REPORT
FROM THE
INDIAN DEPARTMENT
OF THE
PROVINCE OF CANADA,
FOR THE HALF-YEAR ENDED 30TH JUNE, 1864.

INDIAN AFFAIRS.

The receipts for lands and timber for the half-year commencing 1st January and ending 30th June, 1864, were $38,907.78; interest and investments for the same period $43,734.57; annuities and grants, $17,310.00; making a total of $95,042.35.

The payments, comprehending annuity and interest money, made to Indians, and including salaries, surveys and incidental expenses, amounted, for the same period, to $63,006.36. At the commencement of the year 1864 the total sum, as represented in the books of this Department, at the credit of the various Indian bands, was $1,530,343.31. At the termination of the half-year ending 30th June, 1864 from payment of instalments on lands, from new sales, timber, & c., the amount, after defraying salaries and all other charges, was $1,562,530.19 - shewing an increase of $32,186.88.

During the period referred to, no additional lands of consequence were brought into market.

REPORT OF THE DEPUTY SUPERINTENDENT OF INDIAN AFFAIRS.

INDIAN DEPARTMENT,
Quebec, 14th January, 1865.

To the Hon, Alexander Campbell,
Superintendent General of Indian Affairs:

SIR, - I have the honor now to submit a brief report concerning the affairs of this Department, for the period (in order to harmonize with the altered Financial year), embraced between the, 1st January, and 30th June, 1864.

The statistical information in tabular form, contained in the accompanying returns, has been compiled upon the same principle as was adopted in the preparation of those for the year 1863.

It will be observed, with some satisfaction by many, in addition to those who profess to take a deep interest in the Indian race, that the introduction of civilization among them, so far from threatening their gradual extinction as a people, is producing results of an, opposite description. This is assignable to various causes, one of the most perceptible of which, is the increased comforts, tending to a more general exemption from sickness and disease, which are secured to them by their location upon farms, where, in substantial habitations, and with diet in sufficient quantity, and usually of good quality, they escape from the privations incident to their condition when attempting to live mainly by the chase after the inroads of civilization had impaired the value of their hunting-grounds.

Another reason assignable for an increase, instead of diminution in their numbers, is
the provision made for medical attendance upon them, and thus avoiding the sacrifice of life consequent on contagious and other diseases, induced by the proximity of their abode to the white settlements.

It will be observed on reference to the tabular statement L, appended to this Report, that upon weighing the aggregate of decrease against that of increase, the latter greatly preponderate. I have no hesitation, however, in saying, that the apparent increase which this comparison exhibits, is to be relied on to a limited extent only. Among the tribes and bands, where the census returns have for some time past been annually or semi-annually, according as facilities for it exist, systematically filled up and sent in, there is, with one or two exceptions, a marked improvement in numbers. And the doubt as to the reliability of the returns, relates to those bands where the difference between those recently obtained and those on previous occasions is so extraordinary, as to convey the impression that the former returns must have been very imperfect.

Another subject of very considerable interest is the education of the Indian people. To this subject the Department is continually giving its attention. One of the new schools brought into existence during the past year is that established for the benefit of the Micmacs, settled in the Township of Maria, to the southward of the Restigouche. The new school is under the supervision of Ralph Dimock, Esq., the superintendent of Public Schools in the adjacent settlements. Upon the Ristigouche, at Mission Point, is another school attended by the children of Micmac Indians, and likewise assisted from funds managed by this Department. It is believed to be very efficiently conducted, under the supervision of the Rev. Mr. Saucier.

In Western Canada, among the Indian schools lately established, is a second school among the Mississaguas of the New Credit Settlement, and another at Little Current on the Great Manitoulin Island conducted, by Mr. Burkitt, and supported by one of the Church. Societies, unaided by Indian funds. Upon the Grand River, the New England Society which has done so much in the cause of education among the Six Nation Indians, has extended its Institution, established in the vicinity of Brantford.

RECEIPTS AND EXPENDITURE

The receipts from Land and Timber during the first six months of the year 1864, differ in no very considerable degree from the average of the former year. And there having been no augmented demand for lands, leads to the conclusion that the country has not yet entirely recovered from the effects of the extraordinary purchases made altogether in excess of the actual requirements for settlement, in the years especially of 1856 - 57 and '58. And the large amounts of overdue instalments, upon sales then made, come but slowly in, although circulars have been addressed to the defaulters. It may become imperative to cancel such sales with respect to which the unpaid instalments have been sometime overdue, as the non receipt of the capital, the realization of which in prospects induced the Indians, to surrender their, lands for sale, occasions them to complain that their interest money, divisible semi-annually, does not increase to the degree they were led to anticipate. The proportion of money arising from Timber, received during the first six months of the past year, was $4699 87. Accordingly the payments upon land when separately computed, were not so considerable, taking into account the amounts actually due as might have been expected.

