ANNUAL REPORT

OF THE

DEPARTMENT OF INDIAN AFFAIRS

FOR THE

YEAR ENDED MARCH 31

1932

OTTAWA

F.A. ACLAND

PRINTER TO THE KING'S MOST EXCELLENT MAJESTY

1932

To His Excellency Captain the Right Honourable The Earl of Bessborough, P.C., G.C.M.G., Governor General and Commander-in-Chief of the Dominion of Canada.

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Annual Report of the Department of Indian Affairs for the fiscal year ended March 31, 1932.

Respectfully submitted,
THOMAS G. MURPHY,
Superintendent General of Indian Affairs

OTTAWA.

REPORT
OF THE
**DEPUTY SUPERINTENDENT GENERAL OF
INDIAN AFFAIRS**
FOR THE YEAR ENDED MARCH 31, 1932

REPORT OF THE DEPUTY SUPERINTENDENT

GENERAL

OTTAWA, August 1, 1932.

Hon. THOMAS G. MURPHY,
Superintendent General of Indian Affairs,
Ottawa.

SIR, - I have the honour to submit the report of the Department of Indian Affairs for the year ended March 31, 1932.

In the following pages will be found a brief outline of the more important administrative activities of the department during the period under review.

There has been no appreciable change in the condition of the Indians since the publication of the Report for the fiscal year ended March 31, 1931.

FARMING AND STOCK RAISING OPERATIONS AMONG THE INDIANS OF THE PRAIRIE PROVINCES

The year 1931 will be remembered for the marked variation in seasonal conditions as between the Northern and Southern sections of the Prairie Provinces. In the North wet weather interfered with seeding operations, and later with the work of summerfallowing. In the South the drouth made it extremely difficult to seed at all, very little summerfallowing was accomplished, and after the usual spring work had been done under discouraging conditions constant high winds sweeping from the foothills in Alberta to the Manitoba boundary dislodged and carried away the top soil, and exposing the seed to destructive elements rendered nugatory the farmers' earlier labours and brought about a crop failure. It is not surprising, therefore, when it is remembered that Indian farming operations are mainly carried on in the South, that the harvest from 73,241 acres produced only 668,601 bushels of the various grains. Five of the Southern Saskatchewan agencies experienced a total crop failure, while one other and two in Manitoba had partial failures. And this regrettably in a year when the acreage in crop on Indian lands was larger than in any previous year.

The data compiled of Indian activities show however that progress has been maintained in husbandry. There are 2,425 farming Indians who have under cultivation 114,235 acres. Of this, 73,421 acres were under crop; the growing of roots and tubers and the cultivation of gardens account for 1,447 acres; summerfallowing aggregated 36,213 acres; and new land was broken to the extent of 3,154 acres. The Indians on the whole are well provided with the equipment necessary to resume their operations in the spring.

Haying is an important adjunct to farming. Although at one time owing to the continued drouth the situation appeared to be extremely critical, timely rains late in the season brought about a remarkable change, provided a useful and in most instances, adequate supply of feed, and thus removed the probability of serious losses among the cattle during the winter. These numbered 21,435 head on the 31st March.

The erection of comfortable and more commodious dwellings during the last few years has been a feature in the growth of civilizing influences among the Indians of the Prairie Provinces. These new homes provide many conveniences and the light and ventilation that was lacking in the old, a healthier environment for the children, and has encouraged the owners to appreciate the value of other pursuits, to augment their sources of livelihood such as the cultivation of gardens, raising chickens, and in some instances pigs, turning their attention to milking and even the art of butter making. These are all distinctive factors in the gradual breaking down of the barriers between indolence and useful industry.

INDIAN HEALTH SUPERVISION

During the year under review economic conditions have prevented any general extension of health activities. The health of the Indians, fortunately, has been good. There have been some local outbreaks of smallpox and other communicable diseases, but none have developed into epidemics, thanks, in large part, to the vigilance of local officers. Game has been relatively plentiful in the Northern districts, and the hunting Indians have had a good food supply, one of the most important factors in the maintenance of their health. Among the farming Indians, health conditions have been reasonably good. The industrial groups have suffered a great reduction in income, owing to unemployment, and it is to be feared that in some cases, growing children have been undernourished. At one large Reserve this condition was so apparent that the Department for a considerable time gave the school pupils a daily lunch of bread, butter, tinned tomatoes, peanut butter and fresh milk. With this addition to their diet, the pupils of one school room gained in weight an average of more than three pounds in one month.

TUBERCULOSIS

It has not been financially possible to extend the effort of combatting tuberculosis, nor, indeed, to maintain it at its former standards. The Department has been compelled to limit admissions of tuberculous Indians to sanatoria and hospitals, and it must be anticipated that this will result in an increased spread of the disease. It is quite apparent that the public at large does not realize the menace of Indian tuberculosis. In the Province of Saskatchewan, the death rate from tuberculosis among white people is 28.3 per 100,000 of population. Among the Indians of the same Province the rate is 586.3. One-quarter of the deaths from tuberculosis in that province occur among one-tenth of the population. A similar condition obtains, in greater or less degree in every province. If the social contact between Indians and white people were as intimate as it is among the members of either group, the effect would be disastrous.

The remedy is not impossible, either from a scientific or financial standpoint. The Department stands ready to go forward, but cannot do so until popular demand, as expressed in parliamentary appropriations, makes it possible to proceed.

TRACHOMA

In the field of treatment of eye disease the Department is pleased to be able to report definite progress. So many exaggerated reports have appeared of the prevalence of Trachoma among Indians that it appears advisable to set forth the facts as known.

