ORIGINAL

FEB 1945 11/3/45

WAR DIARIES, C.A.S.F.

Instructions for Compilation and Despatch

1. A War Diary is SECRET.

2. The War Diary takes the place of the Historical Record when on active service. (K.R. Can. Para. 1530). Its objects are: to supply authentic material for the history of the unit, and of the force; to furnish a historical record of operations; and to provide data upon which to base improvements in training, equipment, organization and administration.

3. Unless otherwise ordered, the original and duplicate copies are sent on the first day of the succeeding month, through the usual channels, to the A.G., 2nd Echelon, wherever that office may be. The triplicate copy may be held by the unit for three months and then forwarded, also through the usual channels, to A.G., 2nd Echelon.

4. Post-war disposal will be as under:

Original—retained at Ottawa for historical purposes.

Duplicate—to British Record Office for historical purposes.

Triplicate—to unit for custody with unit records.

5. The War Diary will be entered up daily on M.F.M. 11 and rendered monthly in triplicate (Mobn. Instr. for C.M. 1937. App. "C"). Each entry will be initialled by the officer detailed to keep the War Diary, which will be signed at the end of each month by the commander. (F.S.R. Vol. II, Sec. 35, para. 3 iii).

6. The following should be recorded daily as events occur:

- (i) Important orders, instructions, reports, messages or despatches received and issued, and decisions taken. *Original documents* should be attached as appendices to the Original copy of the War Diary.
- (ii) Daily map location, employment, movements and dispositions of unit headquarters and of batteries, companies, etc. March tables should be attached as appendices.
- (iii) Important movements of officers and matters relating to the duties of each branch of the staff. A complete set of the *routine orders and instructions, Part I Orders*, issued by the unit during the month should be attached as an appendix to the original copy.
- (iv) Detailed account of operations—to include:— Exact hour, location and circumstances of important occurrences. Movements and names of neighbouring units. Commanders of batteries, companies, etc., names of Officers and number of O.R. (i) engaged and (ii) battle casualties. Dispositions, activities and identity of enemy forces. Prisoners and trophies captured. Ammunition expended. Factors affecting operations, topographical and climatic. *Maps and sketches* showing dispositions of batteries, companies etc., at important phases. The record of *communications, both written and verbal*, received or despatched during active operations as an appendix. A complete set of the *operation orders and instructions* issued during the month. Notes on conferences and *reports* rendered to higher formations, or received from lower formations, as appendices to the original copy.

(v) Nature and description of trenches, field works or accommodation occupied or constructed. Meteorological notes.

(vi) Changes in establishment or strength. Names and ranks of officers and number of O.R. Attachment of units and individuals. Reinforcements. *Copy of Part II Orders and Weekly Field Returns of Officers and O.R.* should be attached as appendices to the original copy. Changes in organization, stores, transport, etc.

7. It is essential that all copies of both text and appendices are legible. Appendices will be numbered and referenced to the text in the last column of the form. Current issues of any regimental publication should be attached.

8. It will be found convenient at the end of each month, when the War Diary is being completed and the correspondence in unit files for the month is being reviewed and distributed (F.S.R. Vol. I, see. 171, para. 3) if the material considered to be of historical value in the light of the above is attached as appendices to the original copy of the War Diary.

9. A good war diary makes possible the accurate and detailed reconstruction of circumstances, conditions and action.

NOTE: If monthly diary is more than one inch thick, use a second folder. If appendices are bulky, tie folder up with tape or string to make a firm package.

PRESERVE IMPORTANT ORIGINAL DOCUMENTS FOR POSTERITY: INSERT THEM AS APPENDICES IN ORIGINAL COPY OF WAR DIARY

**THE EXTRACTION AND RETENTION OF APPENDICES, MAPS, ETC., FROM A WAR DIARY IS AN OFFENCE
UNDER THE OFFICIAL SECRETS ACT**

UNIT OFFICE FILING SYSTEM AND RECORDS

"Every office will arrange for the filing and custody of its own correspondence." (F.S.R. Vol. I. Sec. 171.3.)

1. Titles and Numbering of Files.

A simple filing system adaptable for use in any military office at home or in the field is illustrated by the "List of File Titles" overleaf.

All documents handled by a unit fall into one or other of the nine categories enumerated, 1 to 9. The titles of the nine main divisions are based on British army operations, organization, administration and the regulations governing. Each title may be broken down into ten component parts or sub-titles, by adding a dash and subsidiary numbers 0 to 9. In turn each of these may be further broken down by adding a second dash and a third digit, and if necessary a third dash and a fourth digit. Thus 4-7-3 might be "Cooking Course at Kingston." According to circumstances, a fighting unit would expand the 1-3 prefix to accommodate all arms and services with which it may be concerned.

