THE PHOENIX MUTUAL *Life Insurance* COMPANY,

OF HARTFORD, CONN.,

Has a reputation of over twenty years' standing, and continues to stand prepared to meet the tests and satisfy the inquiries of all. Its new business surpasses all others. The following figures show that the Company is a progressive one, and that it guarantees ample security to its Policy-holders, while it affords Insurance at the lowest rates. This large increase applies to Canada as well as to the U.S.

Year ended 31st Dec.	Income.	New Policies.	Policies in force.	Amount Insured.	Assets.
1870	\$2,827,638	9,065	21,437	\$56,617,647	\$6,090,562
1871	3,135,736	10,039	28,696	63,499,994	7,510,614
1872	3,413,752	10,527	8,209,325

Zinc, and Sheet Iron Work. Also particular attention paid. Furnace and Hot
Air Work of all kinds. All orders will meet with prompt attention.

GEORGE RENT, JR.

PREFACE.

IN issuing the fourth edition of the Halifax City Directory the Publisher can most assuredly state that he has spared no pains nor expense in making it thoroughly reliable and useful. With every wish to make it so, he has been particular in the numbering of Streets and parts of Streets not being so numbered, and in measuring spaces so that the numbers that are not up will be placed according to the numbers in the Directory of this issue, being so arranged with the contractor, J. B. Smithers, Esq., so that the numbers in the Directory in all cases will be the same as those placed on Houses, &c.

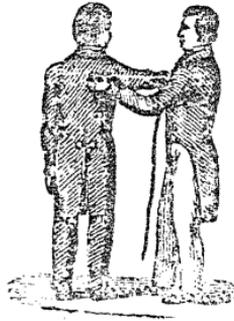

The Publisher would say as he is always compelled to do, that the same trouble exists in obtaining names, and in some cases from persons, who appear to be intelligent. So that if an error has crept in, the Public will believe that he has done his best in obtaining the information.

In Dartmouth, he has inserted a complete Alphabetical Directory which will be found equally correct with its larger competitor.

In the lengthy sketch of Halifax City and of the Gold Mines of Nova Scotia, which has been revised from last edition, the Publisher can only say that more correct and trustworthy information is not to be found.

In the Appendix will be found a mass of useful and general information, with details of Churches, Societies, Institutions, &c.; also, full information as to the Customs and Post Office Departments, all corrected and revised up to date of going to press.

To his Subscribers and Advertisers he can only return his best thanks for the hearty support accorded him, and trusts that they will not be disappointed.

CLAYTON & SONS

Wish to call attention to a splendid stock of Clothing, which they are offering at

REMARKABLY LOW RATES!

HISTORICAL SKETCH

OR

HALIFAX CITY AND COUNTY.

The City of Halifax, the capital of the Province of Nova Scotia, was founded in the year 1749 by the Lords of Trade, and was named in compliment to George Montague, Earl of Halifax, then at the head of the Board. The scheme for the establishment of the town is said to have originated with the people of Massachusetts, who, in calling the attention of Government to the claims and encroachments of the French on the territory of Acadia, suggested the necessity as well as the great commercial advantage to be derived from such an undertaking. A plan was accordingly submitted to Government in the autumn of 1748, and being warmly supported by Lord Halifax, advertisements soon appeared under the sanction of his Majesty's authority, holding out excellent inducements for emigration. The prospects appeared so inviting, that in a short time 1,176 settlers, with their families, were found to volunteer, and the sum of £40,000 being appropriated by Parliament for the purpose, the expedition was placed under the command of Colonel the Honorable Edward Cornwallis, M.P., as Captain General and Governor of Nova Scotia, and set sail for Chebucto Bay early in May, 1749.

The fleet consisted of thirteen transports, carrying 2,376 passengers, men, women, and children, and a sloop of war, the *Sphinx* with the Governor and his suite on board. The total number of males was 1,545, of which above 500 were man-of-war sailors.

On or about the 21st of June, the *Sphinx* arrived in the harbor of Chebucto, and the Governor and suite soon after landed on George's Island.

On the 14th July the civil Government was organized on board the *Beaufort* transport, and the following gentlemen sworn in councillors, viz: Colonel Paul Mascarine, Captain Edward Howe, Captain John Gordan, Benjamin Greene, John Salisbury, and Hugh Davidson. The table around which the first Council sat is still preserved in the Council Chamber. The formation of the Council was announced by a general salute by the ships in harbor, and the day was devoted to amusement and festivity.

In the month of July, Mr. Bruce, a civil engineer, and Mr. Morris, a

STARRS & McNUTT, Builders' Hardware, 144 Upper Water street.

surveyor, were ordered to lay out the town, which was surveyed and the plan completed by the 14th September. The town was laid out in squares or blocks of 320 by 120 feet—the streets being from 55 to 60 feet wide. The width of Granville Street is but 55 feet. Each block contained sixteen town lots, 40 feet front and 60 feet deep, excepting the lots between Barrington and Argyle streets which are 72 feet deep—giving a larger space for St. Paul's Church and the Parade. The whole was divided into five divisions. Buckingham street was the first fixed as the north, and Salter street as the south limit, but the north line was subsequently extended to Jacob street. The settlers drew for the lots, and the names and numbers were entered on a register kept for that purpose, still in existence, and known as the allotment book. The north and south suburbs were surveyed about the same time, and the German lots in the north laid off in the following year.

On clearing the ground for settlement, a number of dead bodies were discovered among the trees, partly concealed beneath the underwood, which were supposed to have been the remains of soldiers of the Duke d'Anville's expedition, which wintered in Chebucto in 1746.

In 1872 the workmen excavating in the vicinity of the new Presbyterian Church. Dartmouth, exhumed large quantities of human bones, It will be remembered by those familiar with the early history of our province that about the year 1746 a fever broke out in a French fleet then lying in this harbor, which swept away hundreds of the seamen. The commanding officer, who also fell a victim, was interred on George's Island. Large numbers of the seamen were buried on the Dartmouth side, and it is probable that it is the remains of these unfortunate men which are now being brought to light, after a repose of a century and a quarter. Many of the bones are in a good state of preservation.

On the 17th July the French deputies waited upon the Governor on board the *Beaufort* transport. They were again received by the Governor and Council on the 29th July; when they rendered their allegiance to the new Government, which was accepted. The Indians also had an audience on the 14th August, and treaties of peace between them and the colonies were drawn up and signed on the following day. These treaties do not appear to have been much respected, however, as the Indians continued to give the settlers considerable trouble; and several new companies of volunteers were raised in the following October to prevent their incursions. About this time nearly one thousand persons are said to have fallen victims to a fearful epidemic which swept over the country. Laws, similar to those in force in the colony of Virginia, being found the most applicable to the circumstances of the new town, were adopted.

From the year 1749, the defences of the town consisted of pallasades or pickets placed upright, with block-houses, built of logs at convenient distances. This fence extended from where St. Mary's Cathedral now stands to the beach, south of Fairbanks' wharf, and on the north along the line of Jacob street to the harbor.

STARRS & McNUTT, Paints & Oils. 144 Upper Water street.

There were also block-houses at Point Pleasant, Fort Massey, and various other points near the town.

The town of Dartmouth was commenced in August, 1750, by 350 settlers, who arrived in the ship *Aldaby*. In the December following the first ferry was established, and John Connor appointed ferryman by order in Council.

Dartmouth and the vicinity of Halifax suffered considerably at this time from the depredations of the French and Indians, stimulated by French emissaries; and to prevent their incursions a militia force was formed, consisting of all the male inhabitants between the ages of sixteen and sixty.

Between the years 1751 and 1752, 1958 German settlers arrived in the colony. In June, 1763, 1500 of them embarked for Malagash harbor, and Mahone Bay, where they afterwards built the town of Lunenburg. The remainder continued in Halifax, and were located in the North suburbs, called Dutchtown, Brunswick and Lockman streets, now known as the North End, and were the first settlers of that part of the peninsula.

Notwithstanding the advantages held out by the Government and the fact that up to the year 1757 the enormous sum of £560,000 sterling had been expended on the settlement, the people at that date were rapidly removing to the old colonies. The fisheries, one of the main inducements for emigration, being almost entirely neglected, and the population reduced to much less than half its original numbers, subsisted chiefly on the money expended by the army and navy, and were dependant on Boston for their provisions, and all other necessary supplies. Halifax was of incalculable importance, however, to Great Britain in a military point of view, and to its position as a military and naval station may be ascribed, in a great measure, the downfall of the French power in America.

The fleets and troops under Lords Howe and Lendon, sent out for an attack on Louisburg, in 1757, made Halifax their rendezvous. After the siege, which lasted two months, the fleet and army returned to Halifax and remained some time to refit. The country was sacked for provisions, and many of the sailors, being enriched by the campaign in Louisburg, procured their discharge and became settlers, and all the ammunition and stores with a quantity of private property, being removed to Halifax, the town once more began to assume a prosperous appearance.

Halifax was again the resort of the army and navy, under Wolf, during the following year, 1759; and in 1763 the town was enlivened by the presence of a large army and navy, and many gentlemen of standing made the place their home.

In December, 1760, King George III. was proclaimed at Halifax with great ceremony.

Representative government was established in Nova Scotia in 1758.

A great gale of wind in 1769, caused much destruction of property and loss of life. The winter was remarkably severe, the harbor being choked

STARRS & McNUTT, Builders' Hardware, Upper Water-street.

with ice for several days in the month of February, and the snow on the ground in March following was in many places five feet deep.

From 1770 to 1776 was a period of great public excitement; emissaries from the revolted colonies were numerous, and all meetings of a political nature were forbidden.

The Parliament elected in 1770 sat for fourteen years without being dissolved.

After the close of the French war, the town declined in prosperity for a few years; but eventually it again became the depot of the troops and shipping, and a more prosperous era began to dawn. After the evacuation of Boston, ten thousand soldiers, sailors and loyalists, who arrived with the fleet, were quartered in the town. Many of the transports being in a leaky condition, landed their people. Every house was crowded to excess. From the commencement of hostilities to the termination of the war, the town was thronged with troops and refugees from the revolted provinces, and the scarcity of provisions increased to an alarming extent. Beef was 2s 6d. and butter 5s. per lb.

The loyalists soon distributed themselves throughout the Province, and the population again rapidly decreased. In 1783, however, great numbers of loyalists came from New York, and the population, thus augmented, was suddenly increased to double its former numbers; yet it is very remarkable that, in September, 1791, within eight years after, the population had again so fallen off as scarcely to exceed five thousand. The greater part of the loyalists returned to the States, where they became founders of some of the great families.

In the year 1787 Nova Scotia was erected into a Bishop's See, and Halifax made the residence of the Bishop.

On December 27, 1798, a tremendous hurricane visited the town, and swept away all the wharves, and damaged most of the shipping in the harbor. The loss of property was estimated at £100,000.

The lumber yard, ordnance yard, and King's wharf, were all commenced about the year 1784, or 1785; but the buildings now existing at these localities were not put up till a much later date.

Citadel Hill was cut down, and ramparts of earth constructed on the site by Prince Edward, Duke of Kent, when commander-in-chief of the garrison, a number of wooden fortifications by which the hill had been occupied having been removed for the purpose.

The Towers on George's Island, Point Pleasant, Eastern Battery, Meagher's Beach, and York Redoubt were built about this time. He also established telegraph signals between Halifax and Annapolis—the first post being on the hill behind his own residence on Bedford Basin. The Parade Ground was levelled and the wall built by him. Until the year 1780 the streets of the town were in a very rough condition, and, from stumps of trees and rocks, impassable for carriages.

The first Government House was erected soon after the laying out

STARRS & McNUTT, House Furnishing Hardware, Upper Water street.

of the town. The frame and material were brought from Boston. The building was completed early in October. It was a small low building of one-storey, and stood in the centre of the square now occupied by the Province Building. It was surrounded by hogsheds of gravel and sand, on which small pieces of ordnance were mounted for its defence. This building was removed and a more spacious and convenient residence put up about 1757 or '58, which in turn was pulled down shortly after the year 1798.

