PREFACE.

The Publishers in placing before the public their seventh edition of the Halifax City Directory, can state as usual that neither pains nor expense has been spared to make it, reliable, as much so as it is possible to make such a work.—

There are no doubt errors that have crept in as in every year which it is not possible to avoid, the principal publisher being called away several times and not having any person he could rely on to fill his place there are some few discrepencies which the publishers hope the public will look over as they have done in the past. The Street Directory will be found as correct as it could be made some streets yet require numbering.

The Historical Sketch this year will be what it was intended to be last year, a sketch of the names of the streets from whence they derived their names, although not complete the publishers would recommend the public to peruse it and if not correct or any further information they (the public) could give either for streets named or those not named, would be thankfully received by the publishers for the Directory of 1877–78. To the supporters of this work we return our sincere thanks, especially so as it has been a trying season of depression.

In conclusion the publishers would state that the circulation has fallen off this year most especially from the support of advertisements which is required to make this work pay its running expenses like all similar works or newspapers, they require a large amount of advertisements to keep them alive which the sale of the paper or books alone would not do. As the publishers of this work are the only parties who have published Directories in the Maritime Provinces for the last twelve years and sometimes at a loss, and as they intend to continue publishing even at a loss, they hope the public will consider their position and support the work more largely for the ensuing years.

HISTORICAL SKETCH
OF
HALIFAX CITY.

HALIFAX IN 1876.

It has been deemed advisable instead of presenting the Historical Sketch of the city as on former editions, the improvements of the past year should be specially enumerated, as Historical Sketches of the city are now so common an Annual Register of passing events would be deemed more acceptable to the numerous patrons of the Directory.

1ST. ITS PUBLIC BUILDINGS—ERECTED IN 1875-6.

The Halifax Dispensary erected in 1876. This building is situate on the corner of South Brunswick and Prince Streets. It cost with equipments nearly $13,000. It is a handsome brick structure, with granite facings. Its basement is devoted to the purpose of a Morgue, with an entrance on Prince Street. The ground floor for the purpose of dispensing medicine, reception room and places for consulting with the medical men. Then the second flat has been fitted up wholly for the Eye and Ear Department. The whole accommodation may be used for patent boarders, who are not proper subjects for the Hospital.

The early history and inception of this branch of benevolent enterprise is due to the late Dr. Morris, who for many years dispensed medicine and attended on the poor gratuitously, first in the old building on Barrington Street, nearly opposite Fraser & Sons piano-forte warehouse. The Dispensary was afterwards removed to Argyle St., and thence to Duke Street, where it was on the death of Dr. Morris, physician, in 1867. In 1867 it was reorganized under more favourable circumstances by the co-operation of the Medical Faculty generally, and far superior premises engaged for it, which in a few years were also found too small, when it was deemed advisable to remove to Albermarle Street, under more favourable circumstances, yet the place was found too small and inconvenient. Some years ago a movement was inaugurated for a building to be erected for the purpose, with all the conveniences necessary for such
an institution. The Churches of the city agreed to give an Hospitable Sunday collection, which was duly attended on the last Sabbath of July, 1875. Two thousand seven hundred and seventy-six dollars and four cents was realized, and another repetition of the same on another Sabbath this year will place the building in an independent position out of debt except the mortgage. The interest on which it is expected will be met by the City Council or County as rent for Morgue. While we remember with gratitude the late Dr. Morris, who introduced the institution to the citizens of Halifax, we must congratulate the venerable Canon Cochran, whose work for the past twenty years has been crowned with such signal success. The ordinary current expenses of the institution are now depayed by subscriptions of not less than Four Dollars, which gives the subscriber a right to vote or speak at annual or other meetings of the members of the institution.

From the report of the year ending 30th November, 1875, we have the following:

The number of patients who have been treated by the Dispensary physicians during the year, 2281. The number of applications or visits made by the patients to the Dispensary, 7937. 1362 have been treated at the Dispensary by the attending physician, 819 have been seen at their houses by the visiting physician. The number of dental cases for the year is 569.

The Masonic Hall.—The next public building of importance erected during the last year was the Masonic Hall on Granville street,—this is also a fine brick building with cupola. Covering the whole of the lot, part of which was occupied by the back or eastern wing of the old Mason Hall which still stands on Barrington street, and is the centre around which so many recollections of Halifax in its past political and social history.

We are not here called upon to repeat any of the early history of the Masonic body, the order claims an antiquity contemporaneously with Solomon. The old building on Granville street had its foundation stone laid by H. R. H. the Duke of Kent, about the year 1812, and from that time till about the year 1842 was only place for public meetings of the citizens, and there the great projects of the day were discussed by the citizens, statesmen and philanthropists. Howe and Johnston discussed "Responsible Government." George R. Young, the Halifax and Quebec Railway, or National Education, S. Cunard on Atlantic Steam Navigation, as well as inferior proposals such as for a Bridge of Boats to Dartmouth,—with all the modifications and degrees of temperance and benevolent lectures.