2. Date reference.

In giving communications a reference number, it is convenient to use the date system of four figures indicating day and month, e.g. 0102 for 1st February; 3010 for 30th October.

3. Combined Numeration.

If the systems outlined in paras 1 and 2 are combined, by placing the four date figures under the subject file numbers, a simple and informative method of reference results, thus

2-6-1
0804

might be immediately identified as a communication dealing with replacement of gas masks, dated 8th April.

NOTE.—This method is not applicable to signal messages, A.F.C. 2128, which bear serial numbers 1 to 9999. The use of dashes eliminates confusion between serial numbers and file numbers.

4. Documents for Preservation.

The monthly review of correspondence (F.S.R. Vol. I, sec. 171.3) is facilitated and future confusion avoided by jacketing the material in "Category ii" (i.e., "no longer required", etc.) to conform with the system.

5. Correspondence in the Field.

The functioning of the office of a formation or unit during active operations may be simplified by keeping a log or register of all orders and messages, written or verbal, received or sent during the action. This may conveniently be done by extending the use of the "Field Register of Communications Received or Despatched", (Army Form 2040, F.S.R. Vol. I. sec. 171) to include verbal as well as written orders and messages in chronological order as received or sent.

Time of sending and of receipt are of importance second only to time of event, and should be entered both on the office copy of every field message or other document, and in the log or register. A carbon copy for contemporary reference of the commander or others concerned is desirable.

A brief précis of written orders, reports and messages, with the sender's number, is sufficient, for they will be kept on file. But particular care is necessary in making entries of times of moves and of verbal orders, reports or conversations, by telephone or otherwise, which in the stress of action, may not otherwise be recorded on paper. In battle, operations messages dealt with by one officer may number over twenty-five per hour for several hours on end.

The record should be kept convenient to the telephone. Entries may be made by a clerk, or by the officer on duty at the telephone.

Such a record is invaluable to the commander in making appreciations of the situation during the action, and in compiling his report on the action afterwards. It is contemporary evidence of the highest quality, and therefore is of the highest historical value, and should be attached as an appendix to the original copy of the War Diary, together with the original documents sent and received.

(Appendix to Routine Order No. 147 C.A.S.F.
22 Nov. 39).

WAR DIARY JACKET

THE EXTRACTION AND RETENTION OF APPENDICES, MAPS, ETC., FROM A
WAR DIARY IS AN OFFENCE UNDER THE OFFICIAL SECRETS ACT.

LIST OF FILE TITLES

1. Operations (G.S.) (or Technical Functioning).

Signals Report - Operation "VERITABLE"

PREAMBLE

Operation Veritable put the Signal Platoon of the battalion to an excellent test in gauging future signals requirements and training. The following is a complete report on the Bn Signals picture together with recommendations for improved training and G1098.

War Dist. 4
Ser. 743
Appx.....
FEB 1945

COMMANDER'S OBJECT AND PLAN

It was the intention of our Sunray to send two companies forward to clear the village of LEUTH and then consolidate slightly beyond. On the completion of Phase 1, the other 2 companies were to pass through and take a dyke position defending the town of MILLENGEN. During Phase 2 Tac BnHQ was to move forward. All land in between SP and LEUT and between LEUTH and final dyke objective was flooded. Consequently assault boats had to be used while the use of vehicles was very limited.

PLAN FOR THE PROVISION OF COMMUNICATIONS

Due to flooded conditions, line was ruled out as a possibility, and wireless was to be the order of the day. There were to be two wireless links. One was to be rear link to Bde Command Net. The other was to be the forward link to the companies. Tac Coy HQ and Rear Coy HQ were to be provided with an 18 set each, with rear 18 set to be used to relay in case range became too great or as a spare in case of set casualty. Rear BNHQ was to be put on both links as soon as Tac HQ moved forward. All BNHQ sets were to be 22 sets. There was to be DR runs by Jeep between rear BNHQ and A Ech. (See Appendices A & B for Phase 1 & 2 Signal Diagrams).

SIGNAL EQUIPMENT USED

The following were the main items of equipment used. In addition to these there were many minor accessories too numerous to mention.

- 12 No 18 Sets (2 each coy and 4 spares)
- 6 No 22 Sets (4 BNHQ and 2 spares)
- 1 Chore Horse (Kept continually running at BNHQ)
- 1 Cable Layer No 3 (In case line became feasible)
- 1 UC 10 Exchange (" ")
- 8 D Mark V (" ")
- 5 miles cable (" ")

Note: Each 18 set had complete spare complement of aerials, headsets, mics, valves, and batteries (60 hour supply). Each 22 set had 3 12 volt batteries together with spare headsets, aerials, and valves.

