

RESOURCES FOR EDUCATORS

Visit Environment Canada’s Educators’ website at www.ec.gc.ca/educators to find the teaching resources listed below.

	AGES			
	5-8	9-12	13-15	16-18
CLEAN AIR / CLIMATE CHANGE				
Acid Rain – Supplementary resources				
A Change in the Air: videoconference & in-school presentations – Supplementary resources				
Science and Impacts of Climate Change Presentation Graphics – Supplementary resources				
NATURE / WILDLIFE				
Species At Risk in Atlantic Canada workbook – Supplementary resources				
Species At Risk in Canada – Supplementary resources				
Wetland Biodiversity posters – Lesson plans & teachers’ guides				
WEATHER				
Project Atmosphere Canada – Lesson plans & teachers’ guide				
Sky Watchers – Programs				
All About Hurricanes – Supplementary resources				
Wind Chill – Supplementary resources				
WATER				
Adopt a River – Programs				
Did you know?... Freshwater Facts for Canada & the World – Supplementary resources				
Every Drop Counts – Supplementary resources				
ExploreWater with Holly Heron – Supplementary resources				
From Mountains to the Sea – Supplementary resources				
Let’s Not Take Water for Granted – Supplementary resources				
Morphie’s Great Water Ride Adventure – Lesson plans & teachers’ guides				
Project H2O – Programs				
A Primer on Fresh Water – Supplementary resources				
Resource Kit: Kid’s WaterFest – Supplementary resources				
Water & Canada: Preserving Legacy for People & Environment – Supplementary resources				
Water Fact Sheets – Supplementary resources				
Water Heroes – Lesson plans & teachers’ guides				
Water Use Calculator – Supplementary resources				
POLLUTION PREVENTION				
A Guide for Building an Interactive Pollution Model – Supplementary resources				
Lessons in Pollution Prevention – Lesson plans & teachers’ guides				
National Pollutant Release Inventory – Supplementary resources				

Check out the **Supporting Resources** section on the website below for a list of speakers for your classroom, networking and training opportunities, museums and other educational facilities, a calendar of environmental dates, and much more!

www.ec.gc.ca/educators

Environment Canada collaborates with a wide variety of Canadian organizations to develop many additional environmental education resources. Learn more about these products and services by following the links below or by visiting Environment Canada's Educators' website.

Environment Canada's Biosphère: www.biosphere.ec.gc.ca

The Biosphère is Environment Canada's museum in Montreal which provides education and training for school groups and the general public on water, air, climate change, sustainable development and responsible consumption.

The Canadian Forestry Association: www.canadianforestry.com

The Canadian Forestry Association provides a teaching kit series for educators with tools to help young people better understand the value of forests and the importance of protecting and conserving them. Kits include detailed lesson plans, practical information on forest issues, and examples of relevant recovery, conservation and stewardship programs.

The Canadian Wildlife Federation: www.cwf-fcf.org

The Canadian Wildlife Federation produces educational resources and manages programs for educators and schools. On the website, you will find information on Hinterland Who's Who, Space for Species, Oceans Day, National Wildlife Week, Wild Education Programs, Wildlife posters, and a map of Canada's watersheds.

Green Street: www.green-street.ca

Green Street is a standard of excellence for high quality environmental education programs that are provided by prominent environmental education organizations from across Canada.

ProjectWET: www.cwra.org (currently English only)

Project WET is co-managed by Environment Canada and the Canadian Water Resources Association. It develops and disseminates classroom-ready teaching aids on water. Facilitators conduct informative, interactive and fun workshops to train classroom teachers, non-formal educators, and resource managers.

Resources for Rethinking: www.resources4rethinking.com

This database provides teachers with improved access to excellent and relevant resources that support education for sustainable development. All resources have been professionally reviewed by the people best equipped to judge the value of an educational resource - teachers!
