REPORT
OF THE
SECRETARY OF STATE
OF
CANADA

FOR THE YEAR ENDING ON THE 30TH JUNE, 1869.

To His Excellency the Right Honorable Sir JOHN YOUNG, Baronet, Governor General of Canada, & c., & c., & c.
MAY IT PLEASE YOUR EXCELLENCY:

I have the honor to present to your Excellency my Annual Report for the year ending on the 30th of June, 1869.

The Department, as organized last year, has worked well, and the officers appointed to conduct its business have discharged their duties with zeal, intelligence and fidelity.

In the corresponding Branch, properly so called, the number of letters received was five thousand nine hundred and sixty-nine, and the number of letters sent was two thousand four hundred and ninety-five.

In the Registering Branch the system of registration and the mode of keeping an index are as perfect, and as favorable to expedition, as possible. The new indices to registrations, prior to Confederation, as well as for those since, are in a forward state, and when completed will greatly facilitate searches in the Registers.

The sales of Ordnance Lands continued during the year 1868 - 9, and the receipts from the year's sales, as well as for interests on, and instalments of, the prices of previous sales,

amounted in the twelve months to \$48,219. I took steps, with the assistance of the Head of that Branch, whose report accompanies this, to diminish the cost of agencies and other expenses, and to sell at once, or prepare the way for selling all land not required by the Government for public purposes. With the same view, orders were given to ascertain if it would not be of advantage to dispose of the rights of the Crown in the Seigniorship of Sorel.

I may add, that since the Ordnance Lands were transferred to Canada, that is to say, within the last twelve years and a half, the sums received for the price of land sold, for interest and for rent, have amounted to \$372,601.

I come now to Indian affairs, and I am happy to say that, thanks to the fatherly protection of the Government, the Indian tribes in general continue to be in a prosperous condition. This portion of the population, as a general rule, is increasing, or at least not diminishing. Its members are acquiring a taste for agriculture, and seeking to take advantage of the means of education placed within their reach in the schools kept up for their benefit.

In a pecuniary point of view the tribes in Ontario are much better off than those in the other Provinces, owing to the fact that the lands reserved for them originally, that is to say, from the first establishment of British Government in this country, were situated in localities highly favored in regard to climate and to fertility of soil. The tribes in Lower Canada, although much less highly favored in these respects, have, thanks to the foresight of Government, incomes which seem to suffice for their wants. As for the tribes in Nova Scotia and New Brunswick, I asked for an increased grant for them last year, and I am of opinion that such a grant will be absolutely necessary for them, for several years at least, in order to the maintenance of the schools which are beginning to be opened among them, and to the establishment of others for the use of tribes which have children to send to them.

I refer your Excellency to the annexed Report of the Deputy Superintendent General and the interesting statistics which accompany it.

Your Excellency will see there that this Branch of the Department, as well as the others, has been largely developed.

All of which is respectfully submitted.

HECTOR L. LANGEVIN,
Secretary of State,

Department of the Secretary of State,
Ottawa, 8th November, 1869.

ORDNANCE LANDS, DEPARTMENT OF SECRETARY OF STATE,
Ottawa, 5th November, 1869.

SIR, - In obedience to your instructions I have the honor to submit a report on the transactions of this Branch of your Department, to the termination of the past fiscal year, 30th June, 1869.

I beg leave, however, to remark that any last report, dated 15th March, 1869, laid before Parliament and printed by order, contains all that could be said, and all the information that could be given, up to the above date, and that an interval of three months and a half, chiefly occupied by the Session of Parliament which rose on the 22nd June, although amply

productive of daily work, left little time for new operations or for doing more than completing transactions already in progress, and which, so far as they had gone, had already been made the subject of report.

In that report, dated 15th March, 1869, it was stated that "the income to be credited to the fiscal year beginning 1st July, 1868, amounts at present date to \$34,493 38, and justify the expectation that by the 30th June next, the last day of the said fiscal year, it will equal a sum of \$50,000."

On the "30th June" next (the 30th June last past) the income of this Branch of your Department had amounted to \$48,219 22 cts, collected under the following heads: -

Capital	\$29,076 21
Interests and rents	18,966 61
Fees	176 40
...	\$48,219 22

During the same period, from the 1st July, 1865, to 30th June, 1869, sales of Ordnance Lands had been made to the extent of \$71,348 03, on account of which \$13,114 52 had been received.

During the Session of Parliament, as I have before said, the time and attention of the Ordnance, Lands Branch was almost entirely engaged by routine business, chiefly with Members of the Legislature and their constituents and friends, and in the brief interval of eight days which ensued previous to the 30th June, no occurrence took place requiring special mention.

*I have the honor to be, Sir,
Your most obedient servant,
WILLIAM F. COFFIN,
Ordnance Lands Agent.*

The Hon. Hector L. Langevin, C.B.,
Secretary of State, Canada.
ADDENDUM.

Statement of receipts from Ordnance Lands, since transfer to Canada.

30 June, 1860	28,586 03
...	\$372,601 27

OTTAWA, 1st November, 1869.