The expenditure under the ordinary heads, differs in no essential degree, from that for the year 1863.

In the statement of special payments, & c., included in Schedule C, the item of Surveys is unusually large, owing to the cost of Surveys carried on upon the Great Manitoulin Island. But as shown in statement marked H, the surveyed Indian lands unsold, now amount to 549,362 acres, being as compared with the statement for 1863, similarly marked an increase of 118,253 acres. Another special payment is the 2nd moiety of $625 towards the North Saugeen Peninsula Road.

The condition of the account between the Government and the Indian Department is indicated in statements E. and F., shewing as taken from the books of this Department a
sum on the 30th June, 1864, of $1,562,324.40 at interest, against the sum of $1,530,288.40 on the 31st December, 1863.

Since the publication of the last Report, the Province has relieved the Imperial Government of the duty of supplying a limited number of aged and needy Indian men and women, with the annual donation of a blanket for each such person. The blankets were purchased by this Department, and were issued as usual in the autumn so that in consequence of the present accounts being brought to the 30th June, 1864 only; no particulars thereof, will appear on, this occasion.

The Home Government continues to pay the pensions to Messrs. Chesley, Anderson and others, amounting for the half-year to £425 1s. 7d. sterling, out of Imperial funds, and likewise to issue through the Commissariat Department, a ration allowance commuted by a money payment, to certain Lower Canada Indians, amounting for the half-year to 30th June last to $106.82. With the exception of the retention of these two obligations, it may be considered that the connection of the British Government with the Indians of Canada, has been relinquished. And that upon the Province has devolved the duty of promoting the well-being of those people, and advancing their condition, by every practicable means.

The officers of the Department, and myself among the number, in Official visits to the Indian settlements, inculcate a greater attention to Agriculture. The occupation to which circumstanced as they are, (with sufficient Reserves including, especially in Western Canada, lands adapted to tillage, set apart for their benefit) they might with very great advantage, if resolved to be industrious, profitably apply themselves. I find, however, that there a bad system prevails, permitted in times past to grow into existence, which must be uprooted before I can hope for the desired success. We have seen among the white population, people too lazy to work their farms themselves, and when they did farm their lands themselves, cultivate them so unskilfully as often to have but half-crops. The naturally indolent character of too many men of Indian blood disposes them to accept offers to farm on shares, which fostering their disinclination for constant labor admits of their subsisting, although miserably, while leading a life of idleness. This engenders habits opposed to temperate and virtuous living, and conduces to that demoralization in a greater or less degree which the absence of occupation occasions to people of whatsoever race and blood they may be. To effect improvement we must then break up the noxious system out of which so much evil grows. No true civilization can prevail apart from labor, either physical or mental, and with the former must some at least of the latter be combined, in order that with labor, skill may go hand in hand. And, as regards our present subject, that Agriculture may be practised as a science, it is important that the Indian people shall be educated for it, that it be encouraged in every possible way, and that the policy to be pursued be such as to dissuade the Indians from its neglect. The Act 13th and 14th Victoria, chap. 74, by section 10, prohibits any persons other than Indians or intermarried with Indians from settling upon, or occupying Indian lands. Under this law, the officers of the Department do remove intruders. And, with a view to terminate the enervating and pernicious practice of associating white settlers on the occupancy of their lands, and giving over the cultivation of the farms to them in shares, the law may effectually be invoked. Giving, however, beforehand, due notice to those concerned, that the existing arrangements must be terminated. At a first view, this may be regarded as a harsh proceeding. But when it is considered that the system shuts out the younger members of an Indian family from useful employment, and enforces upon them idleness with its tendency to dissipation, the necessity for insisting upon the abolition of farming on shares, becomes obvious.

In some recent instances, the Department has, when aiding the Indians in Lower Canada, supplied them with implements of husbandry, and with seed grain. And it is hoped that with each succeeding year progress is being made in improving the condition of the Indian people in nearly every section of the Province.

In concluding this Report it will be advisable to draw attention to the expectation, that the sales of Indian lands will, during the current year, very considerably improve. The construction of a road running northerly between the townships of Keppel and
Amabel, up the Saugeen Peninsula, has been aided from Indian funds to the extent of $1,250, and its extension has been projected. This world will unquestionably afford improved access to the unsold lands; and promote the settlement of those already disposed of. It is to be remarked that the early great sales in the Saugeen Peninsula were made subject to no conditions relative to occupation and improvement, and blocked up by the lands of non residents, as in consequence of those unconditional sales, the Townships comprising the Peninsula have been, and the demand being no longer on speculation, but for settlements, recent sales could not be otherwise than limited in amount. The Department, in justice to those who, for the most part, of late desired to purchase for actual settlement, has declined to allow any sales excepting upon that condition. And it is believed that this policy, is consistent with the true interests of the Indians, as well as of the Province, and will ensure ultimately a sale at a fair price of every lot susceptible of cultivation.