There is no possible doubt that Canadian Indians have had Trachoma, in greater or less degree, for at least one hundred years. The older Indians of the Prairie Provinces agree in the view that it came into the country from the

south. Whatever its source, it is very prevalent among the Indians living in the settled districts of the Prairie Provinces. It exists in British Columbia, but, as the survey of that province has not been completed, information is lacking as to the extent of its spread. There is no evidence that the hunting Indians of the wooded northern districts are affected in any appreciable degree. These statements are founded on the reports of an eye specialist who has had intensive training in the diagnosis of Trachoma, and who has made a careful survey of the Indians of the Prairie Provinces, and a partial survey in British Columbia.

Trachoma is a very serious disease, but it does not develop rapidly in the individual, nor spread through a community in a short time, as does smallpox or measles. Fairly close contact is required for its transmission. It can and does spread fairly rapidly among the members of a group in intimate contact, such as a family or the pupils of a residential school, but rapid and overwhelming extension from such a group to persons or communities outside is scarcely able. At the same time, the danger of gradual extension from the borders of an infected community is not to be overlooked. Residence near an Indian Reserve or white community of which a substantial proportion of the members have Trachoma is not without its dangers. The hand which wipes away the infected eye secretions may in the next moment transfer them to the hand of a healthy person who may rub his own eyes before the secretions have lost the power of infection. The danger is not great, but it exists, and explains the anxiety of the Department and the Provincial Governments. The Department has also the humanitarian duty of combatting a disease, which while not confined to Indians, nor as dreadful as published reports would indicate, constitutes one of the most acute public health problems of the country.

A substantial beginning has been made in dealing with this problem. The eye specialist who was employed to make the survey in 1930, has been in the field since December, 1931, and has instituted an active system of diagnosis and treatment. He has received the utmost co-operation from everyone concerned with the welfare of the Indians, and rather an unexpected response on the part of the Indians themselves. The difficulty of effectively reaching the older Indians on the Reserves has not, on the whole, been as great as was anticipated, and a great proportion of the growing generation, the pupils in residential schools, are under almost ideal conditions for treatment. The segregation of these children, of course, also provides the intimate contact favourable to the spread of the disease. They are, however, under control and supervision which would be lacking at home, and the opportunity for treatment is vastly better at the school. A simple plan of preventive treatment, designed to protect the unaffected, is in use, and is considered to be effective. The affected pupils are under treatment, carried out by the nurse or other person in immediate charge, under the direction of the local doctor, and supervised by the Departmental specialist at his periodical visits. The school is utilized as a centre for examination of the surrounding Indian population, and encouraging reports have been received of the interest of the Indians at home having been awakened by letters from their children at school.

Substantial improvement is already apparent, but it must not be supposed that Trachoma among Indians can be conquered in a short campaign. It is impossible to be certain that a patient is cured of it. Progress toward blindness may be halted, and the disease may be apparently arrested, the inflammation and other physical signs may disappear, but there may be a recurrence or reinfection later on. The Department has good reason to hope that treatment and education, both at the schools and on the reserves will result in gradual elimination of this disease, and will prevent many Indians losing their sight, wholly or partly, but does not anticipate that the disease will disappear during the lifetime of this or the next generation.

It is imperative, in the interest both of the Indians and the white population, that the effort be intensified. One specialist cannot possibly give effective

supervision to such a great area, and to so many different places and people. Increased nursing services are required for this purpose also.

GENERAL

The Department hospitals and field nursing services have been carried on as usual throughout the year. A Medical Superintendent, giving his entire time to Indian attendance, has been appointed at a large agency in southern Ontario. A doctor has been appointed as Indian Agent at Fort Chipewyan, in northern Alberta. It has been found necessary to eliminate the services of three nurses, and a number of field matrons for reasons of economy.

While the past year cannot be said to be one of progress, except in the field of Trachoma, essential services have been maintained, and the Department wishes to acknowledge the loyalty and co-operation of all its whole and part-time employees in the field who have carried on the service at lower incomes, and under various difficulties created by the financial situation.

EDUCATION

During the past few years, there has been a very encouraging increase in the attendance of Indian children at the schools maintained by the Department. For the fiscal year 1931 - 32, there was an enrolment of over 17,000 and an average attendance of over 13,000. The percentage of attendance was 76.36, which is a record for the work. The following table shows the rapid increase in enrolment and attendance during the past 10 years: -

Fiscal year	Residential schools		Day schools		Total		
...	Enrolment	Average attendance	Enrolment	Average attendance	Enrolment	Average attendance	Percentage of attendance
1921 - 22	5,031	4,360	7,990	4,308	13,021	8,668	66.56
1922 - 23	5,347	4,695	8,376	4,411	13,723	9,106	66.35
1923 - 24	5,673	4,856	8,199	4,332	13,872	9,188	66.23
1924 - 25	6,031	5,278	8,191	4,601	14,222	9,879	69.46
1925 - 26	6,327	5,658,	8,455	4,940	14,782	10,598	71.69
1926 - 27	6,641	5,881	8,069	4,660	14,710	10,541	71.66
1927 - 28	6,795	6,043	8,223	4,823	15,018	10,866	72.35
1928 - 29	7,075	6,282	8,272	4,976	15,347	11,258	73.35
1929 - 30	7,302	6,476	8,441	5,103	15,743	11,579	73.55
1930 - 31	7,831	6,917,	8,584	5,314	16,415	12,231	74.51
1931 - 32	8,213	7,400	8,950	5,707	17,163	13,107	76.36

During the year, 80 residential schools and 270 day schools were in operation - a total of 350 centres of Indian educational activity. There were no changes in the residential schools during the year, but two day schools, where the attendance was poor, were closed. Although Parliament's Appropriation for Indian Education was materially reduced, the Department has been able to maintain its educational services in full. Of necessity, however, comparatively little was expended for new buildings and for the repair of existing physical equipment. During the year, new main buildings were completed at three residential schools: - Birtle, Man. (Birtle); Lestock, Sask. (Muscowequan); and St. Paul, Alta. (Blue Quills). Further, the Department assisted the church authorities with the reconstruction of main buildings at the following Indian residential schools: - Albany, on James Bay, Ont., St. Bruno's, near Grouard, Alta., and Wabasca R.C., at Wabasca, Alta.

