Be to call the attention of the trade that to the combined efforts of expert departmental buyers, going to Britain twice a year, and a resident staff there, they are enabled, by watching the home markets thoroughly, to contract and purchase lines of goods not obtainable elsewhere.

They can confidently assert that no house in the Dominion has elaborated and systematized their business to such an extent. The effects and consequences are that year by year their trade constantly and uniformly increases.

The stock is always large and varied and continually supplemented by new purchases of the latest novelties and value.

LONDON, ONT.

1888.

PRINTED BY THE ADVERTISER PRINTING AND PUBLISHING CO., LONDON.

INTRODUCTION.

In placing before their patrons the present issue of the "London City Directory," the publishers wish to state that every effort has been made to have the work as reliable as it is possible to have a publication of this kind.

So as to facilitate the finding of a name the plan of dittoing, and not repeating, as heretofore, has been adopted.

The color of the cover has also been changed, so that at a glance the present book can be distinguished from that of 1887.

The following is the number of names contained in the Directory, as compared with the last four issues :

1883.....	8,041
1884.....	10,561
1886.....	11,965
1887.....	13,774
1889.....	13,905

The following will show the number of names in the Directory in London South and London West, as compared with last issue :

London South, 1887.....	979
" " 1889.....	1,123
London West, 1887.....	585
" " 1889.....	617

These figures show an increase all round, which should be very gratifying to the citizens.

The publishers regret that the patronage this year has not been equal to that of the previous issues, and trust that the present Directory will be found so complete as to insure a large increase of patronage to the work next time.

INSTRUCTIONS TO KEY-HOLDERS AND OTHERS.

Upon ascertaining that there is a fire in the vicinity of your box, unlock the outside door and pull it wide open. Then listen, and if you do not hear the little gong inside striking, proceed at once to give an alarm as directed elsewhere. If you do hear the gong strike count the strokes, and if it is the number of a box near the fire you need not send in another alarm. But if the number struck is from a box located in another direction, then wait until it has done striking or working (about 30 seconds), before you attempt to give an alarm.

If, after pulling your box as directed, you do not hear the little gong inside strike or the box working, lock the door and go to the next nearest box to the fire and repeat the operation.

Do not attempt to remove the key from lock, as you cannot do so without breaking the lock or key. Some member of the Fire Department will release and return it to you.

Never give an alarm except from a box nearest the fire, unless you have first ascertained that the box nearest to the fire will not work or has not been pulled.

Never open a box except to give an alarm. Do not pull a box for a chimney fire, or for a fire outside the city limits.

Always wait (if possible) till the Firemen arrive to direct them to the fire, if it is not visible.

Keep your key in a convenient and secure place, where you can get it quickly when needed, and where it will be out of the reach of children or strangers.

If you are going to remove from the house

you occupy, please return your key to the Fire Station or to the Electrician of the Department.

Always close the door of the box before you leave it.

NOTICE TO THE PUBLIC.

Any responsible person living in the vicinity of the boxes will have keys or can obtain them by applying to the Chief of the Fire Department or Electrician.

Any person having a telephone can use it for the purpose of giving an alarm of fire.

Two blows on the City Hall Bell (after an alarm is given), will be a signal that the fire is out.

Parties erecting houses or scaffolding, or moving houses, must on no account interfere with our wires, poles or boxes. By leaving notice at the Fire Station any alterations necessary will be promptly attended to.

Citizens will confer a favor by immediately reporting at the Fire Station any break or damage to the line or boxes, or any malicious or accidental interference with the same.

DIRECTIONS FOR COUNTING THE SIGNAL ON THE BELL WHEN A BOX IS PULLED.

Suppose Box 34 is pulled, you do not get 34 blows on the gongs or bell, but first you get three distinct blows, which will represent the tens, or 30; then a pause of five seconds, when four blows will

be given, representing the units, or four thus: 111 — 1111 — 34

Single numbers up to nine are struck consecutively or continuously, without any break, until the whole number is given. The number of the box pulled will be repeated four or five times, with an interval between.
