CANADA
LIFE ASSURANCE COMPANY,
ESTABLISHED 1847.

INCORPORATED BY SPECIAL ACT OF PARLIAMENT.

CAPITAL--ONE MILLION DOLLARS.

HEAD OFFICE--HAMILTON, C. W.

President: JOHN YOUNG, Esq.

Vice-President: JOHN FERRE, Esq.

Bankers: THE BANK OF MONTREAL.

Manager: A. G. RAMSAY,

Secretary: THOS. M. SIMONS.

Medical Adviser: W. CRAIGIE, M.D.

General Agent: AMOS FAYRAM.

EVERY security, advance, and facility which prudence and liberality can suggest, are offered by this Company. The rates, which are founded on the higher interest obtainable in this country than in Great Britain, are lower than those of British Offices.

The following are specimens of the Annual Rates for Assurance of $1,000 payable at death.

Fire and Life Losses paid by the Company, since its establishment to the end of 1861, £2,222,116
Fire Losses Paid in Canada amount to more than $600,000

The liabilities of the Shareholders and Directors is unlimited.

The Company insures all descriptions of property against loss by Fire, on favorable terms.

ALL LOSSES IN CANADA PAID,
AS SOON AS ESTABLISHED,
WITHOUT REFERENCE TO THE HOME BOARD.

DIRECTORS IN CANADA:
T. B. ANDERSON, Esq., (President Bank of Montreal,) CHAIRMAN;
ALEX. SIMPSON, Esq., DEPUTY CHAIRMAN;
HENRY CHAPMAN, Esq.; JAMES MITCHELL, Esq.;
E. J. S. MAITLAND, Esq.; HENRY STARNES, Esq.
J. H. MAITLAND, Esq., RESIDENT SECRETARY.
G. F. C. SMITH Esq., ASS'T;
F. A. BALL, Esq., INSPECTOR OF AGENCIES, and AGENT FOR HAMILTON.
A. CHAPMAN,
Freight and Forwarding Agent,
PIER 16 NORTH RIVER, NEW YORK.

Freight promptly forwarded,
Insurance effected, &c.

The above respectfully reflects consignments of property for re-shipment, from all sections of the Country, by any route, and all seasons of the year, which will invariably be forwarded to destination with care and dispatch.

Special attention given to transshipment of Steam Engines and Boilers, Safes, Bells, Mill Stones, and Gearings, and Machinery of all kinds, Pianoforises, Looking-glasses, Tress and Barrels, and all articles of a perishable nature. Bills of Lading will be taken for all goods shipped, and copies mailed to consignors and consignees.

Open policy kept with all of our oldest and strongest Insurance Companies for the convenience of customers desiring Marine Insurance; for effecting which, no charge (beyond actual premium) will be made.

To parties engaged in business or traveling at the South, South-west, and West, will find it to their advantage, when ordering Merchandise, Machinery, &c., from the Northern and Eastern States, to instruct their correspondents to mark and consign packages to this care, in New York and thereby secure prompt transshipment.

To those favoring me with their patronage, I would say that no effort will be wanting on my part to merit their approval.

Packages should be marked
A. Chapman, New York,
A A. Chapman, Box 1132, New York,
which will insure prompt attention.

PARTICULAR ATTENTION GIVEN TO REPAIRING.

ENCOURAGE HOME MANUFACTURE.

TO WATCHMAKERS, JEWELLERS, AND THE TRADE GENERALLY.

I HEREBY LEAVE TO CALL THE ATTENTION OF THE TRADE TO MY UNRIVALLED FACILITIES FOR MANUFACTURING TO ORDER ALL KINDS OF FINE JEWELRY, WATCHES, DIAMONDS, TABLETS, CHAINS, GEMS, AND STONE RINGS, &c. Having recently enlarged my premises, and procured improved machinery, I intend to show the public that better articles than those imported can be made here for as little as, or less than, they cost in Birmingham or New York. I am aware that some have a preference for imported goods, because they are under the impression that there are no workmen here equal to those of the "old country."—Let me assure them that there is no foundation for such an idea; I can manufacture just as good an article of Jewelry as any that can be imported, and at a lower price.

Watches, Clocks, Jewelry, Musical Instruments, &c., repaired in the best manner.

ALL ORDERS BY MAIL PROMPTLY ATTENDED TO.

