No. 1 shows above Cut. Patented Dec. 19, 1884
and Patent for Improvement, 1886.

No. 1 Scarifier is a two-section, with solid steel teeth and zig zag bars set edgeways, which make the frame very strong, and the teeth go through malleable sockets full size, so that they are not weakened by shouldering as other makes are, and the teeth can be raised or lowered by means of a bolt to suit the soil on which it is used. CHEAPEST.

BEST

MOST DURABLE.

Our Lamp is all we claim for it, being positively non-explosive, the oil being kept continually cool, consuming only half a pint of ordinary Coal Oil during six hours burning; using only an inch wick, and producing a fine clear 50 Candle Power Light. No chimneys are required, but ordinary globes or shades may be adjusted to it. No smoke or offensive odor. Water can be heated in a few minutes; Tea or Coffee made, and Oysters Cooked, &c., without obstructing the Light. Reflectors of superior quality, and of entirely new designs, for both out-door and in-door use are furnished at low figures.

FREED'S VEGETABLE LIQUID BOILER CLEANING COMPOUND

will remove scale from boiler without any injury to the iron, and will prevent the formation of any new scale. Will be found by using it that it will save fuel and prevent foaming, and by keeping boiler clean will lessen the danger of explosions. Steam threshers and others using portable engines will find this compound of the greatest practical and economical value.