All which is respectfully submitted,

W. SPRAGGE,
D.S.I.A.

I. MEMORANDUM relative to Blankets furnished to Aged and Infirm Indians.

No issue can appear in this return, is the delivery of blankets to the Indians takes place during the autumn of each year. The expense of supplying them now devolves, by arrangement with the Imperial Government, upon the Provincial authorities. A sum of $1100 was included in bill of supply for this year.

*WM. SPRAGGE,*
*D.S.I.A.*

*INDIAN DEPARTMENT,*
*Quebec, 14th January, 1865.*

*page 24*
SAUGEEN.

There are two Indian Schools here. One in the village kept by Henry S. Jones, an educated Indian, since the 1st of October last. His salary of $200 a year is paid by the Wesleyan Society.

The average daily attendance has been 10 out of 27, 11 of these children have been away with their parents hunting.

13 boys, of whom 4 read 1st, 2nd, and 3rd books. 9 spell.

15 girls, of whom 4 read 1st, 2nd, and 3rd books. 10 spell.

4 boys and 4 girls write and study arithmetic. 1 geography and maps.

The second school is taught at French Bay, 5 miles from the Indian village school, where there is a large settlement of Indians living on their respective farm lots.

This school is taught by Mr. John Scott, a white man, who was appointed by the Wesleyan Society, but whose salary is paid from Indian Funds at the rate of $200 a year. On the strength of this sum being voted by the Indians, the above society duplicate that, amount for the salary of Henry Jones, the teacher of the other school. The Society of Friends also contribute $25 a year to this school.

I had a personal interview and conversation with Mr. Scott in regard to this school. He is well fitted for his duty, and takes great interest in the Indian children.

I must certainly say, from personal observation, as far as the Indian schools in this superintendency are concerned, that the Wesleyan Society use great caution in the choice and appointments of the Teachers for Indian schools, good moral character combined with proper qualifications, being specially regarded. The return for this school is. number of pupils on roll: boys 21, girls 18. Total 39.

The missionary at this station, the Revd. Mr. Cooley, states that their Society has a Sabbath School which has given great satisfaction the past year.

The following are its statistics:

<table>
<thead>
<tr>
<th>No. on the roll: 14 boys, 21 girls</th>
<th>35</th>

I regret to say from Mr. Cooley's Report that, mortality in this band seems to be on the increase. He has buried 4 in 3 weeks.

CAPE CROKER.

The school at this station is taught by John Jacobs, an Indian, and brother of the late Revd. Peter Jacobs, Church of England Missionary at Manitoulin Island.

Mr. Jacobs salary is $200 a year paid by the Church of England Missionary Society.

No. of children in attendance 20 to 30.

Number that write, 10.

Most, of them cipher in the four first rules of arithmetic.

page 25
The Indians expressed to me their entire satisfaction with the progress the children had made under Mr. Jacobs, who says in a letter to me, most of the children began from the alphabet, and that for the 18 months he has taught them he has seen a great improvement.

After each lesson they read he explains the meaning to them in Indian, and asks them questions in both languages. They can now understand and speak a good many words in English.

CHRISTIAN ISLAND.

The teacher to the Indian School on this Island is a white woman Miss Charlotte Adams, who is appointed by the Wesleyan Society. Her salary of $100 a year is paid from Indian funds, and it is intended to add another $100 by the Society.

Miss Adams has been a good deal amongst the Indians', and knows a little of the language; she is well adapted and well qualified for a teacher, and a better selection for the Indian children could not have been made.

No. of pupils on register, boys, 29; girls, 29. Total, 58.
No. of pupils now in attendance, boys, 15; girls, 15. Total, 30.
Average attendance, boys, 7 1/2; girls, 6. Total 13 1/2.
Lowest average monthly attendance is 11 1/4.
Highest average monthly attendance is 16 1/4.
Books used are National Series.
No. in Alphabet, 14.
Arithmetic is taught simultaneously to the whole school on the black board with illustrations.
Geography, as above from the maps.
All the children write on their slates till they learn the forms of the letters.

SKUGOG ISLAND.

There is no school here, nor has there been any for many, years. The band is very small there being not more than 8 or 10 children of an age to go to school.

MUD LAKE.

The school here is supported by the Now England Society.
Teacher, James, School for the boys; Mrs. Schofield for the girls.

A small farm is attached to this school upon which the boys are required to work an hour each day.

**ALNWICK.**

The only Report received from this school is for the quarter to 30th Sept. 1864, viz

No. of boys, 26; girls, 19. Total 45.