I take this opportunity to thank my customers for their patronage during the last seven years, and hope that through the coming winter I shall be favored with as many orders from my old patrons, and from all who wish to get good and warranted articles at reasonable prices. In conclusion, I would say, that I will use my best endeavors to merit the esteem and good-will of all my customers. My motto shall be—Excellence, Celerity, and Cheapness.

Mills at Valleyfield, on the River St. Lawrence.
The Royal Insurance Company,

It is indispensably necessary that every Company which undertakes to replace the Loss occasioned by Fire, or to provide by a specific sum, or by an Annuity, the means of subsistence, to the Wedge and the Orphan, should be able to show its Undoubted Ability to perform these extensive duties. As a proof of Standing and Position of the "Royal" Insurance Company, it may be stated that its

Subscribed Capital is Two Millions Sterling.

The Capital Actually Paid up and Accumulated Amounts equal Eight Hundred Thousand Pounds.

It cannot be too strongly urged on the attention of the Assurer that Security is the First Desideratum in all Insurance Transactions. This Company has not attempted, unless the event or contingency against which he wishes to guard is provided for,—from the moment he has paid his Premium,—under all possible circumstances.

It is therefore manifest that the Capital of an Insurance Company should be sufficiently large to meet all possible demands, and that its amount should be distinctly stated, in order that its entire sufficiency to meet all claims may plainly appear.

The Directors invite attention to a few of the improvements in the Fire Business for the past Twelve Years, 1854 to 1866, which are illustrated by the following Table exhibiting the Increase in the Fire Business for the years 1854 to 1866:

The above statement exhibits more clearly and on more conclusive authority than any other that could be produced the high estimation in which the "Royal" is held by the Public.

The Increase of the "Royal" is more than double that of any other Company, and more than 30 per cent. of the Entire Increase of all the London Offices combined. The Increase of the "Royal" is also more than 30 per cent. of the Entire Increase of the other 29 Country Offices combined.

The Directors invite attention to a few of the Advantages the "Royal" offers to its Insurers:

1. The Guarantee of an Ample Capital, and Exemption of its Risks from Liability of Partnership.
2. Moderate Premiums.
4. Prompt Settlement of Claims.
5. Large Participation of Profits by the Assured according to the profits arising from the amount, every Five Years, to Policies then in existence.
6. Days of Grace Allowed, with the most liberal interpretation.

The Fire Department has been reduced by 20 per cent. in the past Twelve Years, and the Stef Reserve Fund has increased, which shows a marked reduction in the claims as well as a decrease in the rate of interest at the Reserve. This Reserve Fund is collected which requires several years to accomplish its object.

The Total Premiums for the past Twelve Years have reached £15,079,17s.10d.

The Royal Insurance Company published late in the last year an account of the investigations into the Assets and Liabilities of its Life Department, under a novel form, and in as plain and intelligible a manner as the abstruseness of the subject admitted, together with the entire statements and valuations connected with that purpose.

The Most General Progress of the Company will be found to equal, if not to exceed, any ever before made. It is therefore manifest that the Capital of the Royal Insurance Company would be sufficient to pay its Loss sustained by this hitherto unprecedented calamity, were it the sum the amount it proves to be.

The Rapid Progress and position of this Branch will be best shown by the following Table:

<table>

APPENDIX OF MUCH USEFUL INFORMATION.
BY
THOMAS HUTCHINSON.

PRICE. $1.50.

HAMILTON, C. W.: JOHN EASTWOOD & CO., WHITIN'S BLOCK, KING STREET.
1862.
PREFACE.

In presenting this edition of the Hamilton City Directory, the Publisher desires to tender his grateful acknowledgement for the courtesies extended to his agents in collecting the necessary information for the work, as well as for the material aid which has been afforded by the business men, and earnestly hopes that this volume will meet with their expectations and approval, and prove a reliable index to the business interests of the city.

One great obstacle met with in the compilation of the work, has been the want of numbers in the different Streets of the City. Every effort has been made to have the whole work correct and reliable even in detail. However that degree of perfection that would insure entire accuracy is not claimed by the Publisher, and he trusts that whatever inaccuracies may be found, will be overlooked, as it is impossible to have works of such a character entirely free from omissions or errors.