At Indian day schools, the Department is trying to make the work as attractive as possible and to correlate classroom exercises with reserve and Indian home activities. At the residential schools, vocational training continues to receive

the proper emphasis. The managements of these institutions

are giving every assistance to the Department with this programme. The co-operation of the churches in the management of these residential schools is as follows: -

Roman Catholic	44 residential schools
Church of England	21 residential schools
United Church	13 residential schools
Presbyterian Church	2 residential schools
Total	80 residential schools

At the present time, Indian schools adopt the provincial curricula but place special emphasis on language, reading, domestic science, manual training and agriculture. It is hoped to prescribe, in the near future, a complete course of studies for Indian schools in Canada. In the junior grades, at least, there will be a departure from the provincial courses, which are not altogether suitable in either scope or content for Indian children. During the past few months, there have been published some exceptionally suitable readers and other texts. It is hoped to supply these to Indian schools.

All Indian schools are regularly inspected by officers of the Department. In addition, public and separate school inspectors visit all classrooms, except in the provinces of New Brunswick and British Columbia, where there are special Indian school inspectors. Fully qualified teachers are engaged whenever possible.

The health of Indian children studying in boarding schools continues to receive special attention. Good medical supervision has been arranged and much thought is given to physical education, proper diet and sanitation. During the year, extraordinary care was taken to prevent the loss of life by fire. In the schools where the hazard is serious, night watchmen are employed and at all schools fire drill is practised regularly.

The practice of assisting the most promising and industrious graduates of Indian schools was continued. Approximately 250 young Indian men and women were helped to continue their studies or to establish homes. Except in those Indian communities where successful farming is found, the school graduate presents a problem which is very difficult of solution. The department and the churches interested are trying new schemes and searching for better methods of helping the young people to establish themselves.

The expenditure for Indian education for the fiscal year ended March 31, 1932, amounting to \$2,004,957.34, is analyzed in the following table. In addition to this amount, there was expended for educational purposes from a special appropriation for British Columbia Indians the sum of \$14,636.12. This last amount was used for technical training at British Columbia Indian schools and in assisting promising graduates to continue their studies.

INDIAN EDUCATION VOTE - EXPENDITURE FOR YEAR 1931 - 32

Provinces	Day Schools	Residential schools	Stationery	Tuition and assistance to ex-pupils	Miscellaneous	Total
...	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.
Prince Edward Island	894 69	...	88 93	259 60	...	1,243 22

LANDS AND TIMBER

LANDS

General conditions during the fiscal year 1931 - 32 differed little from the previous year except that a continuance of the depression made it still more difficult for purchasers or lessees, of Indian lands to make the payments required of their contracts. In western Canada, where wheat is the most important source of revenue, collections were much below normal. Every possible effort was made to collect at least a substantial portion of the accumulating arrears, but in the majority of cases little or no payment could be made. Crops were poor in most localities, and prices received were below actual cost of production. No other alternative remained but to await another year in expectation of some improvement.

On the Blackfoot Reserve in Alberta a large number of purchasers were some years ago placed under crop share agreements owing to serious default in their original sales contracts. These have weathered the storm better than others as definitely stipulated shares of their crops have consistently and consecutively been taken over by the Department and the proceeds placed to their credit. Most of these accounts are in a satisfactory condition with every prospect of early release.

In very few instances have sales been cancelled or lands repossessed by the Department, and such action, when taken, was invariably at the request or with the consent of the purchasers. The Department did not during the year make any special effort to sell lands vacant or otherwise available owing to the fact that local sales prices were, owing to the general conditions, considered much below actual local values. On the other hand, it will undoubtedly be many years before prices will be equal to those received during the years immediately preceding 1928.

PETROLEUM AND NATURAL GAS

There was very little activity in prospecting for petroleum and natural gas on Indian Reserves, and such operations as were formerly conducted on the Stony Reserve near Calgary have for the time being ceased, owing, presumably, to the difficulty in securing the necessary finances. Exploration by test drilling continued during the year on the Blood Reserve, and it is expected that the parties interested in the leases covering the northern portion of the reserve will sink a deep well during the coming year for the purpose of definitely determining whether any potential oil or gas resource underlies these lands.

LEASES

Under the provisions of section 11 of the Regulations for the Disposal of Indian Lands leases were issued to white men at the request of Indian locatees to the number of 91, and on March 31 last there were 1,298 leases current.

LOCATION TICKETS

Location tickets, granting title under the provisions of the Indian Act, to individual owners for lands on the reserves were issued during the past year to the number of 146, and on March 31 last there were current 2,898 location tickets.

ENFRANCHISEMENT

Under the provisions of section 114 of the Indian Act there were carried out during the past fiscal year twenty-nine enfranchisements, the total number of men, women and children enfranchised being 57.

