## PREFACE.

In presenting to the public their first edition of the Ottawa and Kingston City Directory, including the principal Towns of Central Canada, the publishers hope that their patrons will find it as near being correct as any former work of the same description. Neither care or expense have been withheld to achieve this; and should a slight error be now and then noticed, the publishers trust to the usual kind liberality of their patrons.

In taking the names for this book, great trouble was experienced by the different occupants of houses not wishing to impart that information which was absolutely necessary. More especially by the French residents of the Lower Town, Ottawa. They seemed to be impressed with the idea that we were emissaries of the Government, sent around for the purpose of obtaining a knowledge of the number of able-bodied men suitable for enrolment; and indeed were willing to take their oath that the names were required for that purpose,—the married women more especially. They would frequently, while our agents were taking the names on one side of a street, lock the door of their respective dwellings on the opposite side, and when they started to commence on that side, in many instances the doors were barred against them, and they have had frequently to trust to the information received from the next neighbor, or perhaps make a second and sudden call on them later when their doors were open. Also another difficulty we met was to get men for taking names in the locality where there was known cases of that loathsome disease the small pox, one of our agents was attacked with it which made the others fearful. With drawbacks of this nature (and there are many others which the publishers have had to surmount) it would not be surprising if an error would become visible occasionally.

It is now ten years since the publishers started in the Directory line, having during that time successively brought out the St. John, N.B., Halifax, N.S., Directories, the Maritime Provinces Directory, and lately the Dominion Classified Business Directory; and with this experience to back them, they can with every confidence continue to present to the public books so much wanted in every large city and town in the Dominion. In Kingston there was not so much trouble experienced, but the City was very badly numbered, and it will no doubt be

found that the numbering by us is as correct as it could possibly be under the circumstances. In referring to the numbering of Ottawa and Kingston cities, the publishers would call the attention of the citizens of both cities to the fact they are losing time and money by not having it done immediately; besides the publishers could supply both cities with a much more satisfactory street directory, although it will be found of value as it now is if the public will take the pains of referring to the names between intersections.

It might be said that we are late in bringing out the work. The senior member of the firm in this case would ask the leniency of the patrons of this work, for one very particular reason, namely:—that in the midst of obtaining information, his eldest son was brought home sick and eventually died, and sorrow compelled him to forego any further proceedings for a time, consequently the cause of the report circulated by mischievous persons that the work was not going to be published. The publishers would likewise say that it is their intention publishing again the Directories of Ottawa and Kingston before the close of the year 1875, and would ask a continuance of their kind support if this present one gives them satisfaction. Any suggestions as to corrections or improvements in the work may be addressed to them and will receive due consideration.

There are other indispensable uses to which this work can be put. The Directory contains correct information concerning the large business firms in the most prominent towns and villages between Ottawa and Kingston and merchants in these two cities will find that they can use it as their standard for reference. The name of every male from 21 years up is correctly given in these places, from the daily laborer up to the wholesale merchant, with as much care and precision bestowed on the one as the other. To our knowledge we have omitted nothing.

A correct statement of the present standing of the different societies, religious, masonic, orange, temperance, etc., of the cities of Ottawa and Kingston, together with a correct list concerning the present Government of Great Britain as well as the Dominion of Canada, and the several Provinces under its guidance, will be also found in this work.

In conclusion, the publishers would return their sincere thanks to John Lovell, Esq., for valuable information in connection with historical matter, and also to the advertising patrons as well as all others who have supported their work by subscription or otherwise. They also heartily thank the Chamberlain and City Clerk of Kingston City for their kindness and liberality in assisting them in the furtherance of the work.

## COCOA PREPARATIONS, &c.,

The subscriber would respectfully call the attention of the Wholesale Grocers and General Dealers of Central Canada to his Manufactures of

Broma, Chocolate, Cocoa, Cocoa Paste, Cocoa Sticks,

AND

### SPICES OF VARIOUS KINDS,

ALL of which will be found of superior quality.

