F. W. FEARMAN, of HAMILTON, for HAMS, BACON, LARD, CHEESE.

Wire Fence Machine.

LAND & CHANDLER,
58½ King William St.,
HAMILTON,
ONT.

A Fence Can be Made by This Machine With as Many Wires as Desired and Any Height up to Five (5) Feet.

A Smooth
Extra
Hard
Steel Wire
FENCE.

FARMERS,

We beg to draw your personal attention to our Perfection Fence which will commend itself to the judgment of all intelligent and enterprising men. We claim for it superiority over all other Fences made. This may seem a surprising as well as a sweeping statement, but a careful examination will convince you of its merits. It is correctly named the Perfection Fence, fulfilling the old condition of being Horse High, Bull Strong, and Pig Tight, as well as being light and practically indestructible. Its points of superiority:—

1st.—It is made of the best material known for fencing, viz., extra hard steel wire.
2nd.—The horizontal wires are crimped every foot to allow for contraction in winter and expansion in summer; whilst frost and heat have always been so destructive to all other wire fences.

3rd.—The upright wires are composed of No. 14 Galvanized Annealed Wire; this is wound three (3) times around each horizontal wire alternately in opposite directions thus making it absolutely impossible for the horizontal wires to sag or shift.

4th.—It will not injure your stock in the least. It is needless to mention instances in which valuable animals have lost their lives, while others have been nearly ruined, and thousands are scarred by the barbarous Barbed wire fence. We claim that the object of a fence is not for mutilation or destruction of live stock, but simply restraint. This our fence secures.

5th.—No wind can blow it down; no fire can burn it up.

6th.—It is the cheapest and most durable fence made.

Price of ten (10) Bar, 5 feet high, or ten (10) Bar, 50 inches high, 75c. per rod, hung on farmer's posts; (6) Bar fences, 50c. per rod, which makes a very good, cheap horse and cattle fence only.

Farmers please call and examine this fence at Jas. Brayley's wrought iron works, Nos. 58 and 60 King William St., or at 58½ King William St., where you can see the fence in the different stages of manufacture and be convinced of its merits. You can save 50 per cent. on posts as only one half (½) the posts used in ordinary fencing are required. This fence is guaranteed to turn stock with posts from 16 to 20 feet apart.

LAND & CHANDLER,
(Land's Patent.)

58½ King William St., Hamilton, Ont.

P. S.—Any person desiring any further information, please send for circulars and testimonials.—Respectfully, Land & Chandler.
