WAR DIARIES, CA

Instructions for Compilation and Despatch

1. A War Diary is SECRET.
2. The War Diary takes the place of the Historical Record when on active service. (KR (Can) Para 1530). Its objects are: to supply authentic material for the history of the unit, and of the force; to furnish a historical record of operations; and to provide data upon which to base improvements in training, equipment, organization and administration.
3. Unless otherwise ordered, the original and duplicate copies are sent on the first day of the succeeding month, through the usual channels, to the AG 2nd Echelon, wherever that office may be. The triplicate copy may be held by the unit for three months and then forwarded, also through the usual channels, to AG, 2nd Echelon. In Canada all copies as above are sent through the usual channels to NDHQ; in England to Canadian Military HQ.
 - (i) District Officers Commanding will arrange to forward War Diaries to National Defence Headquarters addressed Director Historical Section, GS (War Diaries) with covering roll, in duplicate, showing unit from which received and number of copies in each case; the duplicate roll will be returned as a receipt.
 - (ii) Formations and Units in the Ottawa Area Command will forward War Diaries direct to National Defence Headquarters (addressed Director Historical Section, GS (War Diaries)).
4. Post-war disposal will be as under:—
 - Original—retained at Ottawa for historical purposes.
 - Duplicate—to British Record Office for historical purposes.
 - TriPLICATE—to unit for custody with unit records.
5. The War Diary will be entered up daily on MF M11 and rendered monthly in triplicate (Mohn Instr for CM 1937. App "C"). Each entry will be initialled by the officer detailed to keep the War Diary, which will be signed at the end of each month by the commander. (FSR Vol II, Sec 35, para 3 iii).

II

6. The following should be recorded daily as events occur:—

- (i) Important orders, instructions, reports, messages or despatches received and issued, and decisions taken. *Original documents* should be attached as appendices to the original copy of the War Diary; *copies* should, whenever available, be attached as appendices to the duplicate and triplicate copies of the War Diary.
- (ii) Daily map location, employment, movements and dispositions of unit headquarters and of batteries, companies, etc. March tables should be attached as appendices.
- (iii) Important movements of officers and matters relating to the duties of each branch of the staff. A complete set of the *routine orders and instructions, Part I Orders*, issued by the unit during the month should be attached as an appendix to the original copy.
- (iv) Detailed account of operations—to include:—
 - Exact hour, location and circumstances of important occurrences. Movements and names of neighbouring units. Commanders of batteries, companies, etc, names of Officers and number of OR (i) engaged and (ii) battle casualties. Dispositions, activities and identity of enemy forces. Prisoners and trophies captured. Ammunition expended. Factors affecting operations, topographical and climatic. *Maps and sketches* showing dispositions of batteries, companies, etc, at important phases. The record of *communications, both written and verbal*, received or despatched during active operations as an appendix. A complete set of the *operation orders and instructions* issued during the month. Notes on conferences and reports rendered to higher formations, or received from lower formations, as appendices to the original copy.
- (v) Nature and description of trenches, field works or accommodation occupied or constructed. Meteorological notes.

III

(vi) Changes in establishment or strength. Names and ranks of officers and number of OR. Attachment of units and individuals. Reinforcements. *Weekly Field Returns of Officers and OR* should be attached as appendices to the original copy. *Copy of Part II Orders* should be attached to the triplicate copy only. Changes in organization, stores, transport, etc.

7. It is essential that all copies of both text and appendices are legible. Appendices will be numbered and referenced to the text in the last column of the form. Current issues of any regimental publication should be attached.

8. It will be found convenient at the end of each month, when the War Diary is being completed and the correspondence in unit files for the month is being reviewed and distributed (FSR Vol I, sec 171, para 3) if the material considered to be of historical value in the light of the above is attached as appendices to the original copy of the War Diary, the file title and reference number being entered in conformity with the filing system.

9. A good war diary makes possible the accurate and detailed reconstruction of circumstances, conditions and action.

NOTE: If monthly diary is more than one inch thick, use a second folder. If appendices are bulky, tie folder up with tape or string to make a firm package.

IV

UNIT OFFICE FILING SYSTEM AND RECORDS

"Every office will arrange for the filing and custody of its own correspondence." (FSR Vol I, Sec 171.3.)

1. Titles and Numbering of Files

A simple filing system adaptable for use in any military office at home or in the field is illustrated by the "List of File Titles" overleaf.

All documents handled by a unit fall into one or other of the nine categories enumerated, 1 to 9. The titles of the nine main divisions are based on British army operations, organization, administration and the regulations governing. Each title may be broken down into ten component parts or sub-titles, by adding a dash and subsidiary numbers 0 to 9. In turn each of these may be further broken down by adding a second dash and a third digit, and if necessary a third dash and a fourth digit. Thus 4-6-3 might be "Cooking Course at Kingston". According to circumstances, a fighting unit would expand the 1-3 prefix to accommodate all arms and services with which it may be concerned.