LAND PATENTS

During the fiscal year 1931 - 32 there were issued 179 patents to Indian lands purchased and paid for in full.

MINING

During the fiscal year 1931 - 32 prospectors' permits to the number of 77 were issued, covering prospecting privileges on Indian Reserves in various parts of Canada. Sixty-one permits were issued for the purpose of prospecting for gold, 8 for oil and gas, 6 for coal and 2 for silica. Most of the activity in this regard occurred in the Province of British Columbia, where 46 permits, were issued for the purpose of prospecting for precious metals.

Several mining leases were issued during the year; three in the province of British Columbia for the purpose of mining gold, 1 in the Province of Quebec for a similar purpose, and in the Province of Manitoba for the mining of gypsum.

During the year the sum of \$385.00 was received from the issue of prospectors' permits, and an additional sum of \$200.00 in rental from the leasing of mining rights.

TIMBER

The widespread inactivity in the lumber market throughout the Dominion during the season 1931 - 32 was reflected in the quantity of timber cut for sale from Indian Reserves, as the total cut was 25 per cent less than during the previous year. A corresponding drop in the revenue from timber royalties and dues was registered, and this was somewhat accentuated by reason of the fact that a majority of timber permits were issued free of dues, to the Indians as a measure of relief, and in order to provide them with some employment.

The kinds and quantities of timber cut were as follows. -

Pine (white)	310,406 f.b.m.
Pine (Yellow or bull)	821,430 f.b.m.
Pine (red or Norway)	27,836 f.b.m.
Pine (Jack or banksian)	1,805,439 f.b.m.
Spruce (various)	1,819,232 f.b.m.
Hemlock (western)	1,257,480 f.b.m.
Hemlock (eastern)	827,376 f.b.m.
Cedar (red)	835,426 f.b.m.
Cedar (white)	386,482 f.b.m.
Fir (Douglas)	7,236,425 f.b.m.
Fir (balsam)	2,778,444 f.b.m.
Maple	23,728 f.b.m.
Birch	55,000 f.b.m.
Elm	15,995 f.b.m.
Poplar	6,344 f.b.m.
Alder	61,571 f.b.m.
Cottonwood	724,159 f.b.m.
Cordwood (mixed)	8,705 1/2 cords
Pulpwood	8,583 cords
Shingle bolts	412 cords

Ties	118,182
Poles	3,590
Posts	8,809
Piling	223,768 lin. ft.

The total quantity of timber cut for sale, in terms of board measure feet was approximately 30 million, whilst in addition to this, the Indians cut approximately another 8 million f.b.m. for building, fencing and fuel purposes.

Cash receipts were as follows: -

Licence dues and royalties	\$37,122 84
Permit dues	13,835 67
Trespass dues	294 99
Rentals and fees	1,985 40
Payments on account	723 26
Interest on overdue accounts	695 55
Compensation for flooding lands	3,500 00
Deposits on timber sales	2,303 75
Sand and gravel	6,317 44
Total	\$73,288 90

Sales of timber during the year were: -

Klahoose Reserve, B.C.	Deposit	\$250 00
Khrana Reserve, B.C.	Deposit	853 75
Lawanth Reserve, B.C.	Deposit	100 00
Doncaster Reserve, Que.	Deposit	100 00
St. Croix Reserve, N.B.	Deposit	1,000 00

There were 20 timber licences current on April 30th, 1932, being one less than the previous year, 4 having been relinquished and 3 new licences issued.

FOREST PROTECTION

Generally speaking the season of 1931 was more hazardous than the previous year, the most dangerous period being between July 15th, and August 10th, although the month of May was very dry and contributed a serious risk.

The number of forest fires on Indian Reserves was 47 being thirty per cent greater than the previous year, and 65 per cent of the total number of fires occurred in the province of British Columbia where doubtless the weather conditions were unusually hazardous.

Total number of fires	47
Total area burned	3,700 acres
Merchantable timbered area burned	370 acres
Quantity of timber burned: - 185,000 f.b.m. and	1,200 cords
Estimated value of timber burned	\$1,150
Area of 2nd growth timber burned	4,200 acres
Estimated value timber burned	\$850
Area of cut over land or slashings burned	700 acres
Value of material destroyed	\$250
Non-forested area burned	150 acres
Value of other property burned	\$2,748
Actual cost of extinguishing fires	\$5,568
Fire classification: -	...
...	Number of fires
Class "A" (less than 1/4 acre)	5
Class "B" (less than 10 acres)	28
Class "C" (less than 500 acres)	13
Class "D" (more than 500 acres)	1
Fire causes: -	...
...	Number
Indians	5
Tourists	8
Fishermen	10
Brush burning	9

Smoking	4
Lightning	2
Unknown	9
Fire occurrence (months): -	...
May	8
June	3
July	14
August	17
September	4
October	1

The expenditure incurred in forest protection during the year was \$11,550 for wages of Indian rangers and \$875 for equipment.

The Engineering works mentioned in the following lists have been carried out by the Department on the various reserves throughout Canada during the current fiscal year.

BRIDGES

Repairs were made for the maintenance of bridges on the following reserves - Six Nations, Tyendinaga, Kettle and Stony Point, and New Credit, Ont. Thunderchild, Sask. An overhead bridge with a steel superstructure was erected

jointly by the Quebec Provincial government, this Department and the Canadian Pacific Railway Co. over their line on the Hull Maniwaki Highway, on the Maniwaki Reserve, Que. A foot traffic bridge with a cable span is being erected across the Bella Coola River, at Bella Coola, B.C., with the Provincial Government's assistance.