The Hamilton Directory is purely a work of Home Production. The canvass for the work has been made by residents of the City. The paper bought at the establishment of J. Buntin & Co. The typographical execution of the work by Donnelley & Lawson, and the binding by Haigh & Smiley; as far as the manufacture of the book is concerned, each department bespeaks the taste and ability displayed in it.

The work is also indebted to Mr. John Jacques for a very full sketch of the City, and its general business interests. The Publisher has now in preparation the Canada Directory, which will be issued early in the ensuing year.

THOMAS HUTCHINSON.

CITY OF HAMILTON.

BY JOHN JACQUES.

Hamilton, beautifully situated on the south-western curve of Burlington Bay, occupies a delightful position on a plateau of slightly elevated ground, winding around the base of the Mountain. The distance between the Mountain and the Bay is about two miles, and on the area thus included stands the City of Hamilton, in population, wealth and commercial importance, the second city in Upper Canada. The site is singularly salubrious, the rate of mortality being less in Hamilton, as shown by statistics, than any other city in Canada, Ottawa excepted. Hamilton became a point of military importance about 1813. It was made the resting place of the army of the West, when General Proctor was defeated. To Burlington Heights General Vincent retired after being driven from the Niagara frontier, previous to his brilliant victory over the American army at Stony Creek, which saved the Province from probable subjugation. The history of Hamilton dates back not much more than a quarter of a century. It seems but yesterday when the tract of country fringing the shores of Lake Ontario was a wilderness, and settlers still living can tell the day when hunters and fishermen alone broke the stillness of the now wealthy and proud District of Gore. The theory of colonization which has been nurtured into life and activity under the fostering care of liberal institutions on this side the Atlantic, has belied the anticipations and ridiculed the prophetic wisdom of statesmen moving under the auspices of time-honored usages in the Old World. Forests are converted into thriving settlements, and cities spring up into wealth and influence as if obedient to some magic impulse. A traveller from one of the sickly metropolises of Europe, in looking at the progress of social cultivation in Canada, at the evidences of civilized advancement observable in the institutions and business energy of the Canadian people, would be slow to realize the fact that he sees the country as less than fifty years of toil and industry have made it.

Let him visit Hamilton, drive up and down its spacious streets, look into the great wholesale establishments; step into the Banking houses and witness the extent of accommodation accorded to commercial enterprise; let him visit the Central School, and contrast the educational advantages of Hamilton with those of cities of the same size in Europe or the Continent, or
SKETCH OF HAMILTON.

look through the Young Ladies' Seminary, when in full operation, after mid-summer holidays; let him stand at the depot of the Great Western Railway and mark the bustle and activity at the arrival and departure of every train; see the long train of freight cars, bringing the products of foreign manufacture for consumption here, or carrying away consignments from large city wholesale firms to distant parts of the Province; let him take his stand on the brow of the magnificent Mountain which flings its grizzly summit against the southern sky, and see the multitude of persons surging along the principal avenues of trade, the countless chimneys of mechanical industry, the magnificent carriages and costly equipages rolling along James or King street; the palatial suburban mansions, the seat of wealth, comfort and literary retirement—let him survey the busy hive at his feet—restless, sleepless, tireless yet hopeful, and say whether the community of interests, the fusion of national restraints, and the commercial fellowship which have built a city of twenty thousand people, do not promise still greater results.

The temporary embarrassments under which the city now labors, has retarded but not destroyed, the enterprise of its citizens. In 1850—twelve years ago—the population, according to authenticated census returns, was less than 11,000. It was 23,000 in 1858, and in the three following years lost a third of its population. It was 19,000 at the census a year ago, and has now risen to 22,000. The rental or assessed annual value of the city was, in 1857, one million of dollars, while it is now about half that. If financial matters were arranged, Hamilton would again prosper as before, and double itself in ten years, as it did between 1848 and 1858. The years of extraordinary prosperity which immediately preceded 1857, drove Hamilton, in common with almost every town and village in Canada, into a whirlpool of speculation. While the good times lasted, money was plentiful; real estate changed hands at fabulous prices; the common laborer could make almost as much in a day as he now can in a week. At a period when everybody was making a fortune, the City Council could not refrain from entering into obligations which subsequent changes have turned into disasters. Had the same prosperity which characterized '53-4-5-6 continued, the probabilities are that the anticipations of the Hamilton City Council would have been realized. The Port Dover Railway might have been in operation, the Preston and Berlin Branch might have paid, and possibly the Galt and Guelph line might not have been a total loss to the city. But kind Fortune does not smile sweetly always, or prudence might be dispensed with in travelling the uneven journey of every-day life. Who ever heard of good luck continuing for ever? A reverse of circumstances burst like a thunder cloud on Canada in 1857, and scattered the dreams of speculators. Hamilton did not escape the consequences of civic imprudence. 