V

2. Date reference

The method outlined in FSR, Vol II, Appendix IV, will be used for all purposes, *e.g.*, 2 Feb 40.

3. Documents for Preservation

The monthly review of correspondence (FSR Vol I, sec 171.3) is facilitated and future confusion avoided by jacketing the material in "Category ii" (*i.e.*, "no longer required", etc) to conform with the system.

4. Correspondence in the Field

The functioning of the office of a formation or unit during active operations may be simplified by keeping a log or register of all orders and messages, written or verbal, received or sent during the action. This may conveniently be done by extending the use of the "Field Register of Communications Received or Despatched", (Army Form 2040, FSR Vol I, sec 171) to include verbal as well as written orders and messages in chronological order as received or sent.

Time of sending and of receipt are of importance second only to time of event, and should be entered both on the office copy of every field message or other document, and in the log or register. A carbon copy for contemporary reference of the commander or others concerned is desirable.

VI

A brief precis of written orders, reports and messages, with the sender's number, is sufficient, for they will be kept on file. But particular care is necessary in making entries of times of moves and of verbal orders, reports or conversations, by telephone or otherwise, which in the stress of action, may not otherwise be recorded on paper. In battle, operations messages dealt with by one officer may number over twenty-five per hour for several hours on end.

The record should be kept convenient to the telephone. Entries may be made by a clerk, or by the officer on duty at the telephone.

Such a record is invaluable to the commander in making appreciations of the situation during the action, and in compiling his report on the action afterwards. It is contemporary evidence of the highest quality, and therefore is of the highest historical value, and should be attached as an appendix to the original copy of the War Diary, together with the original documents sent and received.

(Appendix to Routine Order No. 147 CASF
22 Nov 39)

5 Jan 46 Lt L. LANGEVIN

2. MILITARY CORRESPONDENCE

1. The key-note of military correspondence is clearness and brevity.
2. It is laid down that a military letter will deal with one subject only. The subject is written either in the margin or at the head of the letter. (Cdn practice is to put it in the margin, but clerks trained in England usually put it at the head.) Therefore, the words 'with reference to the marginally noted subject' at the beginning of the text are superfluous and should NOT be used.
3. In the same way, references to the margin should NOT be made in any part of the text. For example:

Accident

B1234 Pte Brown J.B.

1. The marginally noted soldier was involved - - - - -

The above is an example of bad military style. It should be as follows:

Accident

B1234 Pte Brown J.B.

1. B1234 Pte Brown J.B. was involved - - - - -

If further references are made to Pte Brown in the text, it would NOT be necessary to repeat his number and initials. It would be sufficient to refer to him as 'Pte Brown' or 'this soldier'.

4. Abbreviations. There are always a source of difficulty in military writing. All those concerned with military writing should refer to PSPB Part I Pamphlet No 3, and, in particular, study carefully the notes at the beginning of the pamphlet. It should be particularly noted that the full stop is NOT used in military abbreviations, and that the oblique stroke is only used in the abbreviations for certain regiments such as '16/5 L', and in such phrases as 'night 25/26 Dec' or 'night 31 Jan/1 Feb'.

The following are examples of some common mistakes:

Wrong

2 1/c

R.C.A.S.C.

lieut

sgt

L/cpl

Right

2IC

RCASC

lt

sjt

L cpl

5. 'NOT repeat NOT'. There is NO justification for the use of this phrase in ordinary military writing. It is laid down that the words 'NO' and 'NOT' will be written in block letters and that is sufficient. The phrase 'NOT repeat NOT' was introduced as a substitute for the block letters for use with the teleprinter on which all letters appear as blocks.

6. 'Presently'. The use of the word 'presently' in the same sense as 'at present' or 'now' is becoming an increasingly common fault in Canadian military writing. Such errors not only give a bad impression of the writer but may lead to confusion. A writer is wise to avoid any word of which he is uncertain of the meaning.

2. MILITARY CORRESPONDENCE (cont'd)

7. **Style.** Unnecessary catch phrases should be avoided. For example, it is at present the fashion to put the phrase 'For your information please' at the end of the text of letters. This phrase almost never adds anything to the meaning of the letter. If it is intended to mean that the addressee is NOT required to take any action, it is better to say so. On the other hand, if it is intended simply as a polite form, it is better omitted, for rather than politeness it gives an impression of obsequiousness quite inappropriate in a military letter.

8. Phrases sometimes used in civilian business correspondence such as 'Your esteemed favour of even date to hand and contents noted' are of course bad style even in civilian practice, in military correspondence they are ridiculous.

2. SKIN DISEASES & INFESTATION

1 It is a matter of grave concern to the GOC that skin diseases such as scabies and infestation with pediculi (lice) appear to be prevalent. The general incidence among Cdn troops is higher than that among Brit troops. It is felt that early recognition and treatment of these conditions would do much to reduce the incidence by decreasing the number of contacts. In addition it is felt that bath parades are not supervised to the required degree and that many men of their own volition are NOT bathing once a week.