DRAINAGE SYSTEMS

Drainage works for the improving of farm land were carried out on the following reserves, - Rama, Sarnia, Oneida, Chippewa and Caradoc, Ont. North Temiscaming, Ouatouchuan, Que.

ELECTRIC LIGHTING SYSTEMS

An electric lighting system is being installed in the Kincolith Indian village, B.C.

IRRIGATION SYSTEMS

Irrigation systems were constructed or improved on the following reserves in British Columbia to gradually increase the farming operations and bring additional land under cultivation, -Okanagan, Niskonlith, Adams Lake No. 4 and 4A, Cook's Ferry and Columbia No. 3.

ROADS

Maintenance work has been carried out on highways and main improved roads, improved either directly by this department or in co-operation with the Provincial government on the following reserves, -

Ontario. - New Credit, French River, Caradoc, Rice Lake, Alnwick, Saugeen, Cape Croker, Tyendinaga, Parry Island, Shesheganwaning, Kettle Point, Walpole Island, Cockburn Island, Six Nations, Golden Lake, Sucker Creek.

Quebec. - St. Regis, Ouatouchuan, Restigouche.

Nova Scotia. - Whycocomagh, Sydney and Middle River.

New Brunswick. - Tobique and Burnt Church.

Manitoba. - Fort Alexander, Fisher River.

Saskatchewan. - Cote.

British Columbia. - Cowichan, Kuper Island, Lillooet, Penelakeet No. 6.

WATER WORK SYSTEMS

Water supply systems were extended or improved on the following reserves for domestic purposes and for fire protection, - Sechelt, and Casca, B.C. A number of artesian wells were bored for the supplying of pure water on the following Indian villages, - Pointe Bleue and St. Regis, Que.

WHARVES

A wharf was constructed at Shawanaga, Ont.

SURVEYS

The following is a list of the principal surveys conducted by the department during the fiscal year ending March 31st, 1932: -

NOVA SCOTIA

A road survey was made in connection with the Pomquet Indian reserve.

QUEBEC

A new reserve was selected and surveyed for the Coocoocache Indians.

The following lots were surveyed and posted in the Caughnawaga Indian, reserve: - 213A, 592, 593, 594, 573, 435, 436, 437, 440, 512, 509, 441, 627, 632, 628, 629, 607, 608, 609, 561, 562, N. part 129, 136, 428 404, 532, 534, 641, 642, 643, 596, 595, 594, 593, 565, 566, 567, 568, 42, 42A, 208, 201, W. part of 214, 332, 537, 539, 211, 365, 362, 359, 451, 452, 455A, 248, 254, 255, 256 and Caughnawaga Village Lots, Nos. 35, 36, 37, 38, 39A, 47, 168, 169, 170, 583, 704, 705, 731, 298, 296A, 673, 674, 753, 752, 751, 544, 542, 533A, 574A.

PRINCE EDWARD ISLAND

The boundaries of Scotch Fort I.R. No. 4 were surveyed.

ONTARIO

A retracement was made of the East boundary of the Saugeen Indian reserve.

Drainage surveys were made in the Sarnia Indian reserve and plans, profiles, estimates and specifications were prepared.

Part of the South East boundary of the Gros Cap Indian reserve was retraced, and a survey was made of a parcel of land in the Algoma Steel Company's property on which Indian improvements are located.

A survey was made of part of the shore line of the Rainy Lake Indian reserves Nos. 1, 16A and 18B to ascertain the amount of land destroyed by the raising of the waters of, Rainy Lake.

A survey was made of Lot 25, Con. A., Tyendinaga reserve.

A survey was made in connection with Con. 12, Orford Township.

SASKATCHEWAN

The lands were selected for proposed reserve at Candle Lake for the Amos Charles and James Roberts bands.

ALBERTA

The selection and survey of reserves for the Chipewyan band of Indians at Fort Chipewyan was commenced.

The survey of the main reserve No. 201, at the delta of the Athabasca River was not completed, pending further arrangements with the provincial government.

Surveys of the following reserves for this band were completed: - I.R. No. 201A, at Old Fort Point on Lake Athabasca; 201B, at mouth of Athabasca River; 201C and D, near Richardson Lake; 201E, on Richardson Lake; 201F, at Point Brule, on the Athabasca River, in Tp. 104 - 9 - W. 4 M; 201G, at Poplar Point, on Athabasca River, in Tp. 102 and 103 - 9 - W. 4.

BRITISH COLUMBIA

A survey was made in connection with the cut-off of the Penticton Indian reserve No. 1.

The West boundary of the Musqueam I.R. No. 2 was re-established.

The boundaries of the Canoe Creek I.R. No. 2 were re-established.

A survey was made of the school property on the Massett I.R.

The North boundary of the Williams Lake I.R. No. I was re-established and the boundaries of Williams Lake Indian reserve No. 15 were re-established.

A survey was made of the boundary of the Kamloops Industrial School lands.

SUMMARY OF INDIAN AFFAIRS BY PROVINCES AND TERRITORIES

The local administration of Indian lands, on the reserves scattered throughout the Dominion, is conducted through the department's agencies, of which there are in all 116. The number of bands included in an agency varies from one to more than thirty. The staff of an agency usually includes various officers, in addition to the agent, such as the medical officer, clerk, farm instructor field matron, nurse, constable, stockman, etc., according to the special requirements of the agency in question. At many of the smaller agencies in the older provinces, where the Indians are more advanced, the work is comparatively light, requiring only the services of an agent. The work of the agencies is supervised by the department's inspectors.

