## FUTURE COMFORT

As well as present relief are the happy results of attention to eye troubles before the vision is permanently injured. Pain or blurring are nature's warnings that the eyes need attention, and prompt treatment frequently arrests the trouble and prevents development of more complicated and less curable ailments. Cataract, Glaucoma, Etc. are usually resultant upon neglected nearsightedness, Astigmatism, or other refractive errors.

### NEAR-SIGHTED CHILDREN

Whose eyes have proper attention at the onset will have better eye-sight all through life than would be possible if the nearsightedness had been allowed to increase.