The Wholesale Trade of Hamilton is greater and more attractive of distant buyers than that of any other city in Canada, with the exception of Montreal. Some of the most extensive wholesale firms in Canada, having branches in Toronto, London and Brantford, center in Hamilton. The large house of Buchanan, Harris & Co., in stability and wealth, second to few in America, has ramifications in Canada, New York, and Glasgow. Brown, Gillespie & Co., do an extensive wholesale grocery trade in the Western section of the Province, and command a position of the very highest standing. Kerr, Brown & Co., do a very large general trade, and Messrs. Sanford, McInnes & Co., employ 400 operatives to supply them with ready-made clothing, which they sell by wholesale. The other wholesale firms which command notice, are D. McInnes & Co., dry goods; Boice & Cromwell, dry goods; McKean, Brother & Co., dry goods; R. Juson & Co., hardware; Young, Law & Co., dry goods; J. McIntyre & Co., groceries; F. W. Gates & Co., dry goods; G. J. Forster & Co., groceries; J. & J. Turner, groceries; J. Cummings & Co., crockery; Hilton Brothers, hardware; J. P. Walker & Co., hardware; Wood & Leggatt, hardware; Winer & Co., drugs; T. Bickle & Son, wholesale and retail drugs and medicines. The retail business of the city is also very extensive, but it is in manufactures that Hamilton pre-eminently excels.

The Felt Hat Factory of Messrs. Higby, Woodruff & Co., situated at the eastern limits of the city, is one of the most important manufacturing establishments in Canada. Not fewer than 150 persons, male and female, are constantly employed in the manufacture of Felt Hats; and the success which has so far attended the enterprise promises much in the future. It was only last year that the factory was put in operation, previous to which felt hats had to be imported from New York or Europe. The factory turns out from thirty-five to forty dozen hats every day, for which a home market is readily found. The firm uses 100,000 lbs of the finest wool, 500 cords of wood, 600 tons of coal, 10,000 skins, and 200 bbls of alcohol per annum. The average wages of employees $2.00 per day. The value of the work manufactured in a year amounts to about $150,000.

Messrs. R. M. Wanzer & Co's Sewing Machine Manufactory, also started last year, bids for a fair share of public patronage. About fifty mechanisms are constantly employed on the Wheeler & Wilson, and Singer, and Combination Family Shuttle Machines, a rapid sale for which is always attainable, within the limits of the Province. Mr. Wanzer has established agencies in all the principal places in Canada West, by means of which his business is rapidly increasing. The sewing machine is among the permanent institutions of the day. Messrs. Rogers Brothers, Messrs. Moran Brothers, and the Messrs. Dale, manufacture sewing machines in the city, and merit a liberal patronage. Messrs. Rogers Brothers manufacture under a Canadian patent.

Messrs. E. & C. Gurney, John street, employ about sixty-four men in carrying on the business of an extensive foundry. The firm uses 1,000 tons of pig iron and 300 tons of coal per annum. Their annual income from the business is stated by themselves at $100,000.
THE CANADIAN COAL OIL COMPANY employ sixteen men, and turn out about 120 barrels of oil per week. The machinery used in the refining process cost $22,000. A capital of $56,000 is invested in the business. The refinery, situated outside the corporation, on the line of the G. W. R., has been in operation about three years. The Canadian Oil Company manufacture illuminating and machine oil, and naphtha. All the raw oil is procured from the Enniskillen oil wells. Since a duty of ten per cent has been placed on all imported oils, it is more than probable the home article will be used exclusively.

THE HAMILTON OIL COMPANY was organized in October, 1861, with a capital of $40,000. They employ ten men, besides others indirectly. At present they turn out 100 barrels per week; in the course of two months they expect to manufacture 150 bbls per week. All the raw material is procured in Enniskillen, where the Company owns 100 acres of oil land, containing ten surface wells. Hitherto the greatest difficulty has been the want of a steady market, but arrangements have been completed to supply foreign demand. Present price of burning oil 25c per gallon.