2 Therefore, it is felt that the pl offr must accept the responsibility in this connection. Effective immediately the pl Comds will personally see that each man in their pl bathes once per week unless the NO advises to the contrary. In addition, the pl comd will hold a complete body inspection once per week. Any man found to have a rash or evidence of pediculi, boils, foot trouble, will then be told to report to the Regt NO. The men will understand that these inspections are held in their best interests of their health, and the evidence of their pl comds' concern should prove to increase their morals.

3 These inspections will, be in addition to the routine skin inspections carried out by the regt NO.

3. INTERIM FORCES

1 It is requested that all personnel wishing to join in the Interim Force, if they have not done so, give their names to their coy orderly-room.

To: All Commanding Offrs
Cdn Army Occupation Force

Man Management
Complaints

1. During recent months I have at times been amazed at the trivial grievances which have formed the basis for letters to the F.P.O. coin of The Maple Leaf. It would indicate that in many cases the soldier has no faith in his offrs to correct his grievances, real or imagined. In my opinion this does not reflect to the credit of the offrs under whose comd this soldier has been placed.
2. The first duty of an offr is the welfare of the men he has the honour to comd. He should spare no effort to adjust their grievances, real or imagined, and if they are beyond his powers to adjust, then he must take them to his immediate superior.
3. It is insufficient to say that we are dealing with unwilling soldiers. There are two things that make any man happy, be he civ or soldier, i.e. hard work and a sense of well being. In a well run unit, where the offrs are up on their toes, this is so.
4. I want to remind you all, and you will in turn inform all your offrs, and they in their turn must pass it on to the men that a unit or firm in The Cdn Army can in no way be compared to a democratic community in Cda where those in authority are elected by the majority of the electorate for a term of office. By virtue of this fact, the electorate reserves the right, majority or minority, to continually snipe at authority through the med of the press. In the army every individual who holds rank has been in every case selected for office by some superior authority. Government throughout the army is based on a system which is the exact antithesis of a democracy.
5. Where democracy steps in, is in the relations between offr and OR, which should be on a basis of mutual understanding. In any army in which the offrs have the care and well being of their men at heart and in return demand a high standard of trg and discipline you will have a contented army which is a credit to the nation to whom it belongs.
6. I want you all to remember that the majority of the offr corps in the Cdn Fd Army rose from the ranks. The ranks of the Cdn Army produced good offrs. I am certain that many of the soldiers now serving in the ranks of the C.A.O.F. possess the qualities to become offrs. At present however, we have no machinery for implementing their rise to commissioned rank mainly because the demand has temporarily ceased. But every offr must be quick to recognize ability in a subordinate and reward this ability my promotion. Especially is this most important

with non-commissioned ranks. With a rise in rank goes increased privilege. This must be so if we are to foster and maintain efficiency.

7. And furthermore, although there are many officers serving in the C.A.O.F. who are also serving by compulsion, so long as they are required by The Cdn Army, they must accept this as a duty they owe to Cda. They must perform their duties in a manner which will be a credit to themselves and The Cdn Army, and a source of everlasting personal satisfaction of a job well done when they are no longer required to serve.

8. And finally, it must be impressed on all ranks that a well founded grievance can be dealt with more quickly and adequately within mil channels than by any other means.

GOC 3 Can Inf Div CACF

Bi-Monthly Security Report
for period ending 15 Jan 46.

*Appx 6*a) General Security

Good.

b) Security of Infm

Since our move in the Sengwarden barracks, our soldiers are less inclined to associate with the civilians and it is evident that the Security of Infm has strengthened.

c) Security of Material

Satisfactory.

d) Security of Access

All entries to the camp are well guarded. Every German must show a special pass to the sentry before entering the barracks and R.P.'s are re-enforcing the guards at the main gate. Since our setting out of Ems-Jade canal, arrests of Germans have reduced considerably.

e) Security of Personnel

Everything is quite normal, no one has been provoked by Germans during the last 15 days.

f) Miscellaneous

Concerning the civilians working in camp without the proper authority, firm steps have been taken to eliminate all infractions.

B1-Monthly Security Report
for period ending 31 Jan 46.

a) General Security.

The standard of security remains fair.

b) Security of Infm.

No case of indiscretion has been reported.

c) Security of Material.

It presents no problem, as the only store of amm is in the R.Q.M. store.

d) Security of Access.

No case has been reported of anyone getting unauthorized access to the barracks.

e) Security of Personnel.

In the evening of the 29th of Jan, a D.R. coming from Sillenstede to Bengwarden MR. R. 54101806 reported that a jeep in front of him came across a cut-throat wire that blocked the road. Investigations are being made.

f) Miscellaneous.

Everything is quite normal.