Subsequently the Political Meetings were removed to the Harmonic Hall, now Moir & Co.'s stables, on Albermarle street. After which the Temperance Hall Company was organized about the year 1849, which continued to hold the citizens for every public discussion of consequence till the present day.
The new Masonic Hall is a building held by the Masonic body themselves for their own particular meetings, and it certainly reflects great credit upon its projectors and those who have brought it to such a successful termination.

The Music Hall.—About the close of the last year, a joint-stock company was organized for the purpose of erecting a new Hall capable of accommodating two or three thousand persons. The Directors selected the property at the entrance of Spring Garden Road, opposite the Glebe House, the workmen are now actively engaged in excavating the foundation, the contractors expect to have it fit for occupation by 1877. It will add another to the many fine buildings which are clustered near that neighbourhood.

The Intercolonial Railway Depot, now under construction on the jib formed by North Lockman and Water streets is another edifice deserving notice. For a great number of years the owners of property north of West's wharf on Water and Lockman streets have been kept in continued suspense, afraid to do anything to repair their buildings because of the constant railway surveys which, it was asserted would terminate in enriching them by taking their property at their own price for the Railway Terminus.

At last it was finally agreed to locate the establishment on the jib, so called, to the disappointment of a great many. One large Freight Shed of brick with granite facing, eight hundred feet long, has already been erected, and the erection of two other buildings of the same dimensions is being rapidly proceeded with. The contract for the erection of the two now being built is something over eighty thousand dollars while the cuttings through rock and grading the line from the old Railway Depot at Richmond must be an equal if not a greater sum. Consequent upon this Depot and the recent opening of the Intercolonial Railway to River De Loup and thence to Quebec,—speculation is now high in the expectation of making Halifax a grain port connecting with Chicago on the West and Liverpool on the East, and we trust that another years Directory will be in a position to chronicle rapid progress, from the increased facilities in transportation, storage and a seaboard open to the Atlantic at all seasons of the year, which few harbours can present.

No other public nor few private buildings of any consequence have been erected during the past year, or are now in the course of construction.

The Commercial and Financial Position of the city is pretty much what it was in the last year's report, and hence we repeat the last year's city liabilities, which have not been much altered since 1872, the year when the last official statement was prepared. Though some special Legislation was obtained to raise funds for the following among other purposes:

City fire alarm, 1873, $8000, which was loaned on debentures at 6 per cent., and a similar sum for the extension of Queen Street, in 1874, and for the purchase of the leasehold rights of Horticultural Gardens in
1875, about $18,000, by which eight acres of valuable land has been added to the city property, and several other smaller sums as the City Library, for which the Halifax Library was purchased, 1876. The following is the official statement of 1873:

1. City which includes old Street Loan, City prison, Hospital Buildings, Market Slip, Sidewalks, Lockman street, &c., &c., Debentures, 5 per cent. $365,000.00
   Principal $365,000.00
   Interest $21,043.43
2. Water Works do, bearing 5 per cent. 669,653.33
   Interest 39,759.96
3. School do (all bearing interest at 6 p. c.) 116,995.00
   Interest 7,019.70

The city assessment for 1873 was $191,274.47.

The new portions of the Horticultural Gardens are now open to the public, and is a great boon to the public. The city free library is also augmented by the addition of five thousand volumes, making it the largest library in the city.

Investments for Capital.—The high expectations once entertained by many relative to the advantages that would accrue from to this community from an abolition of the usuary laws, have turned out to be a fallacy. Loans have been, for a long period, negotiated at five and six per cent., and the sudden raising to seven compelled the raising of rents to meet difference—rents were higher in Halifax than in any other city on this continent, and consequent derangement was the result which culminated in too many instances in foreclosure of mortgage and Sheriff’s sale. Seven per cent is the interest yet demanded on mortgage security on all new loans, but reasonable investors did not raise the amount on old mortgages; many remain yet at six.

The Bank rate of interest allowed on special deposit is five per cent. Discounts are from ten to seven per cent. according, or even less according to the kind of paper presented. Money is becoming plentiful at the Banks, and intimations are given to large depositors that the rate five per cent. will be lessened.

Stocks.—Provincial and City Debentures still find a ready sale at a considerable premium, which is increased according to the nearness to the time of drawing the interest, sometimes as high as seven per cent.

Bank Stocks.—All the Halifax Banking Companies stocks sell at a premium, and are always looked upon as safe investments. But at the prices they usually sell they do not realize six per cent: to the purchaser.