ONTARIO

Agencies. - The Indian Agency offices in Ontario are located as follows: Brantford, Cape Croker, Chapleau, Chippewa Hill (Saugeen), Christian Island, Deseronto, Fenella (Alnwick), Fort Frances, Gore Bay, Hagersville, Highgate, Kenora, Longford Mills, Manitowaning, Moose Factory, Muncey, Parry Sound, Peterborough (Rice and Mud lakes), Port Arthur, Port Perry (Scugog), Ruby (Golden Lake), Sarnia, Sault Ste. Marie, Sutton West (Georgina and Snake Island), Sturgeon Falls, Thessalon, and Walpole Island.

Tribal Origin. - The great majority of the Indians of Ontario are Ojibwas, and are of Algonkin stock. The Oneidas of the Thames, the Mohawks of the Bay of Quinte, the Mohawks of the Parry Sound district, and the Six Nations of the Grand River, are of Iroquoian stock. There is a band of Pottawattamies at Walpole Island, and Delawares at the Caradoc (Muncey) agency; these are of Algonkin stock.

Occupations. - The Indians in the south-western and central parts of Ontario engage largely in farming. The reserves generally are well suited to this purpose and the activity of the department's field agents has resulted in a steady improvement both in the methods of operation and the results achieved. The success achieved by the returned soldiers of this province has been especially creditable and they are rapidly developing prosperous communities.

During the summer months Indians find a profitable source of income as guides and canoe-men. Many are employed at various industries and trades, while railway and navigation companies employ a large number. As a rule they are excellent bushmen and many find employment in the various lumber camps. There is still an excellent market for snowshoes, canoes, and moccasins, and these are usually manufactured by the older members of the community.

The women also have many sources of income; some are employed as domestics; others support themselves by making baskets and fancy work. In certain districts berry-picking is an important item and furnishes considerable income.

Dwellings. - The great majority of the Ontario Indians have comfortable farmhouses which compare very favourably with those of their white neighbours. Many own houses of brick and stone, although in the outlying and more remote districts the old log houses are in the majority. In the more settled districts the Indians have followed the examples of the whites and both houses and farm buildings are comfortable and of excellent construction.

New Ontario. - In the remote parts of Ontario hunting and fishing are still the chief sources of livelihood. Acting as guides and canoe-men during the

NOTE - The remarks under the heading "Occupation" for the various provinces apply to normal times and do not indicate conditions during the present year.

summer months adds considerably to their income. While agriculture is not carried on to any extent, most of the bands grow considerable crops of potatoes and vegetables. They are, of necessity, more or less nomadic and consequently live in tents most of the year. This condition will greatly change as civilization progresses.

QUEBEC

Agencies. - The following agencies are included in the province of Quebec: Becancour, Bersimis, Caughwanaga, Gaspé, Lake St. John, Lorette, Maria, Mingan, Oka, River Desert, Restigouche, Seven Islands, St. Augustin, St. Regis, St. Francis, Temiskaming and Viger.

Tribal Origin. - The principal tribes found in Quebec are: Iroquois at Caughnawaga, Lake of the Two Mountains, and St. Regis; the Hurons of Lorette are also of Iroquoian stock; the Montagnais, who are of Algonkin stock, at Bersimis, Mingan, Lake St. John, Seven Islands; the Abenakis, also of Algonkin stock, at Becancour and St. Francis; the Micmacs, also of Algonkin stock, at Maria and Restigouche; and the Malecites, also of Algonkin stock, at Viger.

Occupations. - In the agricultural districts of the province the Indians are developing a keener interest in farming operations and are making decided progress. In the Gaspé peninsula the Indians find employment in the lumber camps and mills, but on the north shore of the gulf, fishing, hunting and trapping are still the principal sources of income. In the northern part of the province lumbering is the chief pursuit. One of the principal industries of the Indians of Quebec is making baskets, and many of the Indians spend the summer months at the resorts in order to dispose of the baskets, lacrosse sticks, racquets, moccasins, etc., to the tourists. Some of them, particularly in the Saguenay district, act as guides and canoe-men.

Dwellings. - In the older settled districts of the province the Indians own many excellent stone and brick houses. Generally speaking, the buildings are almost all of good construction, comfortable and sanitary. In the more remote districts, where hunting and trapping are still the principal occupations, the Indians necessarily live in tents during the greater part of the year.

The North Shore. - Along the north shore of the gulf of St. Lawrence, the Indians have been taking a marked interest in the fishing industry. At Mingan, Natashkwan, Romaine, St. Augustin and Moisie, the fishing is under departmental supervision. Salmon and cod are the principal marketable fish, and are a source of considerable income to the Indians. The land is not suitable for extensive cultivation, but many of the Indians have very creditable gardens.

NEW BRUNSWICK

Agencies. - There are three agencies in the province of New Brunswick, the Northeastern, located at Richibucto, the Northern located at Perth, and the Southwestern located at Fredericton.

Tribal Origin. - The majority of the Indians of New Brunswick belong to the Micmac race, which is of Algonkin stock. In addition to these there are some bands of Malecites, also of Algonkin stock.

Occupations. - In the Northeast division the Indians are mostly engaged in fishing, hunting and trapping. Some farming is carried on, and the Indians have rather tended to increase their interest in this regard.

The lumbering industry employs quite a large number and the Indians all through the eastern provinces have become very proficient in the lumber camps, on the river drives and in the mills. In the northern division there is less farming carried on, and the Indians during the summer months find employment generally as day labourers. In the Southern division they support themselves chiefly by the manufacture and sale of Indian wares.