Fifty foot extensions were used for 22 sets so that operators could take cover away from exposed vehicle. The working of the equipment was good. There was 100% continuous communication during the entire operation. At no time was there any slight tactical failure due to faulty comm. All orders and information were passed and received on time. MAINTENANCE has been the most important password for the past few months. In my opinion, the only poor piece of equipment was the 18 set microphone 4A. The pin at the back is too easily broken. In addition ARP 12 valves are poorly constructed and go too easily.

Signals Report - Operation "VERITABLE"

PERSONNEL

At the present time, the platoon consisted of 1 Officer and 40 ORs (including 3 RCCS personnel). For the purpose of this type of operation, only 1 Officer and 30 ORs were used. The following was the disposition of work:-

| | |
|-------------------|------------------------------|
| Signal Officer | 1 |
| Signal Sgt | 1 |
| Control Operators | 6 |
| Coy Operators | 15 (4 to each Coy except A) |
| DRs | 2 |
| Runners | 2 (1 being batman) |
| Linemen | 2 |
| RCCS Operators | 2 |

The operators were all highly trained and proved it in the operation. In the past three months, in addition to Div Schools and Bde Schools, I have conducted battallion courses. Wireless schemes on both 18 and 22 sets have been conducted frequently both in the day time and at night. While operators were busy on schemes, the remainder of the platoon worked on maintenance under supervision of NCO.

SUCCESS OF SIGNAL PLAN

The plan was completely successful. Use of 2 18 sets per coy was a Godsend. In the first hour of the operation, one set was lost by enemy action, when assault boat was sunk, so other set came into play. Thus use of "alternatives" must be kept in mind at all times. Relaying was necessary after range went over two miles. At one time range was 3 miles. Our Sunray had complete control of all coy activities at all times during operation directly or by relay. In my opinion, 22 sets mounted in weasels, would have avoided need for relays and would have doubled speed of communication. Under the circumstances, however, the 18 set did a wonderful job. At all times, the 22 sets working between Tac BnHQ and Rear BnHA were in direct touch.

REQUIREMENTS LACKING AND VEHICLE PROBLEM

For this operation, each Coy should have been provided with an amphibious weasel with 22 set mounted as explained above. Otherwise, equipment was complete. The following wireless vehicle equipment was used:-

Command Carrier -2- 22 sets

Amphibious Weasel -1-2 22 sets.

Armoured 15 cwt - 2 22 Sets.

Jeep for DR runs or line.

NOTE: All coy carriers were fully equipped with 22 sets ready to be brought into use if terrain would permit.

SIGNALS REPORT-OPERATION V L R I T A B L E

RECOMMENDATIONS FOR FUTURE SIGNALS REQUIREMENTSEQUIPMENT

(note: Only major items of Sigs Equipment will be listed)
 The following are the items of equipment which I would recommend for a NEW AFG 1098.

| | |
|------------------------------------------------------------------|----|
| Wireless Sets No 18 (or improved FM Pack sets) | 12 |
| Wireless Sets No 22 | 10 |
| Wireless Sets No 19 | 2 |
| UC 10 Line Exchanges | 4 |
| UC 6 Line Exchanges | 5 |
| Telephone Sets L | 20 |
| Telephone Sets DV | 20 |
| B/T/S/O/ | 2 |
| Cable D3 miles | 16 |
| 1260 Watt Charger (Requires improving) | 1 |
| 300 Watt chargers | 6 |
| Batteries 12 volt wet | 30 |
| Complete complement of spare valves, aerials, dry batteries etc. | |

Comments: Regarding wireless requirements, see wireless diagram in Appendix C for Battalion in attack under normal conditions. Regarding tremendously increased demands for line equipment, I have the answer in the type of defence positions held for over two months by our battalion. At many times, we had as many as 52 telephones and three exchanges in operation at once. I would regard this as a possible normal condition due to the fact that it existed for over two months. Regarding 1260 watt charger, it definitely requires improvement in construction as it breaks down too easily particularly the switchboard.

VEHICLES

I make the following recommendations for vehicles required by Signals in an infantry battalion:

| | |
|-----------------|---|
| Armoured 15 CWT | 2 |
| 15 cwt GS | 3 |
| Jeep | 1 |
| MCs | 5 |
| Trailers | 2 |

Comments:

Both armoured vehicles can be converted in to mobile Signal Centres, one for tac HQ and one for Rear HQ. See appendix D for illustration. Two of the 15 cwt trucks GS must be used for stores, one at F Ech and the other at A ech. The third 15 cwt is a battery Charger truck equipped with racks and panels for the 1260 watt charger and the batteries. Trailers are required for personnel stores.

