NOTICE EXTRAORDINARY!

WHilst some of my competitors, in order to build a reputation, have been blowing lustily through the newspaper, asserting that in order to sell a saddle or a set of harness, it was necessary to plaster a column of newspaper with palms, correspondeing to beauty, cheapness, and other superior qualifications, I have quietly procured the real honor of my way without making such false pretense of a reputation based upon more substantial footing than the use of printer's ink and flaring caplites in newspaper advertisements.

My business has been very prosperous for the last season, I cannot without such puffing, I shall not resort to the too common practice by saying that I sell less than other establishments; believing that the good sense and judgment of my patrons will test soda the matter.

I superintend my work; can buy as cheap as any can sell for good, sound, substantial work, I make no exception. For many years I have been First Pursuit (Provincial) Stables; and am a correct proof of the character of my establishment; I have sold of the different work of the different breeds during the time Hamilton was a Military Station. The high brigade is remembered as to the first regiment, styled as the "Prince of France," I have at hand, a complete stock of every article in the trade, including every style of

The "Ontario Farmer."

SECOND YEAR OF PUBLICATION.

This ably conducted, popular and invaluable Rural Journal, has been issued since January 1st, 1870, from the City of Hamilton, Ont.,

Messrs. T. & R. White,

Having purchased a proprietary interest in it, and become its publishers, in the belief that this Region of Country, second to no part of Canada in agricultural and horticultural resources and progress, NEEDS AND WILL ABLY SUSTAIN, a periodical specially devoted to the interests of

THE FARM AND GARDEN.

The "Ontario Farmer"

Will continue to be Edited by

REV. W. F. CLARKE,

Who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from its long connection with the rural press, has become "familiar as a household word" among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards, and other eminent contributors, have written for the ONTARIO FARMER, and no pains will be spared to secure the continued cooperation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

(See next page.)

---

During the coming year engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the ONTARIO FARMER. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seedsmen, nurserymen, dairymen, and others, is invited to the ONTARIO FARMER, as a first-class advertising medium. Terms,—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of Postage, $1.00 a year, payable in advance.

384 Large Octavo Pages for One Dollar.

The highest market price paid for country produce,
Double the heat from the same quantity of fuel.

The following Certificates, from parties who have the Drums in use, will serve to explain their working, and the results achieved:

Great Western Railway,
Chief Engineer's Office.
Hamilton, May 2, 1867.
Messrs. S. North & Co.,
Gentlemen,—After an experience of upwards of two years I can confidently bear testimony to the efficiency of your Patent Heater as attached to the ordinary stoves of the country; I have had it largely introduced in the stations and offices of this Railway and intend to apply still farther during the ensuing fall. The effect of your Heater is to increase very materially the heating power of any stove and to diminish the consumption of fuel at least one-half.

Yours truly,
Geo. Lowe Reid,
Chief Engineer.

Hamilton, May 18, 1867.

For three months past I have used one of Mr. North’s Patent Drum Heaters. The heat it saves effects a great saving of fuel, while the uniformity with which every part of a room is heated is another recommendation in its favor. To have by its means, a room sufficiently heated it is unnecessary to heat the stove to red heat, thereby injuring the air near the stove, while the remote parts of the room have to be heated by radiation, for it creates a current whereby all the air in the room is raised to the degree required—uniform heat in all parts of the room, comfort and enjoyment are the results—no additional expense. I recommend the “Heater” to those to whom a smaller bill for fuel is an object of any consideration.

Arch. Macallum, M. A.,
Prin. Central School,
Hamilton.

Hamilton, March 7, 1867.

I have used the North Heater in my house for some time past and find it saves nearly, if not altogether, one-half the fuel, besides increasing the heat very materially.

Joseph Lister.

NORTHE'S PATENT
ECONOMICAL DRUM HEATER,

Can be seen at the Northern, Grand Trunk and Great Western Railway Stations and in thousands of public and private buildings throughout the Dominion.

Many certificates could be given if necessary. All those who have the Drums in use, or have seen them working, feel perfectly satisfied and are loud in their praise.

They are peculiarly adapted for Churches, Schools. Halls &c. Their effects are quickly felt in a more striking manner in large rooms that have been found difficult to heat without a very large amount of fuel. They can be used on every description of room, cooking as well as others, and the sizes are adapted to rooms in which they may be required.

Rights to manufacture the Heater for Counties or Townships will be sold on reasonable terms, for which apply to SAMUEL NORTH, or W. B. ADAMS,
Address: Box 540, Hamilton, Ontario, or apply at No. 60 McNab Street North.
Agents wanted in every Town, City and Village in the Dominion where agencies are not already established.

Parties infringing on or imitating the above patent will be prosecuted according to law.

SAMUEL NORTH,
60, McNab St., bet. Vine and Merrick,
HAMILTON, ONT.

ROOFING!

The Subscriber having every facility is prepared to fulfill all orders with promptness and dispatch. All new work warranted water tight for one year.

Old Tin Roofs, Galvanized Iron Roofs or other metal roofs of any pitch can be repaired much more durably and cheaply with Plastic Slate than with any other material extant.

The Most Heat for the least Money.

No. 60, McNAB STREET,
SAMUEL NORTH,

BIRCH’S PATENT
IMPROVED LOCK SEAM TROUGH,
PATENTED MAY 1, 1865.

Warranted not to leak, or break down with the weight of snow, and equal in price to ordinary Eave Troughs of same quality of material. This Trough can be manufactured of any size and from one to six feet without a seam. The seam being locked and soldered it possesses double the advantage of the ordinary trough in resisting frost, &c.

SAMUEL NORTH,
Solo Manufacturer for Hamilton and County of Wentworth.
NORTH'S Patent Hot Air Furnace.

Diploma and Prize Awarded at Provincial Exhibition held at Hamilton, Sept. 22nd, 1868.

FURNACE NO. 4.

The heating surface inside of furnace is 62,820 square inches. The heat travels 1,677 inches before leaving the surface. It is the best in use as proved by certificates from parties in all parts of the Dominion. For simplicity of construction, efficiency in heating and economy in fuel it cannot be surpassed. It is no new thing but has been before the public for some years, and undergone some very severe tests, but has always been triumphant. It can be applied with equal advantage to Hop Kilns and Drying houses. Parties can refer to the following gentlemen in Hamilton and vicinity. Many other names could be given.