Saint Paul's Church, now probably the oldest building in the city, was built 1750, at the expense of the Government. The old German Church, in Brunswick Street, bears the date of 1761. It was erected by private subscription, as a Lutheran Church, and is now one of the few relics of the old German settlement.

A printing office seems to have been established as early as March, 1756, by Isaac Curry. The first newspaper in Halifax appeared in January, 1769. It was published by Anthony Henry, edited by Captain Buckley, and called the *Nova Scotia Chronicle* or *Weekly Gazette*. There was another printing office in 1776, in Grafton street, with a steeple and a hand holding a pen for a vane.

The first Court-house stood where Northup's Country Market now stands, at the corner of Buckingham and Argyle streets. The building recently occupied by the Halifax Grammar School, at the corner of Sackville and Barrington streets, is also a very old one. The Legislature held its session there about 1765. It has also been used as a Court-house and as a Guard-house.

There were numerous and well kept houses of public entertainment at a very early period. A large three-storey building, called the Great Pontiac, was erected previous to 1757, at the corner of Duke and Water streets. It has been since known as Michael Bennett's corner. There was also the Crown Coffeehouse, kept by William Fury, in 1769; on the beach near the Dockyard, and the Jerusalem Coffeehouse, destroyed by fire in 1837. The latter building stood on the site now occupied by the warehouse of that name.

Between 1753 and 1780 public gardens and promenades were much in vogue, of which Adlam's Garden, south of the citadel, near the present Artillery Park, was the principal. The Artillery Park was then kept on the Grand Parade. The Parade was not levelled at that time, and the descent at the north-east corner was very abrupt. The Artillery Barracks stood in a line with the Engine-house recently removed from the upper side of the Grand Parade; Spring Gardens was another place of resort. The old Governor's Gardens were south of Government House, now the residence of the Rev. George M. Grant. About the year 1768 there were lamp posts at all the principal corners, the town being then lit with oil, at the public expense.

The first jail was situated in Hollis street, at the foot of Salter street. The Queen's Dockyard was first established in 1758. It was ex-

STARRS & McNUTT, Coach and Cabinet Varnishes, Upper Water street.

tended and improved in 1769. The present wall was built in 1770; this date is inscribed on the gate, and is situated in the north end of the city. It now contains workshops, warehouses, and stores of various descriptions, besides commodious residences for the officers and workmen. It contains several war trophies, and it was at this place His Royal Highness the Prince of Wales first landed in Nova Scotia in the year 1860.

After the return of His Royal Highness the Duke of Kent, and between that period and 1840, the town of Halifax did not make such rapid progress as many other towns on this continent. During the American war of 1812, several valuable prizes were taken into port, which caused a considerable sum of money to circulate; but comparatively few buildings of any note were erected. The foundation-stone of Mason Hall was laid by the Duke of Kent about 1800. The Provincial Building was erected between 1812 and 1820, and Dalhousie College about 1820. St. Paul's Church was enlarged about 1812. A crusty old Admiral removed, about this time, the principal Dockyard to Bermuda. The emancipation of the slaves in the West India colonies, in 1836, caused a serious interruption to the important trade carried on between Halifax and those islands. This was followed by Asiatic cholera, in 1834; this again by commercial regulations respecting the admission of Baltic timber into the British markets about 1837; and that was followed by the withdrawal of the troops during the trouble in Canada—all combined to cause a stagnation in trade, and to give a desolate appearance to the city. But within the last quarter of a century Halifax has made rapid progress, both in population and material wealth. A class of what was then considered commodious steamers was placed upon the ferry between Halifax and Dartmouth. About the year 1839 or 1840 the Cunard line of steamers was established, the Liverpool and Boston boats calling at Halifax on the way to and from Boston. A West India line, plying between Plymouth and the West India Islands, via Halifax, was also started, but did not succeed. The Gas Company was incorporated about the year 1840, and in 1842 the gas was first lighted in the city.

About the same year, 1842, the City Act of Incorporation was obtained from the Legislature, since which time great improvements have been made in the general appearance and public institutions of the city. Under the Act of Incorporation the city is divided into six wards, each being represented in the City Council by three Aldermen—who, with the Mayor and the Recorder, transact all the financial and civil business. A Stipendiary Magistrate was appointed by the Legislature in 1865, who is judge in all cases before the Police Court.

In 1847 the Water Company was organized, and introduced a supply of excellent water from the lakes, some five or six miles to the rear of the city; but these works have since been purchased by the City Corporation, and placed under the control of commissioners appointed by the

STARRS & McNUTT General Hardware, 144 Upper Water street.

city government. The water commissioners in their turn gave place to the City Board of Works elected by the members of the City Council from their own number in 1872.

In 1869, 108,000 dols. were expended in laying pipes to connect Spruce Hill Lakes with the city. These lakes being more elevated than the lakes of the previous supply, give the advantage, in addition to a full supply of water for a city of 30,000 inhabitants, of a copious flow of water to the highest part of the citadel, or the most elevated buildings on the peninsula. Spruce Hill Lakes are capable of supplying on an average a million and a half of gallons of water daily.

Halifax has suffered severely from fire on several occasions; at one time nearly three blocks were consumed, extending from Hollis to Barrington street, and covering what was then, and is now, the finest part of the city. The greater part of the space thus laid bare has since been covered with handsome freestone, granite, and brick structures, which are not surpassed by any on this continent. One of those fires consumed a large wooden erection near the Province Building, which was originally the Provincial Parliament Building, and besides gave accommodation to the Supreme Court, the Secretary and Treasurer's Office, with a commodious hotel. Latterly it was known as Hare's Building, and was occupied as shops and offices by persons engaged in various lines of business. After the fire the Government purchased the site, and erected a handsome edifice upon it, which has cost from twenty to thirty thousand pounds, and contains the Custom-house and Post-office, Savings Bank and Revenue offices, with Museum.

Of the other public buildings now standing, the old Provincial Building is the chief. It is built of grey freestone, is one hundred and forty feet in length, seventy in width, and forty-two in height. On the ground flat are the offices of the Attorney-General, Receiver-General, Provincial Secretary, Commissioner of Mines, and Superintendent of Education. On the second flat are the Halls and Committee Rooms of the two houses of the Provincial Parliament, and the Legislative Library. It is a building of fine architectural proportions, but by being placed in an unfavorable locality, is less imposing in appearance than, under other circumstances, it would be.

Besides the Province Building there are the Government House, the Admiralty House, Dalhousie College, the Asylum for the Insane in Dartmouth, which was enlarged in 1869, the Wellington Barracks, the Court-house, the City and Provincial Hospital, the Penitentiary, the City Prison, and the City Market, which may be classed as public buildings, and some of them are very attractive and imposing in appearance.

During the year 1868 the British Government erected a Military Hospital in the Garrison field at a cost of 150,000 dols.

The Poor's Asylum, completed in 1869, is built of brick and granite, at a cost of 260,000 dols. It is situated on the South Common, west of the Provincial Hospital, and is the most imposing edifice in the city.

STARRS & McNUTT, Depot for Eureka Wringers, 144 Upper Water.

The Blind Asylum east of the Hospital, is a fine two-storey brick and stone building. Its origin is due to the philanthropy of the late William Murdoch, Esq., who bequeathed \$5000 towards the education of the blind in Nova Scotia.

The Halifax Club Building, the Temperance Hall, and the offices of several Banking and Insurance Companies are owned by the respective corporations bearing their names, and represent a very large accumulation of surplus capital. The Bank of Nova Scotia, in Hollis Street, was built in 1856-57, of freestone, and cost upwards of six thousand pounds.

During the year 1871-2, the public halls have been erected—the Argyle House in Argyle street, and the large hall in Hesselein's Building, in Hollis street—neither of which are suitable for the requirements of a city like Halifax—though very suitable for small assemblies.

Till 1848 or, 49 the only Hall for public meetings was the old Mason Hall, which then only contained the front room, where all the public meetings were held not suitable for churches. The Harmonic Hall was built, and is now used as a stable in connection with Moir & Company's bakery on Grafton Street. Temperance Hall was built by a joint stock company in 1849-50; it was then fully capable of accommodating all that would turn out for lectures, concerts, &c., but it has become too small, and perhaps before another ten years pass may come to the same degradation which has befallen the Harmonic Hall, the idol of certain parties about 1841 and 1842.

The Banking House belonging to the Union Bank was built in 1863, at a cost of about ten thousand pounds. The School in Barrington Street, built in 1864 by the Roman Catholics, and taught by the Christian Brothers, is a substantial brick and granite structure. The Richmond Schoolhouse, erected in 1868, and capable of accommodating 240 pupils; the Morris Street Schoolhouse, built in 1869 at a cost of about 26,000 dols., and having accommodation for 500 pupils; and the Schoolhouse in Albrow street, erected in 1870, and capable of receiving 600 pupils, are all substantial edifices of brick and stone, erected to supply the increasing demand for school accommodation since the introduction of the Free School system. Some of the private business establishments and warehouses are such as will do credit to any city. Among these may be named the wholesale warehouses of Messrs. Kenny, Doull & Miller, Duffus & Co., Power & Co., Burns & Murray, S. Howard & Son, and many others in Hollis and Granville streets, and the still more durable and commodious wharf warehouses of Cunard & Co., Collin's (now Sæton's) and many others, with which the wharves are studded, from Pryor's wharf to the Dockyard, and which are annually filled with merchandize of various sorts, in which an extensive and lucrative trade is carried on with Great Britain, the United States, British and Foreign West Indies, and the neighboring provinces.

Manufactures of every kind are yet comparatively in their infancy in Halifax. There are in the city and Dartmouth five or six iron found-

STARRS & McNUTT, Coach and Cabinet Varnishes, Upper Water street.

ries and machine shops, in some of which steam engines and other heavy machines are neatly constructed. Montgomery, at Freshwater, has been awarded the contract for building ten locomotives for the Inter-colonial Railway, several of which have been finished. The machine shops of the Provincial Railway, at Richmond, comprise a number of commodious structures, and give employment to from 100 to 150 men. Besides these there are two or three tobacco factories, three pianoforte factories, several furniture factories, a powder mill, one or two nail factories, sawing and planing mills, sash factories, &c., all of which are doing an extensive business, and yielding a handsome return for capital invested. A large flour mill has been completed, in connection with a bakery, occupying from Grafton to Argyle Streets. This bakery establishment is capable of working off one hundred barrels of flour per day.

There are several colleges and academies, and a number of private academies, schools, &c., in the city. The introduction of the Free School System in the city in 1866 has made great changes in the education, both as regards its extent and the facilities for obtaining it. In 1866 the registered pupils in the schools were 2670, while in 1871 they rose to 5239. The teachers employed were eighty-seven against thirty-five in the former year. The expenditure for school purposes has risen from \$21,294.62 in 1866 to \$57,178 in 1872. The School Estimates for year ending 30 April, 1874, is set down at \$52,164.25.

In the year 1828 there were six newspapers published in Halifax; there are now 14—three daily, three tri-weekly, the six political journals, four are devoted to the interest of religious denominations, one to temperance; besides these a journal of agriculture, and a journal of education, both monthly, are published under the management of the Provincial Boards appointed to these two departments by the Legislature.

There are now twenty-four places of worship in the city. Seven of these belong to the Presbyterians, five to the Episcopalians, three to the Roman Catholics, four to the Wesleyans, two to the Baptists, one to the Congregationalists, two to the colored population, principally Baptists and Methodists: they are all generally well filled on each returning Sabbath.

From 1827 to 1830, the middle portion of St. Mary's Cathedral was erected, but it has been enlarged and almost remodded since that time; a massive granite front is now in course of erection, which, when completed, will render this by far the most expensive and enduring ecclesiastical structure in the Province.