Added Npc-CO's carrier and 4 company carriers which carry 22 sets should come more under signals control and should be exclusively used for wireless purposes. This practice is pretty well being followed in this battalion.

Trusting these Comments and recommendations are of some use and will be regarded without prejudice, I remain

your obedient servant

N. Pezim Lieut. RCCS
 att'd to R de Chaud

Signals Report - Operation "VERITABLE"

RECOMMENDATIONS FOR FUTURE SIGNALS REQUIREMENTS

PERSONNEL

The present war establishment of 1 Officer and 35 other ranks with only 24 collecting trades pay is highly inadequate. Without dated and outmoded Signals equipment giving way to more adequate needs matching increased mobility and power of an infantry battalion, the war establishment in personnel, ranks and trades pay qualifications should be increased. Firstly dealing with the officer, the rank of Lieutenant for the responsibility involved in a new much more complicated battalion Signals Set-up is definitely inadequate. The people who most recognize this are the infantry officers themselves who are amazed at the limited rank given to Battalion Signals Officer. When I make this statement, I do not speak only for myself but for all Bn Sigs officers who are pretty well left to their own devices and responsibilities and are forgotten by higher formations. More qualified signallers collecting trades pay and less "orderlies" who are more of a burden than a help, should be introduced. In my platoon, I have close to 30 men who are qualified and yet only 24 obtain trades pay. In my opinion all Signallers in the platoon should be qualified and paid for their trade. At least 5 more men should be added to the platoon so that adequate relief could be provided. I have had several cases of nervous condition in my men due to lack of relief at a very sensitive job. In addition I would recommend an additional Lance Sergeant rank be created. Thus, the following is the itemized recommendation for WE in personnel:-

| | |
|----------------|----------------------------------|
| Signal Officer | 1 (Captain) |
| Signal Sgt | 1 |
| Lance Sgt | 1 |
| Corporals | 3 |
| L/Corporals | 6 (1 at each Coy; 2 at Bn HQ) |
| Signallers | 28 |
| Batman | 1 |