NOVA SCOTIA

Agencies. - There are eighteen Indian agencies in the province of Nova Scotia, namely; Yarmouth, Digby, Shelburne, Lunenburg, Annapolis, Kings, Windsor, Shubenacadie, Halifax, Cumberland, Colchester, Pictou, Antigonish-Guysboro, Richmond, Inverness, Victoria, Sydney and Eskasoni.

Tribal Origin. - The Indians of Nova Scotia are of Algonkin stock, and bear the distinctive name of Micmac.

Occupations. - They follow various occupations, but, as a rule, do not confine themselves to any particular one. Many of them cultivate the land with indifferent success, but as there are exceptions in almost every case, so it is with our Indians; a few of them are succeeding very well as farmers. The majority of those living near industrial centres usually work as day labourers. Hunting, trapping, and acting as guides for sportsmen are favourite occupations, more especially with Indians of middle age. Basket-making and the manufacture of fancy moccasins, etc., are confined mostly to women. A profitable employment among Indians in a few sections of Nova Scotia is the manufacture of hockey sticks.

Dwellings. - With very few exceptions, Indians in Nova Scotia occupy houses of frame construction, well finished on the outside, but unfinished inside. Every settlement, however, has a few comfortable dwellings well finished throughout. Other buildings owned by Indians - barns and storehouses - are mostly of frame construction also.

PRINCE EDWARD ISLAND

Agency. - One agency is sufficient for the purposes of the department in this province, as the total Indian population is only 295.

Tribal Origin. - The Indians of this province all belong to the Micmac tribe, which is of Algonkin stock.

Occupations. - But few of the Indians of Prince Edward Island are farmers. The principal industries are basket-making and fishing.

MANITOBA

Agencies. - The following agencies are included in the province of Manitoba: Birtle, Clandeboye, Fisher River, Griswold, Manitowapah, Norway House, Pas and Portage la Prairie.

Tribal Origin. - The majority of the Indians of Manitoba belong to the Ojibwa race, which is of Algonkin stock. Bands of Swampy Crees are found at the Norway House and Fisher River agencies and in the York Factory district; these are also of Algonkin stock. The Indians located at the Griswold agency are Sioux; there are also Sioux at the Birtle and Portage la Prairie agencies. There is a band of Chipewyans at Fort Churchill; this tribe is of Athapascan stock.

Occupations. - The reserves in Manitoba suitable for extensive agriculture are mainly within the Birtle, Griswold and Portage la Prairie agencies, and generally speaking progress has been satisfactory in recent years.

In the northern agencies the chief occupations are hunting, trapping and fishing. All of the northern Indians are expert guides and canoe-men, and many find employment in this way or with the transport or fur companies.

In the southern and more settled districts many of the younger people seek employment as day labourers, and owing to the high wages, have been fairly prosperous. The Indian women make needle-work, baskets, etc., for which there is a ready market.

Dwellings. - In recent years the Indians have adopted more sanitary methods of living. Their houses are more comfortably furnished and of better construction than formerly. In the north the nomadic life of the Indians does not permit of other than the old-fashioned log house, but even these are being greatly improved and in some cases are being replaced by suitable frame dwellings.

SASKATCHEWAN

Agencies. - The following agencies are included in the province of Saskatchewan: Assiniboine, Battleford, Carlton, Crooked Lake, Duck Lake, File Hills, Ile a la Crosse, Moose Mountain, Onion Lake, Pelly, Qu'Appelle, and Touchwood Hills.

Tribal Origin. - The most numerous tribes among the Saskatchewan Indians are the Ojibways, Swampy Crees, and Plain Crees, which all belong to the great Algonkin stock. In addition to these, Sioux Indians are found at the Assiniboine, Moose Mountain, Qu'Appelle and Carlton agencies, and on the Moose Woods reserve. In the Onion Lake agency there is a band of Chipewyans, who are of Athapaskan stock. There are also a few Chipewyan Indians in the Ile a la Crosse district.

The principal occupation of the Indians of Saskatchewan is mixed farming and stock-raising. The close supervision which the department has had over these Indians has greatly improved their methods of farming. Most of the Indians are well provided with machinery of good quality. As a rule they have good stock and suitable houses. In the outlying districts, however, hunting and trapping are still the main sources of income and will so remain until civilization encroaches upon the hunting grounds.

Dwellings. - The dwellings of the Indians on the reserves where farming is carried on are now mostly of frame construction. The outbuildings, however, are generally of logs, but even there has been some improvement.

ALBERTA

Agencies. - The following agencies are included in the Province of Alberta: Blackfoot, Blood, Edmonton, Hobbema, Peigan, Saddle Lake, Sarcee, Stony and Lesser Slave Lake.

Tribal Origin. - The Alberta Indians are of Algonkin stock, with the exception of the Sarcees near Calgary and the Beavers and Slaves in the Lesser Slave Lake agency, who are Athapaskan, the Paul's band in the Edmonton agency, who are Iroquoian; and the Stonies, who are of Siouan stock. The Algonkin Indians of Alberta are subdivided into Blackfoot nation, comprising the Indians of the Blackfoot, Blood and Peigan agencies; Plain Crees found in the Lesser Slave Lake, Saddle Lake, and Hobbema agencies, and a band of Ojibwas at Moberly Lake, in the Lesser Slave Lake agency.

The principal occupations of the Indians of Alberta are farming and stock-raising. Almost all the reserves in the settled districts of the province have large herds of horses and cattle.