The Halifax Banking Company was organized in 1825, and is consequently the oldest banking company in the city. It was then a private company, but last year it obtained a charter from the Dominion Government and is now a joint stock company. It was followed by the Bank of Nova Scotia and the Bank of British North America. There are now in all seven commercial banks and two or three Savings banks in

STARRS & McNUTT, Eclipse Lubricating Oil, Upper Water street.

the city. There are two Building Societies, four Public Libraries, three Reading Rooms, and several Benevolent societies of various descriptions and nationalities (of which the North British was the first established.)

Since the opening up of railway communication with the interior of the Province, the city has increased rapidly in wealth. Since 1858, railways have been in operation from Halifax to Windsor, on the Bay of Fundy, and from Halifax to Truro, at the head of Cobequid Bay. The latter line is now continued to Pictou harbour, in the Straits of Northumberland, where it has already attracted a large trade from the Gulf of St. Lawrence, besides bringing the coal mines of Pictou county within easy reach of the city. The Windsor line of railroad has been extended to Annapolis, 120 miles from Halifax. The Intercolonial, European and North American railroads are being rapidly pushed forward, and before the close of 1874 Halifax will be in unbroken communication with the Upper Provinces and the United States. The discovery of gold in the Province, and the extensive investment of capital and employment of labor in the gold mines, has also to some extent aided the commerce of the city, by providing a new and valuable export with which to pay for goods purchased in Great Britain. For the last few years the population of the city has been rapidly increasing, and when the projected lines of communication by rail and steamships with neighboring Provinces and the United States are completed, Halifax must come to be one of the foremost cities in population and wealth, as she is already one of the most important in geographical position on the continent of America.

Since the abrogation of the Reciprocity Treaty, and especially within the past five years, Halifax has made rapid progress in manufactures. Four carriage factories, four large boot and shoe factories, which employ a large number of men. The manufacture of furniture has called into operation A. Stephen & Son's establishment at Fresh Water Bridge. Stephen & Son have their extensive warehouse in the old St. Andrew's Church, on Barrington street, which has been handsomely refitted for the purpose.

Gordon & Keith's furniture warehouse on Barrington street is very extensive and supplies from the factory and importations the places in the country and P. E. Island.

Barrack street, which but a few years ago had only a collection of old wooden buildings, the resort of the deprived, within the past year has undergone a rapid change. A handsome brick church was built as a Mission House by Edward Jost, Esq., at his own expense. Then the Halifax Corporation's Fire Engine Company's building, a very fine structure with tower. The building has been followed by Taylor's boot and shoe factory. In a few years this street bids fair to become one of the finest in the city.

The extension of Barrington street on the south, and Lockman street

STARRS & McNUTT, General Hardware, 144 Upper Water.

on the north and south, is an improvement which reflects credit on the public spirit of the citizens. The old wooden erections on the Jacob property, which so long stood as an eyesore, have all been replaced by modern structures. On Barrington street the many improvements now in progress make it appear that at no distant day this will be the first street in the city for the retail trade.

The only buildings of consequence now under construction within the city are the market structures on Argyle street on the property lately owned by A. M. Uniacke, Esq. The old homestead is retained, but considerably altered so as to destroy its historical associations as the palatial residence of the Attorney General of Nova Scotia, the first Uniacke. The other is the Young Men's Christian Association Building on the corner of Granville and Prince streets. The old wooden erections on that spot are happily removed, and a beautiful brick building with granite facings is now under contract, and before it will be finished will cost twelve thousand dollars—exclusively of the ground.

During the past year (1872) a handsome Fire Engine house with tower and bell at the west end of Gerrish street, on Maynard street, was built. This building is intended for an Engine house and Police Station for the north end of the city, and being on a commanding position presents a fine aspect from many parts of the city as well as Dartmouth, where it is seen to great advantage.

Nor can we close this notice of city improvements without a reference to the Park formally opened on the 23rd July, 1873, for the benefit of the citizens. It is situated on the south point of the Peninsula of Halifax, in what was known as the Tower woods. By the serpentine roads several miles of a handsome carriage road has been obtained, from many parts of which some of the finest scenery in the Dominion may be seen. It commands fine views of the great Atlantic Ocean, the North West Arm, McNab and George's Islands, and the rugged and picturesque, as to be seen at Ferguson's Cove, York Redoubt, &c., &c.

The financial condition of the corporation may be summed up as follows, being the exact condition of the debt of the city (May, 1872), bearing interest at 5, 5½, 5¾, and 6 per cent. paid half yearly.

1. City which includes old Street Loan, City Prison, Hospital Buildings, Market Slip, Sidewalks, Lockman street, &c., &c., Debentures 5 per cent.....	\$365,000.00	21,043.46
(2). Water Works do	669,653.33	39,759.93
(3). School do (all bearing interest at 6 per cent).....	116,995.00	7,019.70
	<hr/>	
	\$1,151,648.33	67,823.09

The population by the last census was set down at 29,582.

The imports at the Port of Halifax during the past two years were as follows, (that for the year ending 30 June, 1873, has not yet been published) :

Value of Dutiable and Free Goods imported from Foreign Countries, 1871.....	\$3,664,139.00
Value of Dutiable and Free Goods imported from Foreign Countries, 1872.....	\$10,055,579.00

STARRS & McNUTT, Paints and Oils, 144 Upper Water street.

Several very important commercial changes have taken place during the past year from which great good is anticipated. Among these may be mentioned the opening of our coast fisheries to the American fishermen and the opening of the American fish market to our merchants, which went into operation on the 1st July last. The other commercial regulation, which promises much for the prosperity of the city, is the alteration of the Interest Laws of the Province by which a higher rate of interest than 6 per cent. is allowed to be charged by private individuals as well as banks, and the rate of interest on mortgages fixed at 7 per cent. by agreement.

All descriptions of bank stocks, excepting Liverpool banks, sell considerably above par, but at a rate that yields a dividend that will amount to six per cent. per annum. None of the Local Banks have yet declared ten per cent. dividend upon the capital, but expectations are strong in that direction just now—Provincial and City debentures 6 per cent. bear a ready sale at a small premium, but sometimes the premium goes as high as five and six per cent. The usual rate of discount at banks is from 8 to 10 per cent. The banks allow four per cent. for deposits sometimes for large sums, and subject to certain conditions and restrictions. Stocks, Debentures, &c., &c., are occasionally sold at auction in the exchange by J. D. Nash, auctioneer, but W. M. Gray, Farquhar & Forrest, and Almon & McIntosh buy and sell all kinds of securities.

NOVA SCOTIA AND ITS GOLD MINES.

(REPRINTED FROM DIRECTORY OF 1871-72, WITH ADDITIONAL INFORMATION TO 1872.)

By way of introduction to McALPINE'S NOVA SCOTIA DIRECTORY FOR 1868-69," there appeared an "Historical Sketch of Halifax." In that brief sketch there is compressed a mass of historical information—an array of carefully selected, clearly defined, and important facts, chronologically arranged and tersely expressed—which to the student of history would, without a moment's doubt, be considered worth infinitely more than the price of the Directory as a whole. Many subscribers to that number of the Directory, which is now out of date, still carefully preserve it, or at least the sketch referred to, as a valuable and unquestionable work of reference.

In the present issue, the Publisher purposes directing the attention of the public in general, and his patrons in particular, to some of the localities in Nova Scotia which, taking Halifax as the centre point, might be supposed to commend themselves to the interest of the pleasure-seeking tourist, or the shrewd man of business. It is true that very few of these pages can be afforded to so suggestive a topic. To the connoisseur in beautiful scenery, it may be safely said that Nova Scotia affords, in pro-

STARBS & McNUTT, Builders' Hardware, Upper Water street.

portion to its area and facilities of access, a greater and more agreeable diversity than is to be found elsewhere on the continent of America, or perhaps in the world. It has no Niagara; but those who have seen the Bay of Fundy tide in its glory, will admit that it is not less grand than the world-renowned cataract, whilst it has the charm of *uniqueness*, and can be observed by the spectator without incurring any desperate adventures. Nova Scotia can boast of no such mountains as New Hampshire, Newfoundland, Scotland, and other similar resorts of the tourist; but it must be remembered that the charm of mountain or hill scenery does not depend upon the number of thousand feet which the spot under consideration may happen to be "above the level of the sea." Keeping this in view, the landscape painter, or the tourist in search of the picturesque who turns his back upon the hills of Nova Scotia,—especially of the Island of Cape Breton,—may certainly "go farther and fare worse."

But in picturesque *coast* scenery, Nova Scotia may boldly challenge the world. Gaspé, Percé, and other localities about the Lower St. Lawrence, and portions of the coast of the State of Maine, may vie with the Nova Scotian coast; but nothing else on this continent can equal, much less surpass it. But within the scope of this paper, it will be useless to attempt sketching, however briefly, the charming "bits" of scenery on the shores of the Bay of Fundy,—more especially of its Minas and Chignecto Arms; the garden-archipelago of the Mahone Bay on the Atlantic coast; the still bolder and grander indentation of St. Margaret's Bay; the almost innumerable pictures painted by nature along the Islanded "inner passage," whereby one may "paddle his own canoe" nearly all the way from Halifax to the strait of Canso, regardless of the fuming of the Atlantic, a few thousand yards distant; the beautiful strait of Canso itself; or possibly more charming than all, the views to be caught from almost every point of the magnificent Bras d'Or and its almost innumerable arms, inlets and outlets. Little do the thousands of people who, from the decks of ocean steamers, every year look out—it may be for days in succession—upon the—to them—low, dim, and uninteresting coast of Nova Scotia, think that a nearer acquaintance with that shore would present them with a continuous picture for hundreds of miles in extent, every view of which would have its special charm!

Nor can the writer venture to do more than mention the embowered lakes—perfect gems of their class—which dot the Southern section of Nova Scotia, and which must be counted, not by units, but by hundreds, if not by thousands. The least attractive of them, with its environs, would be worth many thousands of pounds in an English park. There is probably no country in the world, with the exception of the Hudson's Bay Territory, which so abounds in lakes as that section of Nova Scotia fronting upon the Atlantic; but in Nova Scotia, they not only comprise a sort of Paradise to the enthusiastic angler, but they present countless charming pictures to the tourist in search of the picturesque.

Few more attractive views are to be met with than can be seen in the

STARRS & McNUTT, Cutlery, Files, &c., Upper Water street.

environs of Halifax itself—particularly where they embrace any portion of the waters of the magnificent Chebucto Bay, inclusive of Halifax harbor proper, Bedford Basin, the North West Arm, and the South East Passage; but these views have so often been described that they must be familiar to the most of our readers, even to those who have never seen them with their own eyes. One thing may here be mentioned, however, relative to Halifax. It seems to have been determined to make it *the* great British military, as well as naval depot of America. For many years past, immense sums have been expended annually on the fortifications of this place, and judging from present indications, this is likely still to continue for many years to come. If Halifax is not already, it certainly soon will be, the most strongly fortified place in the world. To enumerate the principal works completed, under construction, or designed: there is, first and most important of all, Fort George, the Citadel of Halifax, which commands, not only the town and all the ground within the city limits, but the harbor, its shores, and all the adjacent country within the utmost range of the heaviest of Armstrong guns. On George's Island nearly in the middle of the harbor, there is Fort Charlotte. For three years past, this work has been undergoing reconstruction in accordance with the requirements of more modern warfare, and is not yet finished. When completed, the whole island will be one fortress of redoubtable character, commanded only by the citadel. Nearly opposite George's Island, on the Eastern shore of the harbor, is Fort Clarence, more formerly known as the "Eastern Battery." Within the past few years, it has been entirely and most substantially rebuilt; and its guns can rake the whole surface of the harbor, from the Narrows to McNab's Island. Returning to the Western, or city side of the harbor, we find that fronting upon it and just on the very outskirts of the lower, or southern part of the town, a tract of land has been purchased by the War Department upon which to erect another battery; but it is not commenced. Farther down the shore, about half way between Steel's Pond and Point Pleasant, and upon a comparatively elevated spur of a hill, projecting towards the harbor, is Fort Ogilvie. This, like Fort Clarence has been enlarged and entirely and substantially rebuilt within the last few years. Directly in the rear of Fort Ogilvie, but upon more elevated ground; about midway between the harbor and the North West Arm, is the Prince of Wales' Tower, which has also been materially improved of late. A few yards distance south from the tower and at a slightly less elevation than its base, a new battery of a most formidable character has recently been completed, the guns of which will sweep the whole entrance of the harbor. Just below this and directly upon the shore are the Point Pleasant Battery, on the extreme southern point of the peninsula and city of Halifax; and the North West Battery, commanding the entrance to the North West Arm. Another large new battery has just been completed, on the extreme north-western point of McNab's Island, farther down the harbour. Again, still farther down, but on the Western shore, York Redoubt is

STARRS & McNUTT, Carpenters' Tools, Upper Water street.

now being entirely rebuilt and enlarged for a more heavy armament. Mention need only be made of the Martello towers at Meagher's Beach and Sambro Island. It will thus be seen that from these numerous fortifications, a most terrific fire can be concentrated upon any given point of Halifax harbor, or its entrance. The hostile ship which attempts to enter the harbor will have the privilege of "running the gauntlet" in a way which cannot be indulged in anywhere else in the world. On the landward side nature has provided ample defences for Halifax.