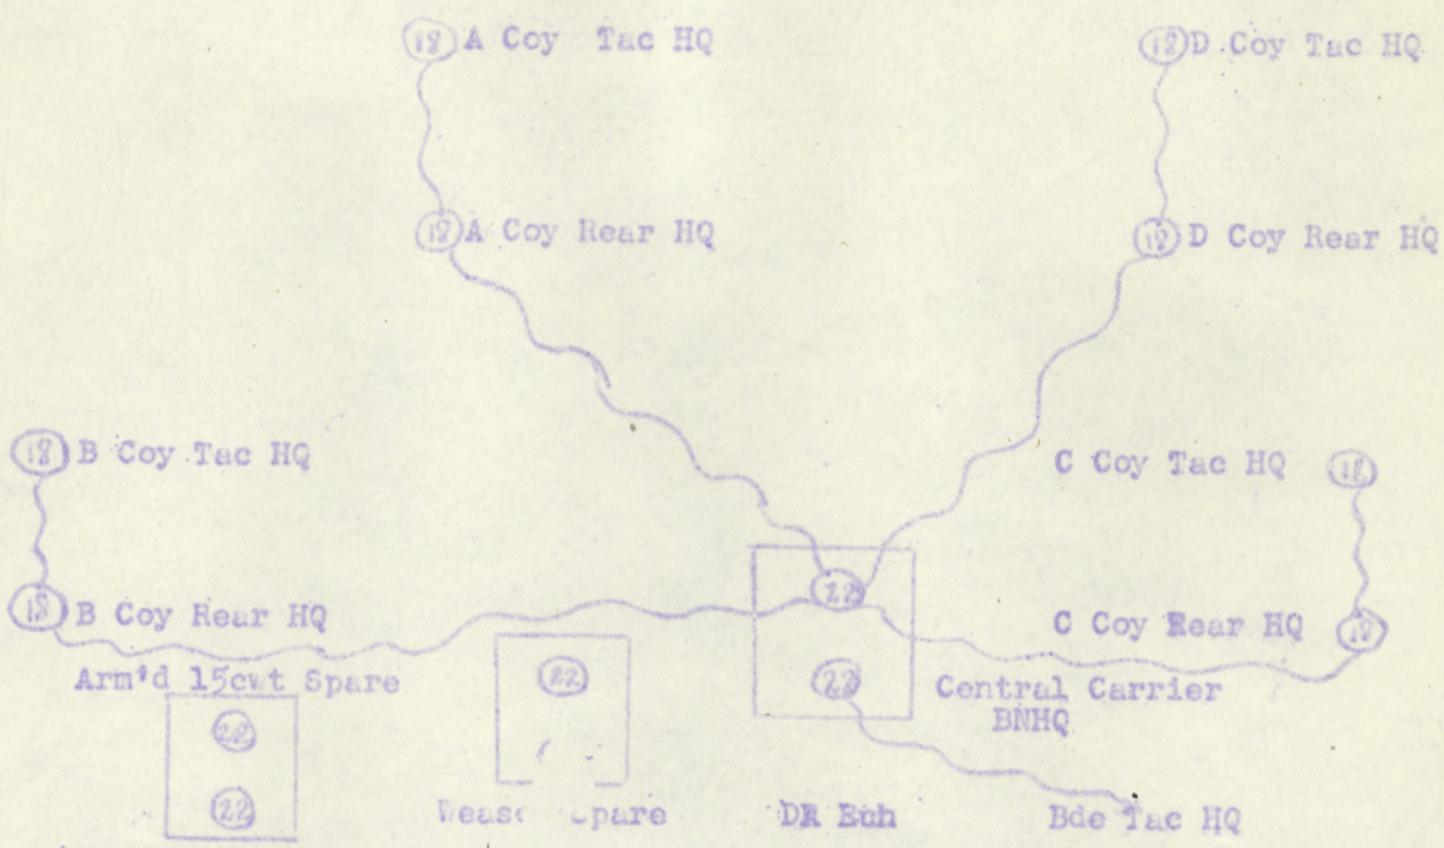

TOTAL: 1 Officer and 40 ORs.