More than a quarter of a century's experience has enabled him to bring his Cocoa Preparations to a high state of perfection, and they are now finding ready sale throughout both Quebec and Ontario. That his BROMA is particularly adapted to the use of the SICK and CONVALESCENT, and highly approved of by the most eminent Physicians of the Dominion, is amply proved by the following certificate :

"Having tried the Broma, made by Mr. John P. Mott, of Halifax, N.S., and having been made acquainted with its several ingredients, we are of opinion that it is a combination at once innocent and highly nutritious, not only to persons in health, but also to the weak and debilitated; and that from the facility with which it may be prepared, and the salutary properties of its ingredients it is a valuable compound, and we cheerfully recommend it to convalescents, and all who require a mild and strengthening food."

**105 RIDEAU STREET.**

## HISTORICAL SKETCH OF THE CITY OF OTTAWA.

A city of Ontario, capital of the Dominion of Canada, and of Carleton co., is beautifully situated on the right bank of the Ottawa river, at the outlet of the Rideau, and on the Canada Central and St. Lawrence and Ottawa Railways, 54 miles N. of Prescott, 126 miles W.N.W. of Montreal, 95 miles N.N.E. of Kingston, and 450 miles from New York. It is one of the most flourishing cities in Ontario, being the *entrepot* of the great lumber trade of the Ottawa river and its tributaries. It is divided into Upper and Lower Town by the Rideau Canal, which connects it with Kingston. The locks here are eight in number and are very massive.

The town was founded in 1827 by Col. By, R.E. It was incorporated a city, and its name changed to Ottawa, in 1854, and selected by Queen Victoria as the capital of Canada in 1858.

The chief attraction in Ottawa is the government buildings, which occupy an elevated piece of ground, about 25 acres in extent and 150 feet above the river, known by the name of "Barrack Hill." The view from this natural terrace is superb. The great river with its moving rafts, steamers, barges, and canoes rolls swiftly on through splendid hill ranges towards the south. In the distance the fine suspension bridge which spans the majestic river just above the Chaudière Falls attracts the eye, even though it be tempted to rest upon the wild beauty of the cascade sweeping by craggy rocks between abrupt islands, and plunging into the basin below, where part of its waters disappear in a mysterious way. Far beyond the cascade, glitters the broad river swiftly rushing down the rapids Des Chenes; and in the remote back-ground rise towering hills and mountains, often brilliant with purple and gold when the sun dips from view and gilds their lovely summit with his parting beams.

The government buildings, the corner stone of which was laid by H.R.H. the Prince of Wales in September, 1860, are constructed of a light colored sandstone found in the township of Nepean, in the valley of the Ottawa. The walls and arches are relieved with cut stone dressings of Devonian sandstone from Ohio and with red sandstone from Potsdam, N.Y. The roofs are covered with purple and green slates, and the pinnacles ornamented with wrought iron castings. The style of architecture is the Italian gothic, and the south front of the quadrangle is formed by the Parliament building, 500 feet in length. The two departmental buildings are 375 feet long. The rear is open and will be railed off with a suitable ornamental screen. The committee rooms occupy the front of the building. The library, a beautiful detached circular building, with a dome 90 feet high, is in the rear of the central tower, 250 feet high. The two legislative halls are on each side of the library, but in the main building. The dimensions of these halls are the same as those of the House of Lords, namely, 80 feet by 45; they are situated on the ground floor and lighted from above. The library is constructed after the plan of the new library of the British Museum, and will hold 300,000 volumes. The two departmental buildings contain in the aggregate 300 rooms, and are intended to accommodate all the departments of the government of the Dominion; and are so constructed as to be capable of extension at any future time without injuring the general architectural effect. The buildings cover nearly four acres, and cost at \$4,000,000.

Besides the above magnificent buildings Ottawa contains 17 churches, viz: Church of England 3; Church of Rome 4; Presbyterian 2; Church of Scotland 1; Wesleyan Methodist 2; Episcopal Methodist 2; Congregationalist 1; Baptist 1; Catholic Apostolic 1; 9 printing offices, several flouring mills, and large saw mills; and has manufactories of iron castings, mill machinery, agricultural implements, brooms, bricks, leather, wooden ware, &c., and agencies of two telegraph and a number of assurance and insurance companies, and 7 banks. Five daily newspapers are published in Ottawa. The streets of the city are lighted with gas.