In directing the attention of the reader to those points of interest which may be visited in Nova Scotia, from Halifax as a central point of departure, the writer purposes restricting himself for the present to the Gold Mines of this fine province. It may be here stated at the outset that the information here offered to the reader as to Gold Mines is mainly extracted from the products of the pen of P. S. Hamilton, Esq., as shown in the various published letters in the *London Times*, *Mining Journal*, and other periodicals, in the United Kingdom, the continent of Europe, the United States, and the Provinces of Canada, which have appeared with his name appended thereto; and from the official reports published by authority, and for which he was accountable during the time he was Gold Commissioner and Chief Commissioner of Mines for the Province of Nova Scotia.

Well, then, without pretending to offer to the reader a report of a geological survey of Nova Scotia, be it known that the whole Atlantic coast of this Province belongs to a gold bearing formation. In Nova Scotia the rocks of the older silurian and auriferous formation embrace the whole Atlantic coast of the Province. At its Western extreme, in Shelburne, Yarmouth and Digby Counties, this formation is not less than fifty miles in width; but going eastward it gradually narrows, until at Cape Canso it comes almost to a point. In the interior of the Province there is another and a newer geological formation, comprising the highest lands in the country, which is also gold bearing; but it has not as yet proved so productive—although it has not been so much explored—as the already mentioned coast range. Nearly all the gold mines that have been written and talked about are in this same coast range. This auriferous range, on which mining operations have been carried on, is, it is true, not more than three hundred miles in length, by an average width of say thirty miles, and is therefore, as a whole, a small gold field compared with California, Columbia, Australia, or New Zealand, which have attracted so much of the world's attention of late years. But on the other hand, when we come to make comparisons of square miles with square miles, we shall find that, in no other country where gold mining operations are carried on, is there so large a portion of auriferous surface as in the gold regions of Nova Scotia. And—which is still more important—we find that in no other such country do the auriferous quartz lodes yield so large a per centage of gold as they do in Nova Scotia. So

DAVIDSON & CRICHTON, fashionable Tailors, Sackville corner Lower Water.

STARRS & McNUTT, Paints & Oils 144 Upper Water street.

long ago as in 1863, it was shown in the official Annual Report of the Chief Gold Commissioner (Mr. Hamilton) that by carefully comparing the gold mining statistics of the countries above named, and by comparing the amount of gold produced with the labor and expense required to produce it,—which is the only reliable way to exhibit the paying properties of a single mine, or of a mining country, the gold mines of Nova Scotia were by far the most profitable of any in the world. The operations in 1863 were of a very crude character, and most of the men engaged at mining were mere tyros at the business. Since then, by more skilful manipulation and deeper sinking, the productiveness of the Nova Scotia gold mines has, in comparison with the labor expended upon them increased about three hundred per cent, thus placing them far before any other auriferous quartz mines in the world.

Before proceeding to refer to them more in detail, one or two further more general remarks may be made. Considering the great comparative productiveness of the Nova Scotia mines, the small aggregate results which they annually produce even yet, may surprise and be unexplainable to many a one. In fact it would seem that the very propinquity of Nova Scotia to the great centres of the more civilized population of the world militates against the activity of mining enterprises here,—so true is it that “distance lends enchantment to the view.” Again, when a man from Europe, Canada, or the United States, goes to the Australian colonies, or the Pacific coast, with mining purposes, it often happens that his exhausted means will not permit of his return and he must therefore *per force* contribute to the swollen gold returns of the country in which he finds himself. As to Nova Scotia, his entrance and his exit are always easy and inexpensive. One other fact may here be mentioned incidentally. Gold mining is an exciting business, and gold miners are an excitable people. For example, a thousand men may be mining, with well established facilities for doing so, and with good profits, in a certain district. A rumor reaches them that a rich vein has been struck by somebody, it may be in some wilderness, in some remote part of the Province. Upon this mere rumor, our well-doing miners, or a great part of them, are straightway off “on the wings of the wind,” to battle with new difficulties on this new *Dorado*. Many of them probably find, or *think* they find, that their imaginations have deluded them, and return to their first love, or go farther in search of newer and richer gold fields. Thus there is an almost constant fluctuation in the actual productiveness of any given gold district, and a perpetual surging of the mining population from one such district to another. This same fact is notorious in all gold mining countries; and it often puzzles the uninitiated in their efforts to ascertain the relative value of gold districts.

We will now give some brief account of the several districts of the

STARBS & McNUTT, Builders' Hardware, 144 Upper Water street.

Province, *seriatim*, proceeding from west to east. The most western point at which gold has been found is at *Cranberry Head*, the western extreme of Nova Scotia. Its show of gold was not discouraging; but little has ever been done there in the way of mining.

Although gold has been discovered at several intermediate points, the next place where mining has been carried on is *The Ovens*, at the mouth of Lunenburg harbor, and directly upon the sea shore. This district is so called from a series of oven-like caverns in the face of the seaward cliff; and it may be reached from Halifax either by four or five hours steaming, or a day's stage-coaching. This was among the earliest gold discoveries in Nova Scotia. So long ago as 1862, a great concourse of people hurried to the spot, and a compact and not unsubstantial village immediately sprung up there. It embraced numerous hotels, shops and dwellings, but lacked the one essential edifice of a quartz crusher. In fact, it was at first supposed that the wealth of the Ovens district consisted in the sands of its shores; and when these ceased to be productive to the washer the village collapsed. Mining has been recently recommenced here with vigor and fair prospects. Here, unlike many other districts, the auriferous veins are very narrow, although extremely numerous, and *ramified* throughout the enclosing rock.

Waverley is situated in and on both sides of the Shubenacadie valley, nearly due North from Halifax, whence it may be approached, *via* Dartmouth, by a charming drive of ten miles. The distance by railway is a little greater. This district, like all others in the Province, and as shown above, has had its fluctuations. On the first discovery of gold there, there was a great rush to the hills of Waverley, then an almost total abandonment; anon a reaction after which this Province for years took the lead of all others. The mines of this district have, down to the present time, produced the largest aggregate yield of gold of any in Nova Scotia, and have built up in their midst a picturesque little village, bathed by two connecting lakes, embosomed in green hills and dotted with pretty islets.

Proceeding northwardly from Waverley, by the main-line of railway, for about ten miles, we reach Enfield Station, whence a road leads, on the one hand, eastward about three miles, to the heart of the *Oldham* Gold District; and on the other hand, north-westward six miles, into that of *Renfrew*. Coaches ply between each of them and the Station on the arrival of every train. In Oldham, as in most other mining districts of this Province, the discovery of gold was, in the first instance, accidental, being made in this case by a party of men who were out sporting among the poplar hills, barrens, and wild meadows of that vicinity. Mining was immediately commenced, and for some time prosecuted with vigor. During this early period a small quantity of quartz was crushed, which produced no less than one hundred ounces of gold to the ton. Then attention was drawn away from Oldham by brilliant accounts

STARRS & McNUTT, Ironmongery, 144 Upper Water Street

from other parts of the Province, and, for a time, it remained under a cloud. There has since been a revival there, however, and during the last two years the returns from this district as a whole have been more satisfactory than during any former period. It now comprises all the facilities for mining and crushing at a cheap rate.

Ground was first broken, with mining intent, in *Renfrew*, in the midst of a piece of heavily timbered forest which, however, is fast disappearing and exposing most literally the nakedness of the land. Beneath that rocky surface lies untold mines of wealth; and the wealth of the district requires only to be dug for or sought after to be found. From the very first discovery made in this district, *Renfrew* has continued to prosper—not, however, without the customary fluctuations, although it has not suffered from them in a marked degree. Even in this case the writer may, as an illustration of these “customary fluctuations,” mention this fact:—In 1865, *Renfrew*, one of the oldest districts in the Province, ranked as a gold producer the lowest among them all with one exception, which did not admit of a fair comparison. The *Renfrew* mines were by most persons declared to be “played out.” But the product of the district for 1867 was nearly twelve times that of 1865, and placed it at the very head of the list; whilst in 1868, the official returns show that only one other district has produced a larger yield of gold.

Still farther down the railway to *Shubenacadie* Station, and across country eastward about six miles on a good common road, we may reach *Gay's River* Gold District. Here mining operations have, as yet, been carried on only upon a limited scale. The auriferous deposit is chiefly remarkable from the fact that the gold is found, not in the sands, as in a very few other localities, nor in a matrix of quartz and slate rock, as is the rule in *Nova Scotia*, but scattered through a bed of coarse conglomerate, resting upon the older and firmer rock.

Returning by railway from *Halifax*, or say to the *Windsor* junction only, we may take the *Windsor* Branch line and follow it northward to *Mount Uniacke* Station, twenty-six miles from *Halifax* and nineteen from *Windsor*. Here an express is ready on the arrival of every train to take the passengers to the centre of the *Uniacke* Gold District, three miles distant to the westward. Gold was first discovered here in 1866; but it was late in the season before any productive workings were opened. Still the prospects were so exceedingly promising that within three months after the discovery there was already more ground under lease and license at *Uniacke* than at any other district in the Province. The result has fairly justified the popular opinion. *Uniacke*, although the youngest tried field in the Province, has proved to be one of the richest of them all. In fact some of the individual mines there have excelled all others yet worked. Somewhat within two years from the time gold was first discovered there in the midst of a heavily timbered forest, the visitor might see a bustling village, with its five effective

STARBS & MONUTT, Axes and Edge Tools, Upper Water street.

steam quartz mills, public hall, well filled school, with the usual proportion of shops, inns, and dwellings—all rough indeed, but tidy and comfortable.

Return we now again to Halifax and, by coach, take the eastern shore road through Dartmouth. At six miles distant from town, we have the Montague mines on our left. This district has great advantages of situation; it offers good facilities for mining; its returns, although not so great as from some other mines, have been singularly equable from the very beginning, and always such as would pay the proprietor well; yet, from some cause or another, certainly not attributable to the place itself, there is occasionally a collapse at the Montague mines.

A few miles farther brings us to the *Lawrencetown*, on our right. The principal works here, thus far, are near the head of tidewater. This district, like Montague, already mentioned, and Tangier, of which hereafter, has been very unfortunate. Although each of the three has furnished good, nay *handsome* returns, whenever work really has been done upon it in good faith; yet disputes and litigation among proprietors, or the detected efforts of speculators, who have sought to inflate the value of their really good property to an almost fabulous extent in order to deceive those whom they have intended to make purchasers, or the fact of such of the ground falling into the hands of men who had not means to work it—or rather all these together, have too frequently caused a suspension of work in these districts, and temporarily blasted their reputation.