TRAINING

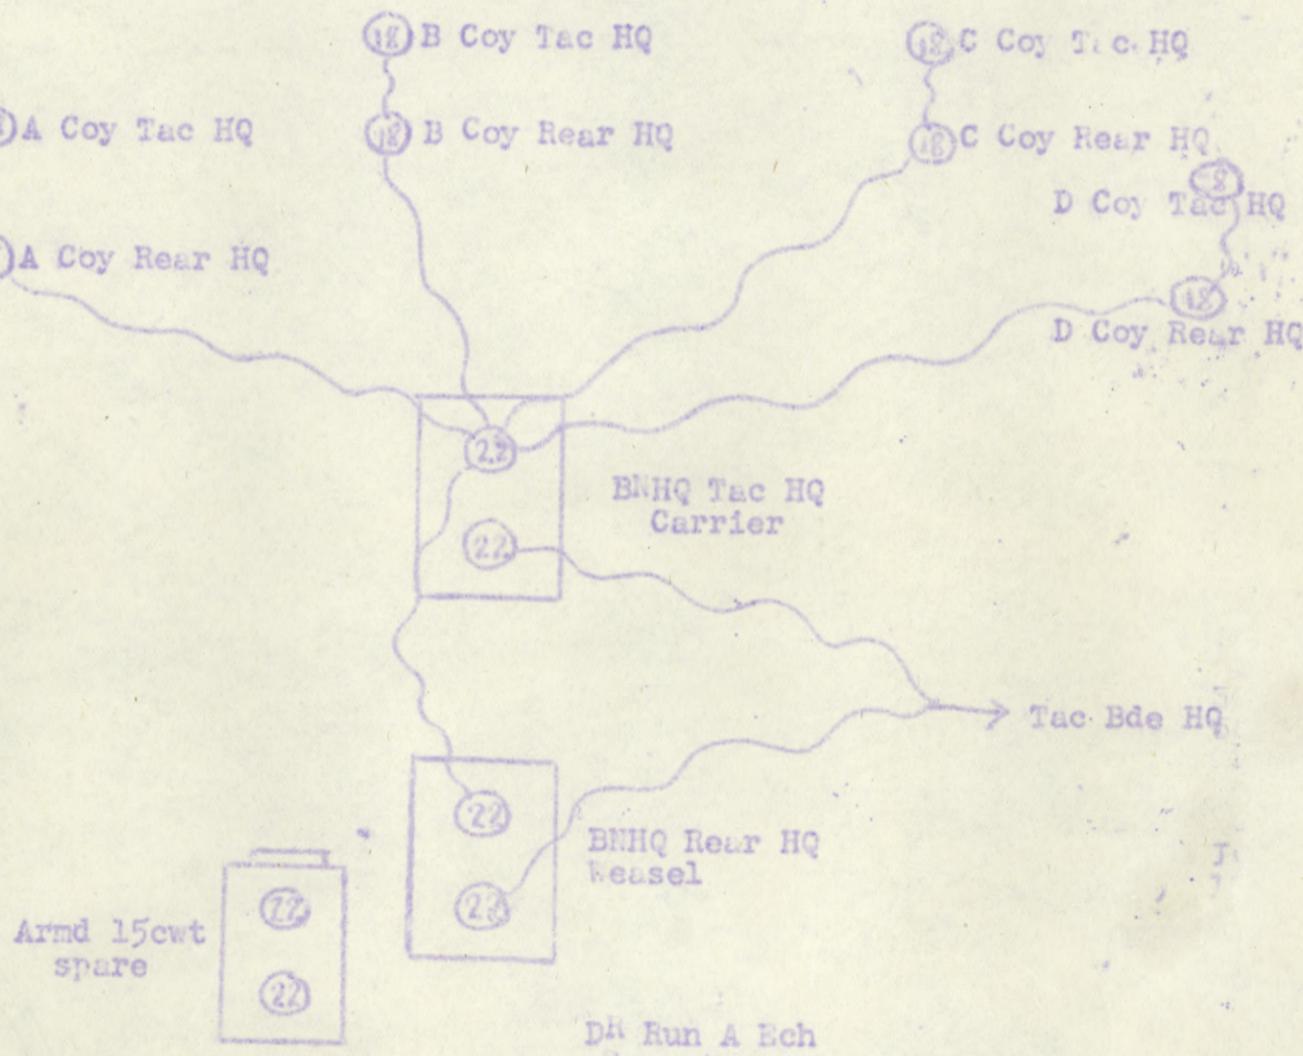

I have one strong recommendation regarding the question of training. For battalion Sigs, no time at all should be spent with the morse code and in its place time should be spent in more MAINTENANCE training and RT procedure. In the usual Sigs courses, the Di-Di-Di-Dah takes up at least 50% of the trainee's time. Yet in all my experience and in the experience of other Bn sigs officers, they have never been called upon to use the Morse Code. At the same time, at the school, the sharp note of the key constantly drumming in their earhas spoiled, to a great extent, their concentration on more PRACTICAL subjects nearer to what is required in action.

Le Régiment de la Chaudière

LE REGIMENT DE LA CHAUDIERE

An attack on a series of enemy strongpoints at HOLLEN near KEPPELN? GERMANY
Date: 26 Feb 45
Map: 1/25000 UDEM 4303

On 24 Feb a recce party led by C/O. consisting of the Coy Comd. went to as near as possible to be allotted area to be attacked with a view to: (a) Recce the ground (b) determine and recce. a S.L. (c) Allot objectives (d) deploy the Bn. properly on its arrival using existing accomodations. All this was accomplished under enemy fire as the chosen S.L. was under enemy observation.

S.L. was to be road running Northeast to Southwest through HALVENBOOM (## Sq. 9545 9645.

Objectives were as follows, letters indicated coys, no, first and secend companies' objectives:

| | | |
|-------|---------------------|------------------|
| A 1 : | Cp of bldgs at M.R. | 970447 |
| B 1 : | " " | 965445 |
| A 2 : | " " | 973444 |
| B 2 : | " " | 967443 |
| C 1 : | " " | 977443 |
| D 1 : | " " | 974440 |
| C 2 : | " " | 981440 (BOSHOFF) |
| D 2 : | BSPORTZ PL/ | 972438 |

Bn. H. Q. including RAP was to be established at ACKERSHOFF 9544. The preliminary work having been done all coys made a last check and prepare for a set piece attack.

On the afternoon of the 25, th Bn moved down to its conc. area. The move was completed by 1800 hrs. It was quite a squeeze to get Bn. H. Q. properly set as the same locn. was being used by four (4) pls of C.H. of O. Eventually it was managed but our H.Q. was very cramped. All coys had shelter for all their men so that a restfull night could be spent before going into battle. Coy. comd had maps and aerial photos which they could study with their pl. comd. During the evening a last O. Cp was held for all coy comd. and sp. coy. pl. comd. Also included were Tp. leader of tank sqn. (1 H) allotted to us, tp comd of both S.P. and 17 pdr tps of 3 A Tk regt. Reps from C.H. of O. M.G. and 4.2 mortars. The Arty rep. Major B. Hancock and the FOO discussed the arty plan, then the C.O. gave his final plan and orders. This done the coy comd discussed with their sp arms rep their own plans for their different objectives.