SANFORD, McKINNIS & Co., employ, on an average, 400 or 500 persons in the manufacture of ready-made clothing.

THE BROOM FACTORY of Bruce & Magridge, consumes 100 tons of broom corn per annum, and gives constant employment to twenty men. Value of manufactures $40,000 per annum.

THE PIANO MANUFACTORY of C. L. Thomas, the Melodeon factory of T. W. White, the Vinegar Factory of B. C. Charlton, and the Steam Engine and Boiler Factory of F. G. Beckett & Co., may also be mentioned as developing the industrial resources of the city, by giving employment to a large number of intelligent and useful mechanics.

MESSRS. GURNEY, WARE & Co., are the only manufacturers of Scales in Upper Canada.

MESSRS. W. & R. CAMPBELL manufacture pottery and draining tiles. In the manufacture of soaps there is a large business done in the city. Mr. John Judd, Bay street, and Messrs. Morton & Smith, Victoria Avenue, have extensive factories. Mr. James Walker, Wellington street, also has a soap factory, doing a large business.

MESSRS. GRANT & Co., drive a large brewery. The celebrated pale ale is made in their establishment. They supply many of the hotels both in the city and throughout the country.

MR. H. BAUER has a brewery which turns out lager beer, porter and ale.

MESSRS. TURNBULL & Co., employ twenty men in their foundry, and make castings of all kinds. They do a large business in stoves, agricultural implements, &c.

MR. H. BROADBENT also enters extensively into the manufacture of iron castings, and until recently did a great part of the work for the Great Western Railway. He employs about twenty men.
no hereditary titles to grace, and few great historical incidents to revere, pays more attention to the useful than the ornamental. Hamilton, however, is equal to any city of its size in Canada in the cost and beauty of its buildings.

The Wesleyan Female College, King street, built of brick in the Italian style, five stories high, is an imposing edifice. It has a frontage of 160 feet, and is one of the most handsome buildings in the city. Formerly known as the Anglo-American Hotel, it was recently purchased from the original proprietors, in the interest of the Wesleyan Methodist body, for the sum of $28,000, and under an Act of Parliament converted into an institution for the training and educating of young ladies. It has been open since last November, and under the excellent board of management, promises to be one of the most useful seminaries of learning in the Province.

D. McInnes & Co.'s wholesale dry goods store. John street, is an immense building. It is constructed of stone imported from Ohio, and cost $130,000.

The Royal Hotel Block, James street, built of stone quarried in the mountain, presents a fine appearance. The order is Grecian, and no pains or expense was spared to finish it in a style of magnificence and taste. The cost could not be less than $100,000, probably much more. The lower flat is occupied with offices, while the principal portion of the building is used as the Royal Hotel, one of the best public houses in Canada. Dr. Taylor is the proprietor.

The Canada Life Assurance Buildings, and the hardware store of R. Jason & Co., are both magnificent structures, alike creditable to the taste and enterprise of the city.

Dundurn, York street, the residence of Sir Allan MacNab, Bart., is worthy of notice as being among the most handsome private residences in Canada.

The Central School is a substantial structure, built of cut free stone. It is capable of accommodating 1,500 pupils. The Principal, A. Macallum, Esq., is an experienced teacher, thoroughly devoted to his profession.

The Custom House, Stuart street, was built three years ago, by the Government. We have heard that it was a pleasant incident for the Prince of Wales to read "Victoria Regina" on a building so far westward. It is rather massive than handsome, an evidence more of substantiality than show. The Post Office, Bank of Upper Canada, Gore Bank, Mechanics' Institute, Bank of British North America, and Commercial Bank, are also worthy of mention. But it is near the base of the Mountain that the millionaires of Hamilton have fitted up the most handsome and costly residences.

The Crystal Palace, occupying a commanding position between King and York streets, in the western part of the city, was built in 1860 by the City Council. The building is intended for the exhibition of agricultural and manufacturing productions, and was inaugurated by His Royal Highness the Prince of Wales, at the Provincial show held that year. The structure is frame work, carved and painted, surmounted by a dome and cupola. The roof is tin, and its immense surface reflecting the rays of the sun, presents a magnificent appearance. It is at present occupied as a barracks by the Artillery companies now stationed in the city.