Following the same road, which, by the bye, affords an almost continuous series of beautiful sea-side views, for fifty-six miles from Halifax we find ourselves at *Tangier*, the oldest proclaimed gold district in the province. The chequered history of this district has already been referred to. Yet there is not the shadow of a doubt of what thousands of us have had personal evidence, *i. e.*, that it is one of the richest gold districts in the country. In the northern part of this district, and about nine miles back from the shore, is the spot where gold was first discovered in Nova Scotia, in the Spring of 1860. Large quantities have since been extracted from the vicinity of the same spot.

To reach the more notable gold-bearing districts farther east in the vicinity of the St. Mary's River and Country Harbor, it will be necessary to return again to Halifax. During the excitement of 1862, the second year of the history of these mining districts, two steamers plied—twice a week each—between Halifax, the Ovens, Tangier and St. Mary's; but they were not long in killing each other. If the passenger now wishes to make the water trip between any of these points, he must be content with a packet schooner. There are several land routes to the places last named; but the most generally approved just now is this: Take the railway train from Halifax to New Glasgow; thence a stage-coach proceeds by the most direct route to Sherbrooke and Wine Harbor. The former lies on both sides of the St. Mary's, twelve miles from its

STARRS & McNUTT, House Furnishing Hardware, Upper Water street.

mouth, and at the head of navigation. Wine Harbor is just eastward of its mouth. This beautiful river, St Mary's, is the largest in Nova Scotia, although, owing to its tides, the Shubenacadie is navigable to a greater distance. Stormont can only be reached by private conveyance, striking off from the St. Mary's and Guysborough post road.

Sherbrooke mines lie around the beautiful village of the same name; but the principal works are upon the opposite, or western side of the river, and at about a mile and a half distance. The first discovery of gold, both here and at Wine Harbor, was made in the summer of 1861. During the remainder of that, and all of the following year, there used to be, about every month or two, a pretty general migration of miners back and forth between these two districts, according to the discouraging incidents or brilliant prospects which the superficial workings of each were supposed from time to time to exhibit. At length experience and deeper sinking taught these people that both were rich enough to make fortunes out of. Since about the close of 1863, Shorbrooke has continually improved as a gold producing district, until we find that at the close of the year, 1868, it was at the very top of the list. Works here too are carried on upon a more extensive scale than elsewhere, there being no less than ten quartz crushers in the district. There too are to be found the richest individual mines that have yet been discovered in Nova Scotia, except in Uniacke district.

Reference has already been made to Wine Harbor, bounding upon St. Mary's river on the east. For years there was a contest between this district and Sherbrooke, for the credit of producing the greatest quantity of gold, annually. Sometimes one, sometimes the other, was either the first or the second on the list. Of late Wine Harbor has been distanced. This may be owing in a large degree to the fact that, for some years past a number of the proprietors have almost concentrated their efforts upon a large work which was not expected to be productive in itself, but which it is hoped will lead to important future results. That is, starting from near the water's edge, near highwater mark, there is a tunnel across the metals right into a lofty hill, thus providing for drainage, and cross cutting all the quartz lodes previously sought for from the surface.

The shores of Isaac's Harbor are the only part of Stormont district where such mining has ever been done. This place has never been so much the rage as some of the others named above, probably owing to its comparative inaccessibility; but a fair, profitable business in gold mining has been done there, from 1861 down to the present time.

The above named localities comprise all the best known and thoroughly tested Gold Districts of Nova Scotia. There are others which have not been so thoroughly tested and some of which are far from being easy of access as yet. Among the more notable of this class, mention may be made of Gold River, at the head of Mahone Bay, in Lunenburg County; Ekum-Sekum and Salmon River, on the Atlantic coast, east-

STARRS & McNUTT, GLASS & PUTTY, 144 Upper Water street.

ward of Tangier; the rear of Upper Musquodoboit; the south Branch of Stewiacke; Killag, and Fifteen Mile Stream, branches of the Sheet Harbor Rivers; Scraggy Lake; Canso; River Denys, in Inverness County; and Wagmatkook, in Victoria County. Doubtless there are many others yet to be discovered. Of the increasingly profitable character of Gold mining in Nova Scotia, there cannot be a doubt. One simple fact alone will settle this beyond all question. The first year when complete statistical returns were made up and published was 1863. The gold product of that year was equivalent to two hundred and ninety-six dollars—\$296 per annum for every man employed in and about the mines. This proportion has gone on steadily increasing until, in 1867, it had attained the sum of seven hundred and sixty-five dollars, \$765 per man. 1868 shows some falling off in this respect owing to the number of miners, who, with that restlessness which is characteristic of them, left the older mines to make more rapid fortunes in some of the many new places discovered.

At the entrance to the Museum in the new Provincial Building, there is a gilded Pyramid which was constructed for the Paris Exhibition of 1867 by P. S. Hamilton, Esq., then Commissioner of Mines, intended to represent the whole quantity of gold extracted from the various mines of the Province from 1862 to 1866. The Pyramid is six feet high. Dr. Honeyman raised it upon a cube 16 inches, to represent the quantity from September, 1866 to 1868 and subsequently an addition of the same, a base of fifteen inches added, to represent the quantity extracted from September, 1868 to January, 1870.

The Representation will at once convey to the popular eye the extent of the volume of gold extracted; but the following extract from the Report of the Hon. R. Robertson, Commissioner of Mines, under date the 10th January, 1871, gives the official Statistics on the subject, and may therefore be relied upon.

“In a review of the gold mining for the year we find that Stormont, Wine Harbor and Sherbrooke, have each returned more gold than in the year 1869; and Tangier, Oldham and Montagu, more than in any year previous. The other districts show a falling off. The increase in the whole over that of 1860 is 1998.04.11. There has not been that improvement in the appliances for amalgamating that I expected; in fact there has been no improvement. The flowered mercury, sulphites and pyrites, are all allowed to escape with the tailings, with whatever amount of gold they may happen to carry; and while this is the case gold mining cannot be carried on in any but the richest places. Every penny weight saved, and every dollar of expense reduced per ton, in mining and reducing, largely increases the breadth of ground that can be worked; and that this breadth will be increased here, as well as in Australia, and other places, cannot be doubted, when we see the amount that has been obtained, and the yield per ton, namely, 230,460 tons, yielding 177,549.00.19, being within a fraction of 15 dwts. per ton, and

STARBS & McNUTT, Ironmongery, 144 Upper Water street.

at \$19 per ounce, amounts to \$3,373,431. The following are the items:

G. W. KNOTT.

The Acadia Coal Co.

OF

NOVA SCOTIA.

The undersigned is prepared to contract for the sale of the above Company's superior

Steam, Manufacturing and House Coals,

deliverable free on board vessel, at the Company's wharf, in Pictou Harbor, or at any Station on the Nova Scotia and Windsor and Annapolis Railways.

The Acadia Steam Coal is durable, free from Sulphur, makes no Clinker, and is not injurious to fire surfaces.

The House Coal burns with a bright flame, makes no soot, and but little ash, is entirely free from Sulphur, and does not throw off unhealthy fumes while burning. Especially adapted for Cooking Stoves and Ranges, and can be used for broiling and toasting instead of charcoal.

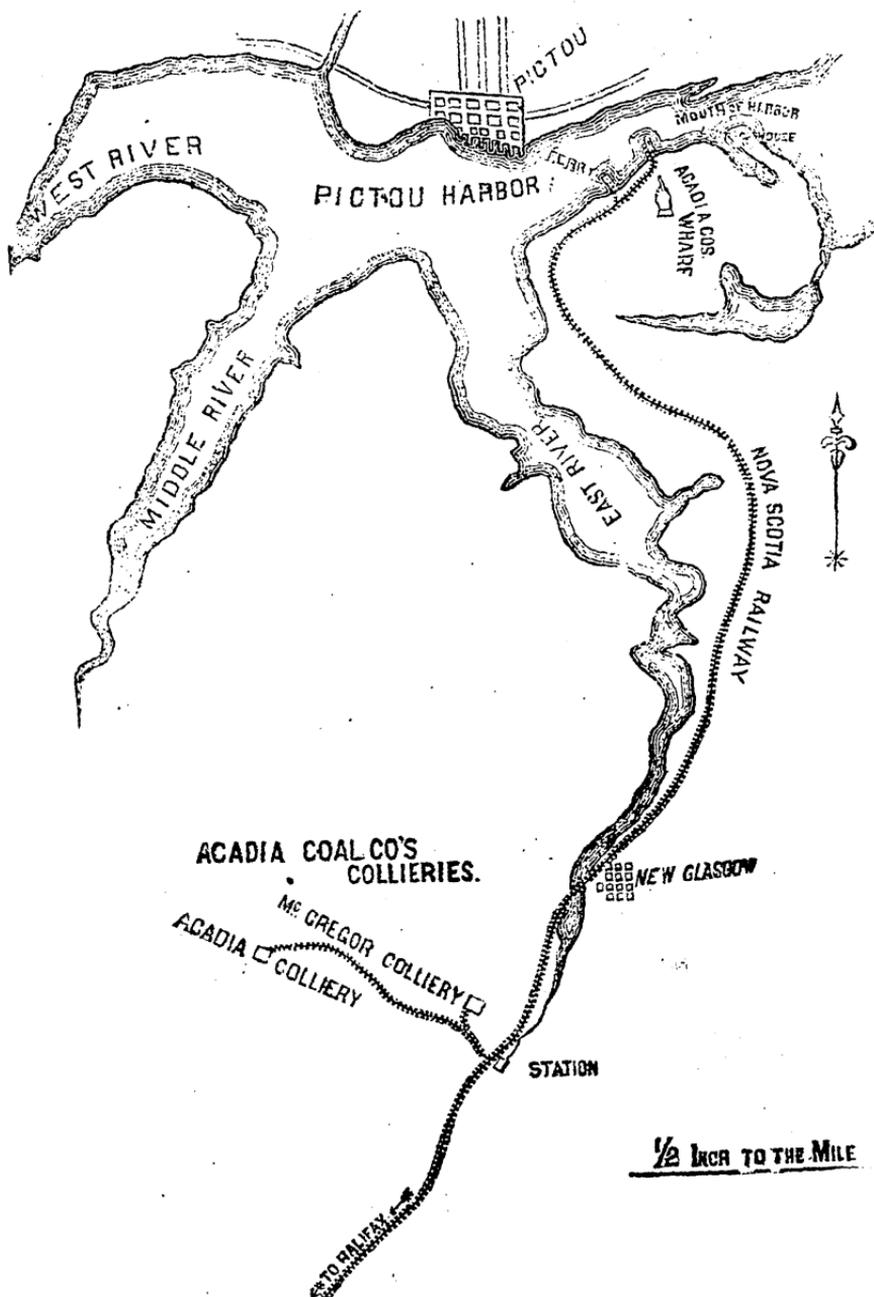

Post Office Address:

JESSE HOYT,
GENERAL AGENT,

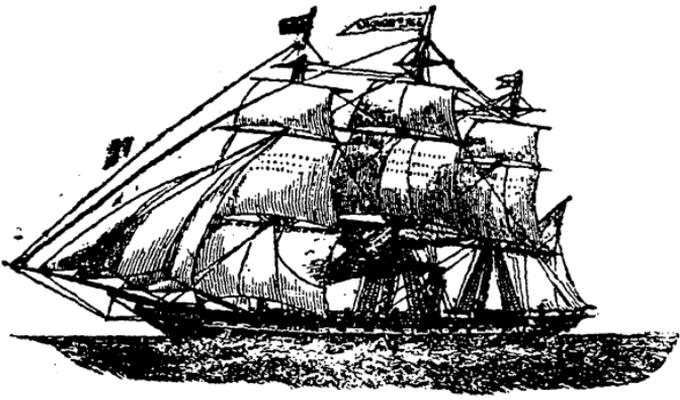

STELLARTON,
PICTOU COUNTY, N.S.

Map of Pictou Harbor,

WITH POSITION OF ACADIA COAL COMPANY'S MINES AND WHARF.

