BRIGHTEST AND BEST

The London Daily News

Leads all the London Papers in Enterprise, Popularity, Circulation and Influence. It never issues less than Eight and frequently Twelve Pages Daily.

ITS FEATURES:

Telegraphic. It has a double telegraphic service, and gives the fullest and latest news of the entire world.

Political and Parliamentary. In this department of the news THE LONDON NEWS gives the facts fully and freely, without party coloring.

Editorially. THE NEWS is independent, bright and fearless, biased by neither man nor party. It is quoted more by the Canadian press than both of the other London papers combined.

The Market and Stocks are corrected daily and are given in full. They are made a special feature.

Local and Home News is the specialty of this paper. In addition to full London news an entire page is devoted to "Neighborhood Notes," containing the happenings from all over this section of Ontario.

Sporting. THE NEWS is the recognized sporting authority of Western Ontario. Its reports are racy, correct and complete.

Stories. A continued story, from the best fiction of the day, forms a constant feature.

Special features are being added of great interest to the reading public.

Illustrations form an important part of modern newspapers, and the NEWS hopes to present each day at least one illustration of a great event or a portrait of a prominent man.

It offers this entire array of interesting and useful material every day for one year for \$3.00, or 25c. a month. It is the biggest value on the market. Address:

The number of names of individuals (exclusive of firms, references, etc.) in the alphabetical list of names in the London portion of this book is 16,911. It is usual for directory publishers to estimate the population by multiplying the number of names in the directory by 3. This method of computation gives for London a population of over 50,000. We think, where the names are taken by well-trained canvassers, that this is too high a multiple, and that the multiple of $2\frac{1}{2}$ would give a more accurate estimate of the population — thus: $16,911 \times 2\frac{1}{2} = 42,277$.

DIRECTIONS FOR GIVING FIRE ALARM.

Break the glass which covers the key. Unlock and open outside door. Then listen, and if you do not hear the little gong inside striking, pull down the hook as far as it will go once only and let it go back to its place. If you do hear the gong striking, wait until it is done. Then shut the outside door tight and unlock and open it again and pull the hook down, as above directed. Always shut the outside door tight before you leave the box, and, if possible, wait until the firemen arrive, and direct them to the fire if it is not visible. After pulling down the hook, if you do not hear the little gong striking or the box working, shut the door and go to the nearest telephone and call the fire department.

Be careful to protect your hands from the broken glass while unlocking the door.

Don't open a box unless to give an alarm for a fire. Don't give an alarm for a fire outside the city, or for a chimney fire, or for a fire a long distance away, unless you are on a line with it and the fire stations. Don't try to take the key out of the lock, as it is locked in. Two strokes on the gong, or City Hall bell (after an alarm is given), is a signal that the fire is out.

Parties erecting or moving houses, cutting down or trimming trees, or doing work of any kind on the streets, must not interfere with the fire alarm boxes, wires or poles. By leaving notice at the nearest fire hall, any alterations necessary will be promptly attended to.

Citizens will confer a favor by immediately reporting to the nearest fire hall any damage to the boxes or the fire alarm wires or poles.

How to count the number of the box from the bell.—Suppose box 34 is pulled: you do not get 34 consecutive strokes on the bell or gongs; but first you will get three distinct blows, which represent the tens, or 30; then a pause of four seconds, after which four blows will be struck, representing the units, or four, thus:—1 1 1—1 1 1—34. Box 314 would be struck the same way, thus:—1 1 1—1—1 1 1—314.

Single numbers up to nine are struck consecutively without a break until the whole number is given. The number of the box will be repeated four times with an interval between. After the first alarm, two double blows, thus:—1 1—1 1 followed by the number of the same box on the bell will denote a second alarm for the same fire to which all the apparatus will respond.

London Street Directory.

The occupation is given in the Street Directory only at the place of business: This is done, 1st, to distinguish a residence from a place of business; and 2nd, because the occupation can be given much more fully in the alphabetical than in the Street Directory, the latter being merely a plan of the streets showing the relative positions of the buildings.
 S. E. for side entrance is used in the Street Directory to show that the building in question faces the cross street.