"A" coy moved to the SL under cover of darkness, "B" coy already near this posn. stays put, and the Bn. is ready to be committed.
"H" hour is fixed for 0830 A hrs.

At 0800 hrs (all time stated are A) Pepperpot starts. Retaliation fire is not slow in comming back. At 0830 hrs A & B coys crossed the SL under heavy enemy arty fire, including quite a few airbursts. Both coys suffered a few casualties, but superb leadership on the part of all officers saved the day. Independent and flexible fire plan had been prepared for each coy and were brought down on call by comd concerned.

"A" coy fired a group of targets and jumped forward, then called for n next gp and so on. "B" coy firing targets after targets thus creating a kind of barrage in front of them. Behind this the infantry was following very closely, a few casualties by our own shells were incurred but the officers keeping ahead of their pls. thus encouraged their men to follow. Most of the casualties were of minor nature. Meanwhile "C" and D coys lined up behind th SL, crossing same some 20 minutes after the leading coys, under much the same circumstance as before. At 0845 hrs the tp of tanks in sp of "B" coy rejoined them, having been kept back to avoid enemy fire while crossing the SL. At 0850 hrs this coy came upon their first enemy at aox MR 964446. The enemy had no time to man their MG, a sec was left to deal with them and five mins later after a repeat of arty target the coy was again on its way. At 0905 hrs objective B 1 was reached by leading pls and tp of tanks. Mopping up was started and five mins later another pl by-passing this objective started on B 2. The same plan applied keeping arty fire in front of the infantry closely following the barrage. A few mins later B 2 was reached once again enemy troops having no time to man their weapons, quite a few being hit by bren or sten fire while on the run to their weapons or trenches. Mopping up was begun §§§ and Capt W. Atkinson, comd of "B" coy

sent for the reserve pl. through to consolidate fwd of this last objective in order to have a foot on the ground in case of a local counter attack while the mopping up went on. At 1015 hrs. both objectives and the covering posn were ours. P. of W. consisted of one officer and more than 40 O.Rs. "B" coy casualties being 10 wounded nearly all minor wounds. X

Meanwhile on the left "A" coy had a tougher and slower going, at 1000hrs a signaller was wounded and the 18 set damaged. Comms. went on through the FOO's 18 set. Five (5) mins later the FOO's set was damage also and the signaller wounded, no more comms were possible with Bn. H.Q. except by runners. Enemy arty fire was very heavy. Nevertheless at 1015 hrs A 1 was reached by inf. and two tanks, snipers were everywhere, having a particular liking for cellars, the posn was finally mopped up after stiff hand to hand fighting. More than 50 P. of W. were taken. At 1025 hrs orders were given to proceed to A 2. Two pls started, but as soon as open ground was reached, heavy enemy fire from all sort of weapons came down. The heaviest fire coming from A 2 posns and from near KEPPELN where some enemy tks or S.P. guns were. It was impossible to call for arty fire as no means of comms were available, a runner would have taken to long a time. Two tanks were knocked out by an 8.8cm gun in the area of A 2 (HOLLEN), 15 inf casualties were also sustained. Finally "A" coy comd got in touch with Bn. H.Q. by using "C" coy set who had just come and whose comd contacted him. The orders were to firm up were he was and wait the outcome of an attack which was being launched on his left. This consolidation was started under intense enemy fire and at 1100 hrs the mortars and A Tk having arrived the firm base was established, with "C" coy digging in behind "A". Comms were reestablished using "C" coy set for the combine coy H.Q. In order to maintain the momentum of the attack the main effort was switched to the right where comms were very good.

"D" coy having followed "B" some 300x behind arrived at B 2 some 15 mins ~~later~~. After the mopping up. Contact was established and liaison between FOO and the tp comd of the tanks which were now working in sp of "D" coy. At 1045 hrs the arty fire plan started and under cover of this "D" coy started for "D" 1. When within some 100x of this objective the arty fire lifted and what seemed a white flag was hoisted by the enemy, the two leading pls. reached forward to be met by heavy MG fire from the building at D 1 also from three tanks dug in around the bldgs and from C 2 (BOMSHOF). The coy went to ground and a prearrange signal for the tanks to come fwd was fired, this at 1100hrs. The pl tried to get forward using their own fire power, but not much headway was made. The tanks could not get fwd, having tried once and one tank having been damaged by an 8.8cm gun on A 2. Wireless difficulties prevented the tanks from passing the message to Bn. H.Q. The pl comd on the right saw the three tanks believed to be Royal Tigers, leave their dug-in posns and started forward. He ordered his pl to fall back and went to advise the coy comd of the fact. The latter appreciated that the enemy tanks were coming fwd to counter-attack this was further strengthen when havy enemy shell fire began to fall on his coy area therefore he ordered to retire to "B" coy firm base. At the start of the enemy shelling, the 18 set had been damaged by a shrapnel and was out of commission. Comms still could be maintained through the FOO's set. In this connection it is important to mention the courage of this particular FOO, Lt. D. Burrows who though slightly but painfully wounded in the foot insisted to go on with "D" coy and left for treatment only quite later in the night, hobbling along and giving magnificant support. The coy managed under cover of arty fire to retire to the firm base of B 2, a quick count showed that some 40 personnel incl an officer were missing. Later on during the evening many missing came back having taken cover in shell holes and having no knowledge of the move back of the coy. When every body had been accounted for in the following morning the total casualties were 7 killed and 18 wounded also 3 missing. This end the effort of this coy for the day and "B" coy was put in instead and was to take D 1 and D 2.