Wharf—900 feet long—extends to the channel, with 22 feet of water at low tide.
 Near the mouth of the harbor and easily approached without the aid of a pilot or steam-tug.
 can be discharged at the wharf.

“THE CITIZEN.”

Tri-weekly \$2.50, Weekly \$1.00, in advance.

The “Citizen” is distinguished for its able Editorials, the most reliable Commercial Reports, the fullest Telegraphic despatches, full Local News, latest and best Shipping Intelligence, the fullest Current News, affording to the reader each morning of publication a complete synopsis of contemporary events throughout the world.

As an advertising medium the Citizen is equal, if not superior, to any other paper in Halifax. The circulation of its combined editions has reached a point never before approached by any paper published in the Province.

IN PRESS :

To be Published in September, 1873 :

LOVELL'S

Gazetteer of British North America.

This GAZETTEER will contain the latest and most authentic descriptions

OF

SIX THOUSAND CITIES, TOWNS, AND VILLAGES,

IN THE PROVINCES OF

*Ontario, Quebec, Nova Scotia, New Brunswick, Newfoundland,
Prince Edward Island, Manitoba, British Columbia,
And the North West Territories ;*

And general information, drawn from official sources, as to the names,
locality, extent, &c., of over

FIFTEEN HUNDRED LAKES AND RIVERS ;

WITH A

TABLE OF ROUTES,

Showing the proximity of the Railroad Stations, and Sea, Lake and
River Ports, to the Cities, Towns, Villages, &c., in the several Provinces.

The Work will be carefully compiled, and the Publisher feels confident it will be found worthy of a liberal patronage.

Price in Cloth	-	-	-	-	-	\$2.50

A. C. COGSWELL, D.D.S.

Surgeon  Dentist.

105 HOLLIS STREET,

NEAR HALIFAX AND INTERNATIONAL HOTELS,
HALIFAX, N.S.

ARTIFICIAL TEETH.

Entire, or parts of Sets, Plain Gum, Single, or Block Teeth, on Gold, Silver, or Vulcanite.

TEETH FILLED with Gold, Amalgam, or White Fillings.

TEETH REMOVED with or without Condensed Nitrous Oxide Gas, a safe and reliable agent, having been administered in this Office to over 2000 patients.

SPECIAL NOTICE.

Many persons are constantly calling and desiring Dental operations at a *reduced price*, who *actually require the services* of a Dentist, but whose pecuniary circumstances will not permit their paying the usual fees for first-class work. In order to meet the requirements of *every one*, I have made arrangements to have *all kinds of Dental operations* done at my Office, at the following *cheap rates*.

In so doing, I desire to give every patient satisfaction; and although the work at these prices will be done *by the Students*, every case shall be carefully looked after. Parties so desiring *cheap work*, will please state the fact when making engagements, and on *completion* of work the CASH will be required for services rendered.

FILLINGS from 50 cents to 1 dol. 50 cents.

SETS and PARTS OF SETS, on Vulcanite, from 3 to 20 dols.

No charge for Removal of Teeth preparatory to Inserting Sets.

Gratis for the Poor every day from 9 a.m. to 10, except Sundays; also for the Orphans' Home, Industrial Schools, Deaf and Dumb Institute, and all inmates of such Institutions, gratis as usual.

GARDNER

Sewing Machine Company,

Manufacturers of the Celebrated

Gardner Patent Sewing Machine

The most popular Machine in the Dominion, because it is the strongest, easiest to manage, lightest running and simplest, doing away with the use of Grinding Cams, Clanking Cog Wheels, or Clattering Springs. A complete set of attachments free with every Machine. Was awarded 30 first prizes at different last year. Call and Inspect for yourself.

GEO. W. HALLS,

SHIP BROKER,

COMMISSION MERCHANT,

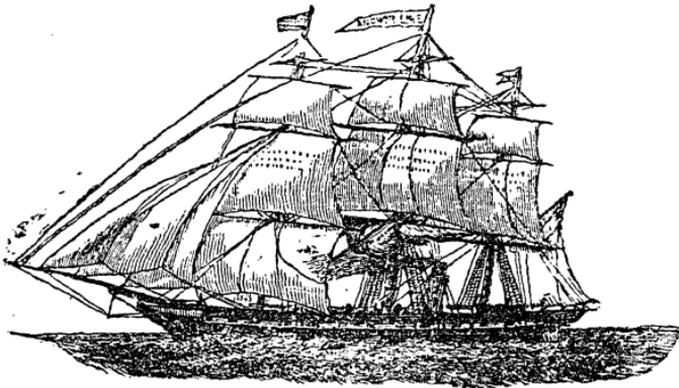

AND

Forwarding Agent,

60 BEDFORD ROW,

OFFICES—3 & 4, GROUND FLOOR,

HALIFAX, N.S.

Agent for the principal Shippers and Importers of
Deals, Coal, Oil, Lumber, Guano & Grain.

Special attention paid to the chartering of Ships, &c., for European and American Freights, for which I can always offer the highest rates in the market. Also to the selling of Lumber and other consignments.

Having a large business connection, I can execute Business intrusted to me with dispatch, and give unexceptionable references if required.

Goods received and forwarded promptly.

GEORGE W. HALLS.

LONGARD & MUIRHEAD,

No. 213 Hollis Street, Halifax, N.S.,

Plumbers, Brass Founders, Tin & Copper Smiths,

AGENTS FOR

POND'S CELEBRATED MAGIC COOKING RANGE,

Importers and Dealers in

Sheet Lead, Lead Pipe, House and Ship Water Closets, Basins,
Enameled and Copper Planished Sinks and Baths, Douglas'
Force and Brass Chamber Pumps, Copper Boilers
and Silver Plated Taps, &c., &c.

Manufacturers of Composition Rudder Braees, Spikes, Clinch Rings, Hinges and all kinds of Ship Castings of the very best material and made in the most substantial manner. In the Plumbing, Tin and Copper Smith Department, every attention given to secure satisfaction, using none but the very best material, and employing the most skilful workmen.

Pond's Magic Cooking Range can be recommended with every assurance of giving entire satisfaction. Its arrangements for Hot Water and the removal of unpleasent odour from Cooking, are most admirable, while for Baking, it cannot be excelled.

EDWARD J. LONGARD.

JOSEPH MUIRHEAD.

SUTHERLAND makes Syrups, Raspberry, Strawberry, Pine Apple and Lemon,

WILLIAMS & LEVERMAN'S

Pianoforte

MANUFACTORY,
11, 13 & 15 CARLETON ST.,
WEST END OF SPRING GARDEN ROAD.

Pianofortes, of the Cottage Style, with the most approved English Patent Check Action, manufactured at the above establishment, are equal, when the difference of climate is considered, to those of European manufacture.

This special department of workmanship being under the supervision of Mr. W. Leverman, whose long experience of 25 years has afforded him time to carefully study the great desideratum—viz., a deep rich tone, which he feels confident he has succeeded in obtaining, and only asks the public to testify the same by a personal inspection, being assured that whilst the ear will be enamoured by the sound, their eyes will admire with pleasure the artistically finished exterior of the instrument.

WILLIAMS & LEVERMAN.

N.B.—Turning and Sawing for House and Stair Builders, and the public generally, done in our usual prompt manner and on reasonable terms.

The new Base Burner "Triumph" sold by REILLY & DAVIDSON.

The Windsor & Annapolis Railway,
 AND
The BAY OF FUNDY STEAMERS,
 CONNECTING
 NOVA SCOTIA & NEW BRUNSWICK
 IS THE
CHEAPEST AND MOST EXPEDITIOUS ROUTE
 BETWEEN
HALIFAX and ST. JOHN.

Passengers by this route can leave Halifax in the morning and proceed from St. John the same day by Western Extension Railway Trains with Pullman Parlor and Sleeping Cars, for PORTLAND, BOSTON, and all parts of the UNITED STATES and CANADA.

Connection is also made at St. John with the Steamers of the INTERNATIONAL STEAMSHIP COMPANY for EASTPORT, PORTLAND and BOSTON.

Stages connect at Annapolis for Digby, Yarmouth and Liverpool, N. S.

The Railroad runs through the valley of Acadia and the magnificent scenery made celebrated in the story of "Evangeline."

Through Tickets and every information can be had at the Company's Office, 126 Hollis Street

P. INNIS, Manager.

 STARRS & McNUTT, Paints and Oils, 144 Upper Water street.

IN PRESS:

To be Published in September, 1873:

LOVELL'S

Gazetteer of British North America.

This GAZETTEER will contain the latest and most authentic descriptions

OF

SIX THOUSAND CITIES, TOWNS, AND VILLAGES,

IN THE PROVINCES OF

*Ontario, Quebec, Nova Scotia, New Brunswick, Newfoundland,
Prince Edward Island, Manitoba, British Columbia,
And the North West Territories;*

And general information, drawn from official sources, as to the names,
locality, extent, &c., of over

FIFTEEN HUNDRED LAKES AND RIVERS;

WITH A

TABLE OF ROUTES,

Showing the proximity of the Railroad Stations, and Sea, Lake and
River Ports, to the Cities, Towns, Villages, &c., in the several Provinces.

The Work will be carefully compiled, and the Publisher feels confident it will be found worthy of a liberal patronage.

Price in Cloth	-	-	-	-	-	\$2.50

APPENDIX.

THE ROYAL FAMILY.

HER MOST EXCELLENT MAJESTY (ALEXANDRINA) VICTORIA, by the grace of God of the United Kingdom of Great Britain and Ireland, and of the colonies and dependencies thereof in Europe, Asia, Africa, America, and Australia, Queen, Defender of the Faith. Her Majesty was born at Kensington Palace, May 24, 1819; succeeded to the throne June 20, 1837, on the death of her uncle King William IV. was crowned June 28, 1838, and married Feb. 10, 1840, to His Royal Highness Prince Albert. Her Majesty is the only child of his late Royal Highness Edward Duke of Kent, son of King George III. The children of Her Majesty are:—

Her Royal Highness Victoria-Adelaide-Mary-Louisa, PRINCESS ROYAL OF ENGLAND AND PRUSSIA, born November 21, 1840, and married to His Royal Highness Frederick William of Prussia, January 25, 1858, and has issue five sons and three daughters.

His Royal Highness Albert-Edward PRINCE OF WALES, born November 9, 1841; married March 10, 1863, Alexandra of Denmark (Princess of Wales), born December 1, 1844, and has issue three sons and three daughters: Prince Albert-Victor-Christian-Edward, born Jan. 8, 1864; Prince George-Frederick-Ernest-Albert, born June 3, 1865; Princess Louise-Victoria-Alexandra-Dagmar, born Feb. 20, 1867; Princess Victoria-Alexandra-Olga-Mary, born July 6, 1868; and Princess Maud-Charlotte-Mary-Victoria, born Nov. 26, 1869.

Her Royal Highness Alice-Maud-Mary, born April 25, 1843; married to H.R.H. Prince Frederick-Louis of Hesse, July 1, 1862; and has issue one son and four daughters.

His Royal Highness Alfred-Ernest-Albert, Duke of Edinburgh, born August 6, 1844.

Her Royal Highness Helena-Augusta-Victoria, born May 25, 1846; married July 5, 1866, Prince Frederick-Christian of Schleswig-Holstein, and has issue two sons and one daughter.

H.R.H. Louisa Alberta, born March 18, 1848; married March 21, 1871, Marquis of Lorne.

His Royal Highness Arthur-William-Patrick-Albert, born, May 1, 1850.

His Royal Highness Leopold-George-Duncan-Albert, born April 7, 1853.

Her Royal Highness Beatrice-Mary-Victoria-Feodore, born April 14, 1857.

George-Frederick-William-Charles, K.G., DUKE OF CAMBRIDGE, cousin to Her Majesty, born March 26, 1819.

Augusta-Wilhelmina-Louisa, DUCHESS OF CAMBRIDGE, niece of the Landgrave of Hesse, and aunt to Her Majesty; born July 25, 1790; married in 1819, the late Duke of Cambridge.