White children at the school, 6.

The teacher is a very competent young man son of the Rev. Mr. Madden, the Wesleyan Missionary at this station.

Mr. Thos. E. Madden's salary is $2.00 a year paid by the above society. He holds a second class certificate as a Teacher.

*page 26*
EXTRACT from Superintendent Gilkison's letter accompanying his Report on the Grand River Indian, Schools.

The number of Schools among the Six Nations are eight, and the Mississaguas have two, or ten in all. The first seven schools are under the superintendence of the Rev. Mr. Nelles, who kindly furnished the information regarding them, and in his letter states: - 'Four of the teachers are Indians, who were educated at the Mohawk Institution (school No. 1), where the children are boarded, clothed, and educated, thus securing regular attendance, and consequently the improvement of the children is very satisfactory.

"In addition to the ordinary branches of an English education, the boys are instructed in agriculture, and the girls in sewing, spinning, knitting, &c,"

"The other six are Day Schools, at which the attendance of the children is very irregular, and on this account their progress is slow and unsatisfactory."

The 8th school is under the charge of the Rev. Mr. Germaine, Wesleyan Missionary and the 9th School under the care of the Rev. Mr. Lawson, of the same Mission. The 10th is a new school, lately established, and has a Board of Trustees from the New Credit Band. Some children from the white settlers, in the Township of Walpole, attend this school, paying the teacher 25 cents each, per week.

A substantial addition has been made to the Mohawk Institute, which now affords accommodation for one hundred children.

The New England Society is thus conferring immense benefits upon the Indian people, who will no doubt, appreciate them.

It may be observed that the capacity of Indian children for learning is quite as good as that of the whites.

(Signed)
J.T. GILKISON,
Superintendent and Commissioner.

INDIAN OFFICE,
Brantford, 17th January, 1865

EXTRACT from letter of W. Livingston, Indian Commissioner, dated at Delaware, 2nd January, 1865.

"I find, by reliable information furnished by the Rev. Abraham Sickles and William Doxtater, that the present population of the Oneida Band is, in round numbers, six hundred, and they are gradually increasing. As Christians, they are divided into two denominations - Church of England and Methodists. The Rev. R. Flood had the Church people under his care for some years, Mr. Potts having been sent thither under the auspices of the Colonial Church and School Society, as schoolmaster and catechist. Mr. Potts eventually took orders, and was their Missionary till within a few months back, when he was incapacitated by an illness which terminated in his death, about three weeks ago. William Doxtater, a good Indian, has acted, and still acts, as a sort of catechist; but, he tells me, they have had no school since Mr. Potts was ordained, a circumstance his people much regret, as the children of the professing members of the Church are numerous. The Methodists, on the other hand, have an efficient organization under the Rev. A. Sickles, and have also a teacher in their school named Francis G.H. Wilson, whose salary ($160.00 per annum) is paid by the Wesleyan Missionary Board Fund. The present attendance of children is neither large nor regular. In warmer weather, from 20 to 30 children attend. The branches taught are the common series of school books, with which, however, the school is rather inadequately furnished."

CORNWALL,
12th December, 1864.

SIR, - I have the honor to acknowledge the receipt of your letter of the 3rd instant, requesting me to forward to the Indian Department a statistical statement of the school at the village of St. Regis.
I have to inform you that the school at St. Regis has been closed for this year past, as
Mr. McDonell, the late teacher, left and was to return soon, but has not done so, for the reason that his salary was kept back by the Board of Education for Lower Canada, to whom the school reports have been sent for the last few years, and not through me to the Indian Department, as formerly had been done.

I have, & c.,
(Signed)
S. COLQUHOUN
Indian Agent.

MISSION OF RESTIGOUCHE,

22nd December, 1864.

SIR, - I have the pleasure of answering your letter of the 3rd instant, requesting me to furnish the department with a statistical statement as to the number of males and females attending the school at Restigouche, & c.

The number of children that have attended the school this year is: - Males, 33; females, 31; total, 64.

English and French are the two languages taught in the school. The children are learning the reading, writing, and Spelling, by heart, and learning, by heart some pieces of their books, translating table of multiplication, arithmetic, and geographical map.

The study of the globe would be a great benefit to the children. This study would give them a great knowledge of the different parts of the world, but until now, the school had no means sufficient to get one. These are the several branches taught in the school at Restigouche. The name of the teacher is Joseph Dorais, a young man from the district of Montreal.

His salary is £50 a year. He receives payment from three sources from the Department of Education, from the Indian Department find from the people of his mission; but the Indians being so poor that I can raise but a few dollars from them.

This is the information which I have the pleasure of transmitting to the department.

(Signed) P.J. SAUCIER, Ped.
Secretary and Treasurer to School Commissioners.
Wm. Spragge, Esq.