In the northern parts of the province hunting and trapping are still almost the sole source of income; there is practically no farming carried on and the construction of steamers on the Peace and Athabasca rivers, and of the railways to Peace River Crossing and Fort McMurray, have greatly lessened the wages of the Indians with the trading companies and transports.

Dwellings. - In the southern part of the province the dwellings and farm buildings are of excellent construction and quality. Almost all the reserves where extensive farming is carried on boast of up-to-date modern dwellings, comfortable and well constructed. In the northern parts of the province the

majority of the Indians continue to follow their primitive nomadic mode of life, and many of them still live in tents and tepees during the greater part of the Year.

BRITISH COLUMBIA

Agencies. - The following agencies are included in the Province of British Columbia: Babine, and Upper Skeena, Bella Coola, Cowichan, Kamloops, Kootenay, Kwawkwelth, Lytton, New Westminster, Nicola, Okanagan, Queen Charlotte, Skeena, Stikine, Stuart Lake, Vancouver, West Coast, and Williams Lake.

Tribal Origin. - The Indians of the Bella Coola, Cowichan, Kamloops, Lytton, New Westminster, Vancouver, and Okanagan agencies belong to the Salish tribes. The Kootenay tribe is located in the agency of the same name. The Kwakiutl-Nootka tribe is located at the Kwawkwelth and West Coast agencies; the Haidas, in the Queen Charlotte islands; the Tlingits, in the Stikine; and the Tsimshians in the Skeena agency. The Indians of the Babine, Stuart Lake and Williams Lake agencies belong to the Athapaskan race.

In addition to these there are about 2,500 nomadic Indians in the province who cannot be correctly classified according to linguistic stock or tribal origin.

Occupations. - The occupations of the Indians of British Columbia vary with their habitat. The Indians situated along the coast earn their livelihood principally by fishing. In many instances they own their own motor launches, nets and gear, while others are supplied by the various canneries. Many of the women are also employed in the canneries or in the hop fields, and earn a steady income.

In the inland parts of the province some farming operations are carried on, and particularly in the irrigated districts grain, fruits of all kinds, and vegetables have been raised with success. These Indians have been making marked progress in this regard and are now well equipped with modern machinery.

The Kootenay, Kamloops, Okanagan and New Westminster Indians own large herds of horses and cattle. While the Indians in the northern and remote parts of the province still depend upon hunting and trapping for their livelihood, the agents report a marked improvement in their manner of living.

Dwellings. - Except in the more remote districts, the Indians of British Columbia have built comfortable and modern dwellings and outbuildings. Their progress in this respect has been rapid.

NORTHWEST TERRITORIES

Agencies. - The department has now four agencies in the Northwest Territories, namely, Fort Simpson, Fort Smith, Fort Resolution and Fort Good Hope.

Tribal Origin. - The principal tribes found in the Far North are the Slave, Hares, Loucheux, Sicannies, Dogribs, Yellow-knives, Chipewyans and Caribou Eaters. All these tribes are of Athapaskan stock. There are a few Crees in the neighbourhood of Chipewyan. These are of Algonkin stock. The most northerly tribes are the Takudah, who extend to the Mackenzie Delta; and the Copper Mines, who are located along the Coppermine river. The territory occupied by these two last-named tribes is contiguous to that inhabited by the Eskimos.

These Indians depend entirely upon hunting and trapping for a livelihood.

Occupations. - A few have been induced to raise small plots of potatoes. They own no horses or cattle, transportation being almost entirely by canoe along the great waterways, or by dogs in winter. They catch and preserve large quantities of whitefish for their own use and for consumption by their dog-trains in winter.

YUKON

Tribal Origin. - The Forty-Mile, Blackstone, and Moosehide bands belong to the Takudah tribe. There is a band of Slavies at Lancing Creek who migrated from Fort Good Hope on the Mackenzie river; another band of Slavies, called Nahanies, is located at the headwaters of the Pelly river. All these Indians are of Athapascan stock. At Mayo, Selkirk, Little Salmon and Carmacks there are bands belonging to the tribe known as Stick Indians. Bands belonging to the Tlingit tribe are found at Whitehorse, Teslin Lake, Champagne Landing, and Carcross.

Occupations. - Hunting, trapping and fishing are the chief occupations of the Yukon Indians, and they have been fairly successful during the past year, The women also derive some revenue from the sale of moccasins and curious of various kinds, while the men are expert at making toboggans and snowshoes, Practically no farming is carried on owing to climatic conditions, but some of the Indians cultivate patches of potatoes and other vegetables.

FINANCIAL

At the close of the twelve months ended March 31, 1932, capital of the Indian Trust Fund, which at the end of the preceding year amounted to \$13,764,581.06, had decreased to \$13,644,079.21.

The amounts expended from the Consolidated Revenue Fund were as follows: Voted by Parliament for the purposes of the department, \$4,656,029.97, and annuities by statute, \$224,292.00.

On March 31, 1932, the balance to the credit of the Indian Savings Account for the funding of the annuities and earnings of pupils at industrial schools was \$228,930.65. Deposits and interest during the twelve months aggregated \$39,586.57, and withdrawals \$28,408.51.

GENERAL

The recapitulation of complete census made by the department, of the Indians of Canada, during the year 1929, which follows herewith and therein also will be found statistics with regard to Grain, Vegetable and Root Production; Land, Private and Public Buildings and Property; Live Stock and Poultry; General Effects; Value of Real and Personal Property, and Progress during year. Sources and Value of Income; Schools; Indian Land; Civil Government; Appropriation Accounts and Indian Trust Fund.

Your obedient servant,

A.S. WILLIAMS,

Acting Deputy Superintendent General of Indian Affairs.