George-Frederic-Alexander-Charles-Ernest-Augustus, K.G., DUKE OF CUMBERLAND, EX-KING OF HANOVER, cousin to Her Majesty; born May 27, 1819; married Princess Frederica of Mecklenburg-Strelitz, and has issue a son and two daughters.

Augusta-Caroline-Charlotte-Elizabeth-Mary-Sophia-Louisa; daughter of the late Duke of Cambridge, and cousin to Her Majesty; born July 19, 1822; married June 28, 1843, to Frederick, Grand Duke of Mecklenburg-Strelitz, and has a son.

J. B. JENNETT & CO., Importers of Glass and Earthenware, 174 & 176 Granville st.

Mary-Adelaide-Wilhelmina-Elizabeth, daughter of the late Duke of Cambridge, and cousin to Her Majesty; born November 27, 1833; married June 12, 1866, Francis Paul, Prince of Teck, and has issue one son and one daughter.

Leopold II, KING OF THE BELGIANS, maternal cousin of the Queen, born April 9, 1835.

HOUSE OF COMMONS.

Table of Precedence within the Dominion of Canada.

1. The Governor-General or Officer administering the Government.
2. The Senior officer commanding H. M. troops within the Dominion, if of the rank of a General, and the officer commanding H. M. Naval Forces on the B. N. A. Station if of the rank of an Admiral. Their own relative rank to be determined by the Queen's Regulations on the subject.
3. The Lieutenant-Governor of Ontario.
4. The Lieutenant-Governor of Quebec.
5. The Lieutenant-Governor of Nova Scotia.
6. The Lieutenant-Governor of New Brunswick.
7. Archbishops and Bishops according to seniority.
8. Members of the Cabinet according to seniority.
9. The Speaker of the Senate.
10. The Chief Judges of the Courts of Law and Equity according to seniority.
11. Members of the Privy Council, not of the Cabinet.
12. General Officers of H. M. Army serving in the Dominion, and Officers of the rank of Admiral in the Royal Navy, serving on the B. N. A. Station, not being in the chief command, the relative rank of such officers to be determined by the Queen's Regulations.
13. Members of the Senate.
14. Speaker of the House of Commons.
15. Puisné Judges of Courts of Law and Equity according to seniority.
16. Members of the House of Commons.
17. Members of Executive Council (Provincial) within their Province.
18. Speaker of Legislative Council within his Province.
19. Members of Legislative Council.
20. Speaker of Legislative Assembly.
21. Members of Legislative Assembly.

Table of Titles.

Governor-General of Canada to be styled "His Excellency."
 Lieut-Governors of Provinces to be styled "His Honor."
 Privy Councillors of Canada to be styled "Honorable," and for life.
 Senators of Canada to be "Honorable," but only during office, and the title not to be continued afterwards.
 Executive Councillors of the Provinces to be styled "Honorable," but only while in office, and the title not to be continued afterwards.
 Legislative Councillors in the Provinces not in future to have that title; but gentlemen who were Legislative Councillors at the time of the Union (July 1, 1867) to retain their title of "Honorable" for life.

STARRS & McNUTT, Paints and Oils, 144 Upper Water street.

The President of the Legislative Council and Speakers of the Legislative Assemblies in the Provinces, to be styled "Honorable" during office.

PROVINCE OF NOVA SCOTIA.

The Province of Nova Scotia is divided into Nineteen Regimental Divisions comprised within three Brigade Divisions. The Boundaries of such Regimental Divisions are identical with the Electoral Divisions into which the Province is divided, with the following exceptions, viz.: the City of Halifax and County of Halifax, each to form one Regimental Division.

The Brigade Divisions are numbered from One to Three, and embrace the following Regimental Divisions for each respectively :

MILITARY DISTRICT No. 9.

Colonel J. W. Laurie, Major C. J. Macdonald.

Head-Quarters, Halifax, N.S.

First Brigade Divisions.

Shingle bolts, per cord of 128 cubic feet, 1 dol.; Stave bolts, per cord of 128 cubic feet, 1 dol.; Oak logs, per 1000 feet, 2 dols.; Spruce logs, per 1000 feet, 1 dol.; Pine logs, per 1000 feet, 1 dol.

There shall be raised, levied, collected, and paid on the following articles when imported into Canada, or taken out of warehouse for consumption therein, the several duties of customs set opposite to them respectively, that is to say:—

Cigars, 45 cents per lb; Coal and coke, 50 cents per ton; Salt (except salt imported from the United Kingdom or any British Possession, or imported for the use of the Sea or Gulf Fisheries, which shall be free of duty), 5 cents per bushel of 56 lbs; Hops, 5 cents per lb; Vinegar and acetic acid, 10 cents per gal; Rice, 1 cent per lb; Wheat, 4 cents per bush; Peas and beans and barley, rye, oats, Indian corn, buckwheat, and all other grain, except wheat, 3 cents per bush; Flour of wheat and flour of rye, 25 cents per barrel; Indian meal and oatmeal, and flour or meal of any other grain except wheat and rye, 15 cents per barrel.

Spirits and strong waters, not having been sweetened or mixed with any article so that the degree of strength thereof cannot be ascertained by Syke's Hydrometer, for every gallon of the strength of proof by such hydrometer, and so in proportion for any greater or less strength than the strength of proof, and for every greater or less quantity than a gallon, namely:

Brandy, Geneva, alcohol, rum, gin, including Old Tom, tafia, whisky, and unenumerated articles of the like kind, 80 cents per gallon.

Other spirits being sweetened or mixed so that the degree of strength cannot be ascertained as aforesaid, namely;—

Rum-shrub, cordials, Scheidam, schnapps, bitters, and unenumerated articles of like kind, 1 dol 20 cents per gal; Cologne water and perfumed spirits, not in flasks, 1 dol. 20 cents per gal; Cologne water and perfumed spirits, when in flasks or bottles, thirty of such flasks or bottles not containing more than one gallon, for each flask or bottle, 4 cents; Unenumerated spirits and strong waters, 1 dol 20 cents per gal.

Spirits and strong waters imported into Canada, mixed with any ingredient or ingredients, and although thereby coming under the denomination of proprietary medicines, tinctures, essences, extracts, or any other denomination, shall be nevertheless deemed "spirits or strong water," and subject to duty as such.

Fruits preserved in brandy or other spirits, 1 dol 20 cents per gal.

Excise Duties.

Beer, brewed in whole or in part from any other substance than malt, $3\frac{1}{2}$ cents per gal; Cigars, 30 cents per lb; Malt, 1 cent per lb; Petroleum 5 cents per gal; Petroleum Inspector's fees—packages over 20 gals, 10 cts. per pkge; Petroleum Inspector's fees—packages under 20 gals, $\frac{1}{2}$ cent per gal; Spirits 63 cents per gal; Tobacco and Snuff, 15 cents per lb.

Licenses.

Bonded manufacturers, annually, 50 dols; Brewers, annually, 50 dols; Distillers or rectifiers, annually, 250 dols; Maltsters, under 25,000 lbs annually, 100 dols; Maltsters, 25,000 to 100,000 lbs annually, 150 dols; Maltsters 100,000 lbs and upwards, annually, 200 dols; Tobacco manufacturers, annually, 50 dols.

Articles manufactured in bond pay same duty as would be paid to Customs were such articles imported.

Stamp Duties.

Bill stamps are of the denominations of 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 20, 30, 40 and 50 cents, and 1 dol., 2 dol and 3 dols. They are to be affixed to bills of exchange, drafts and promissory notes, as under:—

Note or bill for	Singly.	Duplicate, each part	Triplicate, each part.
Over 25 dols	1 cent	1 cent	1 cent
25 to 50 "	2 "	1 "	1 "
50 to 100 "	3 "	2 "	1 "
100 to 200 "	6 "	4 "	2 "
200 to 300 "	9 "	6 "	3 "
300 to 400 "	12 "	8 "	4 "
400 to 500 "	15 "	10 "	5 "
500 to 600 "	18 "	12 "	6 "

and so on.

The person affixing the stamps is required in all cases to cancel it by writing or stamping thereon the date, which must correspond with the date of the instrument to which it is affixed.

Office Hours from 6 a. m., to 9.30 p. m.

Mails for the UNITED KINGDOM are closed finally every alternate Tuesday, at 10 a. m. Late letters, for United Kingdom only, may be posted up to 11, a. m., to be paid by stamp, 6 cents additional. Newspapers 2 cents each, must be paid by stamp. Unpaid letters are taxed 6 cents additional. Letters to Imperial Public Departments are exempt from prepayment.

	c	$\frac{1}{4}$ oz	$\frac{1}{2}$ oz	$\frac{3}{4}$ oz	1 oz.
Postage on letters	{ France.....	10	16	26	32
<i>via</i>	{ Malta.....	16	16	32	48
United Kingdom to	{ India.....	22	22	64	66
	{ Spain.....	16	28	44	56
	{ S. or W. Australia.....	16	16	32	48

Mails for the United Kingdom *via* the United States, are made up to meet steamers leaving New York for Liverpool. Letters to be especially addressed "*via New York.*" Letters 8 cents, newspapers 2 cents. *Must be prepaid.*

Mails for NEWFOUNDLAND are made up *once a month* in December, January, February and March, and *fortnightly* in the other months, closing *finally* on the Monday, at 8 a. m., after the R.M. Steamer from England is due. In Winter from Halifax, in summer from Pictou.

Letters 12 $\frac{1}{2}$ cents, newspapers 2 cents. *Must be prepaid.* Mails for St. PIERRE and MIQUELON are forwarded *via* Sydney in summer; in winter are despatched from Halifax by French sailing packets *fortnightly*. Letters 3 cts, newspapers 2 cents. *Must be prepaid.*

Mails for BERMUDA and the British and Foreign West India Islands are closed every fourth Monday at 10, a. m. Letters postage to Bermuda 6 cents, West Indies 12 cents; newspapers 2 cents. *Must be prepaid.*

Mails for United States are made up daily via Amherst, per steamer Falmouth to Portland once a week, and via Annapolis per Empress twice a week during summer, and by Boston and Colonial steamers direct to Boston once a week. Mails for Quebec and Ontario are sent by each of these routes except the latter.

Official letters addressed to the Provincial and Military Departments are exempt from payment.

Registered letters for the Provincial Public Departments, addressed to Halifax, can be sent without prepayment of postage or registry fee.

REGISTRATION.—Letters for registry must be posted half an hour previous to the closing of the mail by which they are to be sent. The postage as well as the registration fee *must be prepaid.* The registration of a letter addressed to any place in Nova Scotia or the Dominion, Newfoundland or P. E. Island, is 2 cents, to the United States 5 cents, to the United Kingdom 8 cents, to Australia and all other places, when passing through the United Kingdom 16 cents. No registered letters forwarded between two way offices.

Registration is applicable to all descriptions of letters and parcels, whether they contain articles of value or not. Registration is not an absolute guarantee against the mis-carriage or loss of a letter; but a registered letter can be traced when one unregistered cannot, and the posting and delivery or non-delivery can be proven. A registered letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an unregistered letter. "Moreover the safety of an unregistered letter is dependent on the integrity of a post-office clerk during the whole time it remains in his custody, frequently for hours, and even days; whilst a registered letter will almost invariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal. If the consequences were limited to the mere risk of the loss of the money so sent, the senders of money in unregistered letters might reasonably urge, that if they choose to encounter the risk they should be free to do so; but higher considerations are involved in the question,

and the chance of loss to the careless remitter is really but the smallest part of the evil associated with the practice." The attentive perusal of the above remarks by those who are in the habit of sending money by mail in unregistered letters is strongly recommended, and it is further suggested that letters containing money should invariably be secured with *wax*, and not by the usual method, by mucilage; or self-sealing envelope.

Letters *pre-paid* by stamp dropped into the box during the night, and up to 4 a.m., will be forwarded by the mails dispatched the same morning.

