PREFACE.

The publishers of the London City and Middlesex County Directory in placing before the public their first edition of the work feel certain that it will meet with general approval.

Everything that labor or expense could do has been unsparingly used in endeavouring to make it as correct, reliable and useful as possible.

Owing to the attempt to number the City, which proved such a miserable failure, much extra expense and some delay was incurred; but it will be found that in every case the new numbers are correctly given.

The London City portion of the work contains an Alphabetical, a Business and a Street Directory, the latter being a new thing in London, which will be found a valuable addition, as by it the exact position on a street of any house can be easily ascertained so that it may be reached by the most direct route, and as easily by night as in the day.

The directories of towns and townships will be found we think more fully and more correctly given than they have ever been before and the addition of the P O addresses in the townships we look upon as very valuable information not only to the general public but also as greatly benefiting the residents themselves.

The Appendix contains a large amount of interesting and useful information, much of it being such as business people and others need to refer to almost daily. A careful perusal of it is recommended so that then such information is needed it can be reached immediately.

To the above has been added a map of London which has been prepared at considerable expense and from the most reliable sources.

In the advertising pages will be found the cards of the principal business men, manufacturers &c., of the City and County as well as some of the most prominent in other cities and Villages. The readers attention is directed to the *Index to Advertisers*, and to the *Advertisers Business Directory*.

The publishers hereby tender their sincere thanks to their patrons for their liberal support, also to Clerks of Townships, to John Lovell, Esq., for miscellaneous matter, and others who have assisted them with information.

### DON'T READ THIS.

READERS A BARGAIN FOR YOU.

"The Illustrated Weekly," published in New York by T. E. Moore, at \$2.50 a year, is a large, new, family and literary paper—pure, instructive and amusing; half of its pages full of beautiful pictures every week, and the other half containing the choicest reading matter—moral but unsectarian. A large Engraving—17 x 24—accompanies the paper every week as a supplement. These are exquisite fac-similes of the finest steel engravings, copied by the new process of the Graphic Co.; are on heavy tinted paper, with margin suitable for framing, and are really a fine art gallery every year. Besides, every subscriber is presented with the chromo, "Gold Fish, Fruit and Flowers," [24 x 30] in 27 oil colors, painted by Ramsay. Not only the largest and finest premium ever given, but the most wonderfully beautiful Chromo ever produced. The combination is unequalled. It sells itself.

## HISTORICAL SKETCH.

London, a city of Ontario, capital of the county of Middlesex, on the River Thames, 121 miles W. of Toronto, 107 miles E.N.E. of Windsor. It has a fine appearance, the streets are lit with gas and are wide and run at right angles to each other. Upon them are many excellent buildings.

It is the centre of the finest agricultural region of Canada, and a sort of diverging centre of three railways, being the junction of a branch of the Great Western to Sarnia from the main line, the northern terminus of the London and Port Stanley railway, and having a branch of the Grand Trunk from St Marys, connecting it with that line.

London contains 6 branch banks, 2 telegraph agencies, a number of fine hotels, a host of stores, 4 printing offices issuing 3 daily and several weekly newspapers, an exhibition building, a lunatic asylum, orphan asylum, hospital, 9 schools, a convent, 4 colleges (including Huron College, Hellmuth College and Hellmuth Ladies College, three good educational establishments,) and 19 churches (including Church of England and Roman Catholic Cathedrals.) St. Paul's church (church of England) is one of the few in Canada possessing a peal of bells.

The manufactories of London are represented by extensive iron foundries and machine shops, mills, breweries, chemical works, petroleum refineries, tanneries, boot and shoe, soap and candle, musical instrument, cabinet, carriage, and other factories, &c.

The commercial affairs of the city are regulated by a Board of Trade. The city returns 1 member to the House of Commons and 1 to the Provincial Legislature. During the summer months large numbers of invalids and health seekers visit London to enjoy the benefit of its white sulphur springs (famed for their medicinal qualities). London is a port of entry. Total value of imports for 1872 \$1,740,850; exports \$1,470,263. Pop. in 1852 6,034; 1861 11,555; 1871, 15,826.