SIR, - I have the honor to lay before you, the detailed statements in the usual form, exhibiting the operations of the branch of the Public Service under your charge, connected with Indian affairs, during the year, commencing 1st July, 1868, and terminating 30th June, 1869.

The disposal of the Indian Lands, both in the Saugeen Peninsular, and the Manitoulin Island, has steadily proceeded, and as they are sold only to persons who propose to become actual Settlers, the system is calculated to insure eventually the sale of every lot suitable for farming purposes, and at prices too, superior to what could now be obtained, were the lands allowed to remain in a wilderness condition.

With a view to facilitating access to the lands sought for, for settlement, the work of opening out Roads in both of the localities referred to, has been carried on successfully. The length of Roads in the Manitoulin Island, constructed and requiring comparatively little work to complete them is about 40 miles.

An exploration by Provincial Surveyor Gilmour, for continuing the line of Road from its commencement, midway between Owen Sound and the Saugeen, up the entire length of the Saugeen Peninsula, resulted in discovering important tracts of valuable land, which the forming of this road will render easy of access.

The expenditure for surveys and road construction, has, of course, diminished considerably moneys which otherwise could have appeared as additional investments.

The cause of Education has received its full share of attention, and grants have been made in a liberal manner towards the erection of School Buildings, and in some cases improved salaries to Teachers.

The Mount Elgin Industrial School, which was on its establishment, placed under the charge of the Wesleyan Methodist Society, having been re-organized, will, it is trusted, be of essential advantage to the Western Bands.

The annual grants for seed, grain, and implements, have been somewhat increased, and there are indications in some quarters, that the cultivation of the land has been better managed than formerly, but very much requires yet to be done, to justify an opinion that the Indians are, as a general rule, becoming practical farmers. It is, however, but just to those of the Six Nations on the Grand River, to state, that their Agricultural Society, at its last meeting, exhibited no little success, in some important particulars, and a community numbering approaching 2,800, having on use among them threshing machines of their own, and good implements of husbandry, must, it will be admitted, be advancing. The population returns are, as is nearly always the case, incomplete. But they are sufficient to prove that the comforts and attention to health, incident to an advancing civilization, have occasioned in a majority of the settlements an increase in numbers.

The measures adopted for the disposal of the merchantable timber on several of the Indian Reserves, on favorable terms to the interests of the Indians, will add, in the course of the next two or three years, materially to their invested funds.

The Legislative enactments, passed during the past and preceding Sessions of Parliament, designed for the amelioration of the condition of the Indians, will, it is believed, eventually be of essential benefit. They, however, require time (considering their habits of thought,) to estimate correctly the utility of those measures.

The Indian Lands in the Province of Quebec have engaged attention, and a considerable

area of land, adapted for settlement, in the Township of Ouiatchouan, on Lake St. John, and in the Township of Viger, in the vicinity of Isle Verte, have been surrendered by the Indians holding those Reserves, with a view to their being sold for their benefit, and steps are in progress for carrying out that intention.

The Indians on the north shore of the Lower St. Lawrence have been supplied with the customary assistance, which it has for many years been usual to extend to the old, infirm, and destitute members of the bands frequenting those coasts. And as statements reached this Department that the small-pox (so fatal often to the Indian population) was prevailing on that shore, a medical practitioner was employed at considerable cost, to visit and vaccinate all who he might consider required it; and there is reason to believe that a salutary purpose has been obtained.

The Legislature's having increased the Annual Grant for the benefit of the Indians in Nova Scotia and New Brunswick has admitted of funds being set apart for establishing Schools in the former Province; and it is proposed to organize Schools likewise in New Brunswick.

It affords me sincere gratification to bear testimony to the efficient and zealous manner in which the officers composing the staff of the branch of the public service connected with Indian affairs, both at head-quarters, and in the superintendencies and other agencies, have fulfilled their duties, meriting, I believe in a marked degree, the recognition of their services by the Head of their Department.

All which is respectfully submitted, and,

*I have the honour to be, Sir,
Your obedient humble servant,
WM. SPRAGGE,
Deputy Superintendent.*

The Honorable Hector L. Langevin, C.B.,
Superintendent General of Indian Affairs and Secretary of State for Canada.

Total of Sales. -	\$ cts.
The total amount from all sources placed to the credit of Indian Funds during the period referred to, was	248,942 65
Which may be placed under the following heads: -	...
Receipts from Land and Timber	\$49,028 68
Interest on Investments	104,427 36
Annuities and Grants	42,020 00
Transfer by Government	53,466 61
The Payments and Expenditure (which comprehend payments for road construction and for surveys, and include refunds from principal) have amounted to	165,333 37
The Investment on the 1st July, 1868, bearing interest, amounted to	1,804,160 59
The amount at the credit of Indian Funds on the 1st July, 1869, after deducting the payments and expenditure for the year then concluded, was	1,883,752 02

...	\$ cts.
Payments made and charged to Principal of Indian Land Management Fund during the year ending 30th June, 1869: -	...
Roads	4,144 01
School Houses	500 00
Travelling Expenses	143 25
Relief to Manitoulin Island Indians	550 00
...	5,337 36
