood, estimate it at $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, or total incapacity.

25. If an operation was advised and declined, was the refusal unreasonable?

26. Do the Board recommend

(a) Fit for duty? — no
(b) Fit for base duty? — no
(c) Invalided to Canada? — no
(d) Discharge as permanently unfit — yes

27. Remarks.

this man states he had lumbago in civil life so had at times he could not lace his boots