In the afternoon the situation on the left improved due to a strong inf and tank attack put in by the rightflanking Bn. Pressure on "A" coy front eased up considerably and orders were given for the second objective to be taken. By 1600 hrs the coy was proceeding behind arty fire to A 2. At 1615 hrs the objective was reached and two 8.8 cm and 7.4 cm neutralised allowing the tanks in sp to come fwd and help in the mopping up. there was a few mins of by hand to hand fighting, with the enemy having to be flushed out of every cellars and dug out by tank fire, grenade and sten gun. X

Civilians were antipathic though none committed hostile acts. The final count showed 85 P. of W. taken, 6 german dead found, one 8.8 cm gun, one 7.5 cm gun and one enemy half track full of ammunition, and undamaged. During this time "C" coy in their posn came in for their share of the shelling by enemy guns. The CSM, a SB and a coy H.Q. runner were killed another runner, SB and a signaller were wounded. The only remaining runner did yeoman service as the sole means of comms of the coy as the set had been damaged when the two signallers were wounded. The name of this splendid runner: Pte Fournier A.

At 1630 hrs A 2 (HOLLEN) being ours "C" coy started their advance and went through "A" coy. Efficient fire sp from arty and tanks helped them on their first objective C 1 was our by 1730hrs. Immediately the mopping was done, the reserve pl went ~~through~~ throughto take on C 2. The ground was very open, no cover anywhere and soon this pl was pinned down by mortar and MG fire. Tanks came fwd to assist but no headway could be made as enemy posns were most difficult to spot. More arty conc were put down. The pinned down pl did what they could to help by covering fire, the tanks let go with everything they could and a gallant dash made by Sgt Chartrand R. and the pl he was commanding, always at the head of his pl he reached the objective without a casualty and mopped it up in very quick time taking 15 prisoners and killing 5 germans. He also captured a 7.5 cm gun and an undamaged lorry. By 1845 hrs consolidation was started in the coy ~~area~~ area.

"B" coy who had been charged with taking the objectives allotted to unfortunate "D" coy was preparing to go through. The coy comd plan was to roll up his objectives from northeast to southwest, thus presenting his front only to one enemy posn at the time. At 1630 hrs he left his firm base which was being taken over by "D" coy, and proceeded to A 2. At 1830 hrs when C 2 was completed he brought down arty fire and with tank fire sp moved forward with two pl leading at 1900 hrs D 1 was reached and the mopping started with the same brand of \$\$\$ fighting going on enemy having to be dragged out of every nook and cranny, more than 25 P. of W. were taken and a german RAP complete with RMO. At 1930 hrs he sent his reserve pl through the last objective D 2 and by 1930hrs the entire posn was ours.

Consolidation went on in earnest, with tanks remaining behind until relieved by our own and arty A Tk guns. At 2000hrs reports came in that consolidation of "C" and "B" coys was well on its way.

It was throughout the day the task of a part of the "I" section to tabulate the prisoners coming in and to obtain as much infm of the local situations as it was possible. With the help of a Dutch Sgt attached to us prisoners were briefly questionned and quickly sent on to Bde cage for interrogation. By this means it was possible to ascertain that all of the 224 P of W. that came through our Bn H/Q. were from the 12 recce (AUFKLARUNGS) regt of 6 para div. They had fought on like grim death but we had got the better of them. All the regiment were proud of this day because we had carried it successfully. To the veterans of "D" day there was no doubt that this had been the toughest action yet. The sad note was the number of casualties, the highest for any one battle, 15 killed, 3 officers wounded and 52 O/Rs wounded or evacuated. The lion's share of honors for the day went to "B" coy led by its young A/Commander Capt W. Atkinson, commanding a coy for the first time in action. A coy came in second.