Hamilton has many handsome Churches. The Church of the Ascension, Upper John street, built of native stone, presents an attractive sight from the east. The chime of bells recently added to it constitute a great accession to the city. On a still evening the harmonious chime can be heard for miles around, distributing a soothing influence after the exhausting labor of a long summer's day.

Christ Church, James street, Rev. J. G. Geddes, rector, is also a handsome building.

St. Mary's Church, Park street, corner of Sheaffe, is an immense brick building, well finished. The Right Rev. John Farrell, D.D., Bishop of Hamilton; The Very Rev. E. Gordon, Vicar General; Rev. P. Bardon, Priest.

St. Andrew's Church, James street, is perhaps the most tastefully ornamented Church in the city. It was completed about three years ago, and cost $40,000. It is built of fine stone cut in the Mountain. Rev. Robert Burnet, pastor.

Knox's Church, Rev. Robert Irvine, pastor, James street, is a substantial stone building.

The McNab Street Presbyterian Church is a handsome and expensive edifice, capable of holding 1,200 persons. Rev. D. Ingis is the pastor.

The Central Presbyterian Church, at the corner of McNab street and Maiden Lane, is a massive brick building, completed four years ago. Cost, $32,000. Rev. Wm. Ominiust, D.D., is the pastor.

The Wesleyan Methodists have a number of good churches, among which may be mentioned The Third Methodist Church, at the corner of McNab and Merrick streets. It is constructed of fine cut stone. The John Street Wesleyan Methodist Church is a neat brick building, carefully laid out and pleasantly shaded. It has recently been enlarged and ornamented.

The Water Works of the city are very complete, and cost $775,306. Water is supplied by means of hydrants, distributed all over the corporation. By powerful and expensive machinery the water is forced from the lake into a large reservoir on the mountain, from which subterranean pipes convey it within easy access to every portion of the city.

The Gas Works are tolerably complete, and have realized considerable profits to the stockholders. Since the financial embarrassment of the
SKETCH OF HAMILTON.

city has compelled the Council to retrench, the streets have been lighted only during the winter months. As an illuminating medium gas will probably still continue to be a favorite, but coal oil has already proved a powerful competitor, and a contract has recently been entered into to light the city with illuminating oil.

There are three newspapers in the city—the Evening Times, and Spectator, both dailies, and the Christian Advocate, weekly.

The principal Hotels, are the Royal Hotel, by J. G. Taylor; the American Hotel, by William Richardson; the Burlington Hotel, by Henry McCracken; and the City Hotel, by Thomas Dean.

Hamilton possesses few places of amusement or pleasure. Pleasure grounds, properly speaking, are not to be found in the city. The fine Cemetery, is much frequented. The grounds are handsomely laid out into walks, and there are some costly monuments to perpetuate the memory of the dead. Oaklands, across the bay, is a place of much resort by pleasure seekers. The Burlington Beach Gardens, kept by John Martin, are also much frequented by picnic parties. A steamer calls there twice a day. The Mountain affords the finest scenery, from the top of which the eye can reach every part of the city, picturesquely bounded by the blue waters of Burlington beyond. Prince’s Square, in the course of a few years, will be an attractive promenade ground, with its shaded walks and beautiful fountain, throwing its crystal jets high into the air. The two fountains on King Street add much to the ornament of the city. But though much can be said in praise of the natural and artificial beauties of Hamilton, it is not any more accident of locality or any excellence of cultivated taste that has built the fine city which, notwithstanding civic imprudence, ranks as one of the first in Canada. Though the Mountain looks down on palaces of marble, and on a bay of picturesque beauty and unsurpassed loneliness, yet it was the enterprise and indomitable energy of its people that built the noble superstructure which wins the admiration of visitors and travellers. The future, we trust, will be as prosperous as the past. The citizens wield their own commercial destiny. It is for them to say (by a straightforward, honest settlement with the City’s creditors, and the exercise of caution for the future) what degree of prosperity shall mark the future history of the city. Having conquered difficulties and risen above temporary trouble, they will be able to say, that if their career has not drifted by in one uninterrupted gleam of golden sunshine, at least experience has been purchased, and the foundation laid for a glorious manhood of prosperity and happiness.