Adjacent to Ottawa are several thriving villages, among others New Edinburgh and Hull. "Rideau Hall," the residence of the Governor General, is in the former place. It is a handsome stone structure, with 35 acres of well laid out grounds, and beautiful avenues of shaded trees. A street railway connects these villages with Ottawa.

The city returns two members to the House of Commons and two to the Provincial Legislature.

The total value of imports for 1872 was \$1,472,505; exports \$1,469,954. Pop. in 1861, 14,669; in 1871, 21,545.

## HISTORICAL SKETCH OF THE CITY OF KINGSTON.

A city of Ontario, at one time Capital of Upper Canada, situated at the outlet of Lake Ontario, 172 miles W. of Montreal Lat.  $44^{\circ} 12' N.$ , lon.  $76^{\circ} 41' W.$  The city occupies the site of old Fort Frontenac, on the N.E. shore of the river, opposite Wolfe Island, having the harbour and shipping in front. The harbour is formed at the mouth of Cataraqui river, which here enters the Lake. The west shore is bold and shipping of any size may lie here in perfect safety. East of the Bay the land projects southward, terminating in Point Frederick, or Navy Island, beyond which is Haldimand Cove, a deep basin of water, protected by this point on the west, and Point Henry on the east, and guarded from southerly winds by Wolfe Island in front. Kingston is, after Quebec and Halifax, the strongest fort in the Dominion of Canada. There is a fort on Messaga Point, and all other accessible points are secured by batteries. There are extensive military works on Navy Point, and on Point Henry is a fortress which completely commands the harbor and town. A long bridge across Cataraqui Bay connects Kingston with Pitsburg, besides which there are the suburbs of Barriefield, French Village, and Williamsville. The city is regularly laid out with streets crossing each other at right angles. It is chiefly built of blue limestone, which underlies the town. The streets are lighted with gas, and the houses are partly supplied with water from the Bay and partly from the wells. Wells of mineral water, composed chiefly of chloride of sodium and calcium have been obtained in several instances by boring to the dept of 145, 85, and 75 feet respectively. Among the public buildings are the City hall and market, court house and gaol, post office, 17 churches, including a Roman Catholic Cathedral, 2 colleges, Mechanics' Institute, Hotel Dieu, General Hospital, House of Industry, the building occupied by the several literary and benevolent institutions, and a number of schools. About a mile to the west of the city lies the Provincial Penitentiary, a large and massive stone building surrounded by a high and most substantial wall,

with towers at the corners. Beyond the Penitentiary is the Rockwood Lunatic Asylum. Kingston contains three branch banks, 2 telegraph offices, a number of insurance and assurance agencies, 2 breweries, &c., and has manufactories of iron castings, mill machinery, steam engines, locomotives, leather, soap and candles, boots and shoes, wooden ware brooms, pianos, &c. Ship and boat building are carried on to a great extent, and vessels for both lake and ocean navigation are built and fitted out complete. The commercial affairs of Kingston are regulated by a Board of Trade. The Grand Trunk railway has an important station in rear of the town; freight trains run to the harbor. A railway is in course of construction from Kingston to Pembroke, distant 120 miles. The Rideau Canal, connecting this port with the Ottawa river, has made it a place of considerable commercial importance. Four newspapers are published—2 daily and 2 weekly. The city is divided into 7 wards, and governed by a mayor, board of aldermen and common council. It returns 1 member to the House of Commons and 1 to the Provincial Legislature. It is the seat of the See of the Roman Catholic Bishop of Kingston, and is a port of entry. The total value of imports for 1872, was \$6,976,022; exports \$1,933,222. Pop. 1844, 6,840; 1861, 12,843; 1872, 12,407.

A settlement was begun here by the French, under De Courcelles, as early as 1672, under the name of Fort Cataraqui, and the Fort subsequently received the name of Fort Frontenac in honour of the French count of that name. This fort was afterwards in the possession of the French and the Indians, until it was destroyed by the expedition under Colonel Bradstreet in 1758. In 1762 the place fell into the hands of the British, from whom it received its present name. It was incorporated a city in 1838.
