35 FILE CABINET.

Patented Dec. 31st, 1884, and Jan. 7th, 1885.

The above cut represents a 35 drawer Cabinet Letter File — one of our regular stock — made of black walnut, oil finished, and nickel trimmed. The cut so well describes the system that a description is scarcely necessary.

THE TUCKER FILE is acknowledged by the principal business houses in Toronto and elsewhere to be the best system in the market, for the following reasons :

1st. By means of the automatic suspension device the file drawer is drawn out partly and suspended on the face of Cabinet, enabling the operator to place letters into the file with least possible work, and also of reading the same in the file drawer without removing it.