The Stock Exchange Board have not published an annual special report of the transactions during the past year. The times have been such that comparatively few transactions have taken place. The Stock Exchange and Farquhar, Forrest & Co. publish tri-weekly the state of the markets, and from that investors or sellers may, on any day, know the state of the market, and nearly approximate to the value of their stocks.
OTHER STOCKS.—With the exception of the Halifax Gas Company other stocks in the City of Halifax are never looked upon with favor, much beyond par. Some local insurance, such as the Acadian, is also an exception, as it has been particularly fortunate. But keeping in remembrance the Halifax fires of Granville and Hollis Street, cautious investors are generally shy of them.

We publish a copy of one of the official reports, published in the month of July after the interest on the debentures had been drawn, and the dividend had been declared, and is, therefore, a fair statement of what they may now be purchased for, but far below the average of sales during the past six months from the time of this writing, 1st August, 1876:—

HALIFAX STREETS.

In compiling the following list of Streets with the only available information respecting the origin of their names the publisher would claim the indulgence of patrons as the field is a new one, and the reliable information is at present only limited, much of it being dependant on tradition.

The first division of the city was made by Col. Morris, the then Surveyor General, into blocks and named after the captains of the Malitia as Forman’s Division, Galland’s Division and so on.

Then the streets were laid off and named from some circumstance connected with its situation or name of some distinguished individual connected with the early settlement such as Water Street, being along the line of water. Hollis Street supposed to be an imitation of a street of that name in Boston. Cornwallis street after the first Governor and founder of the settlement.

It will be our object in future editions to endeavour to correct the list and render them as complete and correct as possible, and therefore corrections and additional information is respectfully solicited.

AGRICOLA STREET—This street is presumed to be named in honor of John Young, father of the Sir William Young, who published a series of letters on Agriculture in the Acadian Recorder, during the years 1822—3—4, over the signature “Agricola.”

ALBERT STREET—In compliments to H. R. H. the late Prince Concert.

ALMON STREET—Presumed to be in honor of Hon M B Almon or some other members of the Almon family.

ARTZ LANE—The Artz Family owning property in the vicinity.

BAUER STREET—The Bauer Family owning the field through which the street runs, they also owned Bauer’s wharf.

BARRINGTON STREET—General Barrington succeeded Governor Hopson in the command of the expedition to take Guadaloupe, W. I., 1759.

CORNWALLIS—Edward Cornwallis, Captain General Governor in Chief and Vice Admiral in the Kings Province of Nova Scotia, Commander of the expedition for founding Halifax.

CREIGHTON—This street ran through Creighton’s field about 1848.

CUNARD—There seems to be some connection with the name of this street and the Cunard Family, but then it was a street and so named before Samuel Cunard contracted to carry the mails by a line of steamers across the Atlantic in 1840. It was originally named the Road to the N. W. Arm.

FALKLAND—Lord Falkland was Lt. Governor of the Province in 1840 to 46.

GAS LANE—Lane leading to the Gas House.

GEORGE STREET—Probably after King George the Sovereign.

GERRISH—Joseph Gerrish was Naval Storekeeper at Halifax, and was appointed Counsellor in 1759. His brother Benjamin was agent of Indian affairs in 1760. The Gerrishes were probably from New England, their names are often met with there. Murdock’s Hist. N. S. 200.

GRANVILLE—T. Granville one of the Lords of Trade, in the time of the Settlement of Halifax.

GREEN STREET—This is a modern street though its name may have some reference to Hon. Benjamin Green, who accompanied General Repperel to the capture of Louisburg and remained there as Government Secretary, removed to Halifax where he was appointed a member of H. M. Council, and administered the Government on the death of Governor Wilmot.

HOLLIS—There was a Hollis Street in the City of Boston then, and it is probable that the name may have been adopted from that circumstance.

INGLIS STREET—Probably in compliments to Bishop Inglis.

JACOB STREET—The original founder of the Jacob’s Family was a German who owned considerable property in the North suburbs of the city. Jacob street was then beyond the Northern Boundary of the town.

KAYE—The field through which this street runs was owned by Joseph Kaye, Esq., who opened the street and laid it off in building lots about ten years ago.

KLIME STREET—In the vicinity of the Kline Lots so called then, owned by the Kline family.

LEMARCHAND—Sir Gaspard LeMarchand was Governor when this street was opened.

Moran—This street was opened by J. P. Moran who purchased part of the Bauer's field, and opened the adjoining property by Sarah street in to Bauers.

Morris—There were three generations of Morrises connected with the public land departments of Halifax or Nova Scotia, and it is presumed that to some of them was given the name of this street, but at what time we are scarcely able to say as the street is comparatively modern.

Quinpool Road—A person of the name of Quinn had property here which was a swamp, hence the derivation.

Salter Street—In honor of Malcon Salter, Esq., M. P., for Lunenburgh in the first General Assembly, a native of New England; the old house at the corner Hollis and Salter streets was built by him.