Tri-daily mails to and from Dartmouth, postage 3 cts. If unpaid 5 cts.

All letters are charged by weight, irrespective of distance, and a uniform rate of postage of 3 cts per $\frac{1}{2}$ oz has been established throughout the Dominion of Canada. The rates of postage mentioned all refer to a single letter. If it exceeds the $\frac{1}{2}$ oz it is charged double, and so on according to weight.

Ship letters 5 cts. Letters for consignees free.

Principal rates of Postage.

LETTERS—On letters passing between any two places within the Dominion of Canada, a uniform rate (irrespective of distance) of 3 cents per $\frac{1}{2}$ oz if prepaid and 5 cents per $\frac{1}{2}$ oz if posted unpaid.

On letters between any place in the Dominion and any place in the United States—

6 cent^s per $\frac{1}{2}$ oz if prepaid.
10 cents do if posted unpaid.

On letters to or from the United Kingdom, in mails by Canada packets, to or from Quebec in summer or Portland in winter; or by mail packet to or from Halifax, 6 cents per $\frac{1}{2}$ oz.

On letters to Prince Edward Island, if prepaid, 3 cents per $\frac{1}{2}$ oz; if posted unpaid, 5 cents per $\frac{1}{2}$ oz.

On letters to Newfoundland, 12 $\frac{1}{2}$ cents per $\frac{1}{2}$ oz; in all cases prepaid.

On letters to Bermuda 6 cents. West Indies 12 cents. On Newspapers 2 cents each.

NEWSPAPER RATES.—Newspapers printed and published in Canada, may be sent by post from the office of publication to any place in Canada at the following rates if paid quarterly in advance either by the publisher, at the post office where the papers are posted, or by the subscriber at the post office where the papers are delivered.

For a paper published once a week, 5 cents per quarter of a year.

Do	twice	10	"	"	"
Do	three times	15	"	"	"
Do	six times	30	"	"	"

If the above rates are prepaid by the publisher, the postmaster receiving payment must be careful to have the papers so prepaid separately put up, and marked distinctly as prepaid.

When the above rates are not paid in advance, by either the publisher at the office of posting, or by the subscriber at the office of delivery, the papers are to be charged one cent each on delivery.

Canadian newspapers, addressed from the office of publication to subscribers in the United Kingdom, United States, Prince Edward Island, or Newfoundland may be forwarded on prepayment at the office in Canada where posted at the above omitted rates applicable to such papers within the Dominion.

Publishers of newspapers in Canada may post such numbers of their paper addressed to parties *within* the Dominion who are not *subscribers* at a rate of one half cent prepaid by stamp.

Exchange papers passing between publishers in Canada, and between publishers in Canada and publishers in the United States, Prince Edward Island and Newfoundland, are to pass free—one copy of each paper to each publisher.

Transient newspapers include all newspapers posted in Canada, other than Canadian newspapers sent from the office of publication; and when addressed to any place within the Dominion, to the United Kingdom, to the United States, Prince Edward Island, Bermuda, or Newfoundland, must be prepaid two cents each by postage stamp.

Newspapers coming into Canada will be subject to the following charges on delivery :

If from the United Kingdom, by mail packet to Quebec, Halifax, or Portland, free on delivery.

By mails via the United States (New York), two cents each.

If from the United States, and posted by a publisher, one cent each. Transient papers two cents each, to be rated at the Canada frontier or exchange office receiving mails from the United States

If from Prince Edward Island, or Newfoundland, when received by regular subscribers in Canada from the office of publication, the ordinary commuted rates applicable to Canada newspapers.

Transient papers, two cents each.

The Canada postage rates on newspapers coming from or going to the United Kingdom and the United States will thus be the same as those charged in the United Kingdom and in the United States on newspapers there received from or sent to Canada.

Canada news agents may post to regular subscribers in Canada British newspapers free, and the United States newspapers unpaid ; such papers, in the latter case, must be duly rated one cent each for collection on delivery.

BOOKS.—Book-packets can be forwarded by Post from Canada to the United Kingdom, Bermuda, and British West Indies, and vice versa, at the following rates :

By mail steam packet sailing from Halifax and Portland—

For each packet weighing not more than 4 oz., 1 rate, 6 cents.

Above 4 oz. and not exceeding 8 oz., 12 cents.

Above 8 oz. and not exceeding 12 oz., 3 rates, 18 cents.

Above 12 oz. and not exceeding 1 lb., 4 rates, 24 cents.

And so on, adding one rate of postage for every 4 oz.

Every book-packet must be without a cover, or in a cover open at both ends.

It must not contain any writing whatever.

It must not exceed 4 lbs in weight, nor the size exceed 2 feet in length, or 1 foot in width or depth.

Must be prepaid by stamps.

PRINTED PAPERS CIRCULARS, PRICES CURRENT, HAND BILLS, BOOKS, PAMPHLET—The rate on printed matter of this description posted in Canada and addressed to any place in Canada, Prince Edward Island, Newfoundland, or United States, will be one cent per ounce, to be prepaid by stamp ; and a like rate will be payable on delivery when received from the United States, Prince Edward Island or Newfoundland.

PERIODICAL PUBLICATIONS.—When posted in Canada for any place in Canada, Prince Edward Island, Newfoundland, or United States, the rate will be one cent per four ounces, to be prepaid by stamp.

A like rate will be payable on delivery in Canada, when received from the United States, Prince Edward Island, or Newfoundland.

Periodicals weighing less than one ounce per number, when posted in Canada for any place within the Dominion, Prince Edward Island, or Newfoundland, or the United States, may, when put up singly, pass for one half-cent per number, to be prepaid by postage stamp.

As the postage rates on periodicals, other than newspapers, will be payable in advance, and as certain classes of such periodicals, printed and published in Canada, and sent from the office of publication to regular subscribers, have for some time past been exempted from postage, when exclusively devoted to the education of youth, to temperance, agriculture, and science, or for other reasons, it has been ordered that all such special exemptions and privileges shall cease.

Parcel Post.

The rate on parcel post will be $12\frac{1}{2}$ cents per 8 oz., that is to say :—On a parcel not exceeding 8 oz., $12\frac{1}{2}$ cents. Over 8 oz., and not exceeding 1 lb., 25 cents.

Over 1 lb., and not exceeding 24 oz., 37½ cents. And so on to limit of three pounds.

Book and Newspaper Manuscript and other Miscellaneous matter.

On book and newspaper manuscript (meaning written articles intended for insertion in a newspaper or periodical, and addressed to the editor or publisher thereof for insertion, printer's proof-sheet, whether corrected or not, maps, prints, drawings, engravings, music, whether printed or written, packages of seeds, cuttings, roots, scions or grafts, and botanical specimens, the rate will be one cent per ounce, when posted for any place in Canada or the United States, and prepaid by postage stamp.

Postage Stamps.

To enable the public to prepay conveniently by postage stamps the foregoing rates, the following denominations of postage stamps for use throughout the Dominion have been prepared, and will be supplied to postmasters for sale :—

Half cent stamps,	} All bearing as a device the effigy of Her Majesty.
One cent "	
Two cent "	
Three cent "	
Six cent "	
Twelve and a half cent "	
Fifteen cent "	

Franking and Free matter.

The following matter is exempt from *Canadian postage*.

All letters and other mailable matter addressed to or sent by the Governor-General of Canada.

All letters or other mailable matter addressed to or sent by any department of the Government, at the seat of Government at Ottawa, under such regulations as may from time to time be made by the Governor in Council.

All letters and other mailable matter addressed to or sent by the Speaker or chief clerk of the Senate or of the House of Commons, or to or by any member of either House, at the seat of Government, during any session of Parliament, or addressed to any of the members or officers in this section mentioned at the seat of Government as aforesaid, during the ten days next before the meeting of Parliament.

All public documents and printed papers sent by the Speaker or chief clerk of the Senate or of the House of Commons to any member of either House during the recess of Parliament.

All papers printed by order of either House sent by members of either House during the recess of Parliament.

Petitions and addresses to either of the Provincial Legislatures of Ontario, Quebec, New Brunswick and Nova Scotia, or to any branch thereof; and votes, proceedings, and other papers, printed by order of any such Legislature or any branch thereof, during any session thereof,—provided such petitions and addresses, votes, proceedings, and other papers, are sent without covers, or in covers open at the ends or sides, and contain no letter or written communication to serve the purpose of a letter.

Letters and other mailable matter (except that provided for as above) addressed to or sent by the Provincial Governments or Legislatures of Ontario, Quebec, New Brunswick and Nova Scotia, will be liable to the ordinary rates of postage.

Public documents and printed papers sent under the foregoing clauses should bear, as part of the address, the *bona fide* superscription of the Speaker, chief clerk, or officers specially deputed for this purpose to act for those functionaries, or of the member sending the same.

The privilege of free transmission, as above described, has effect only as respects Canada postage rates.

All letters and other mailable matter to and from the Postmaster-General and the Deputy Postmaster-General, and all official communications to and from the post-office department, and to and from the post-office inspectors, are to pass free of Canadian postage.

All letters and communications on the business of the post-office department intended for the post-office department at Ottawa, should be invariably addressed to "The Postmaster-General." The branch of the department for which the letter or communication is intended should be written on the left-hand upper corner of the letter thus:—

- " For Accountant,"
- " For Secretary,"
- " For Money-Order Office,"
- " For Savings Bank Office,"
- " For Dead Letter Office,"
- " For Cashier,"

as the case may be, but the main directions must be to the Postmaster-General, or Deputy Postmaster-General.

All letters containing a remittance on account of the public revenue sent by any postmaster in Canada to a bank or bank agency, and all remittances or acknowledgment sent by a bank or bank agency on account of public revenue to any postmaster in Canada, pass free through the post, as respects both postage and registration charge.

Explanation of Signals

Made at the Ship Staff at Citadel Hill, when Vessels are seen from the Citadel or reported from an outpost

- For 1 Square Rigged Vessel, 2 balls close up, one on the outer halliard and one on the inner halliard
- " 2 Do, 1 ball hoisted on the outer halliard and 1 close up on inner halliard.
- " 3 Do, 2 balls close up, one out and one in.
- " 4 Do, 2 balls separated, and one close up on the inner halliard.
- " 5 Do, a pendant red on the outer halliard, and one ball close up inside.
- " 6 Do, a pendant under a ball close up on the outer halliard, and a ball at the inner halliard close up.
- " 7 Do, a pendant over a ball close up on the outer halliard, and a ball close up on the inner halliard.
- " 8 Do, a pendant under two balls close up on the outer halliard, with a ball close up on the inner halliard.
- " 9 Do, a pendant between two balls close up on the outer halliard with a ball close up on the inner halliard
- " 10 Do, a red flag close up on the outer halliard, with a ball close up on the inner halliard

The above balls, &c., are hoisted on the east or west yard arm, according to the quarter the vessel first appears in.

When Sailing Vessels are reported from an Outpost, the following Signals are made on the lower yard, now used exclusively for sailing vessels, as repeats :

For a Square Rigged Vessel, two balls of a size, one at the outer, the other at the inner halliard, close up.

A Ship, a large ball at the end of the yard, with a small one at inner halliard.

A Barque, a large do. at the end, with a small one dropped at inner halliard.

A Brig, small two close up with large one on inner halliard, one close up and one dropped on inner halliard.

A Brigantine, a cross close up at the outer halliard. Two or more do, a cross half hoisted.

A Topsail Schooner, a cross close up at the inner halliard.

The upper yard of the Ship Staff is used solely to designate Steam Vessels thus :

Two large balls close up, one at the outer and the other at inner halliard
 E. or W., a steamer reported in that quarter.

A small ball at the outer, and large one at the inner halliard, a second class Packet or Merchant Steamer.

A large ball at the outer, and a small one at the inner halliard, a Man-of-War Steamer, or Royal Mail Steamer, or large Merchant Steamer.

Two lanterns one *red* and the other *white*, are hoisted at night to denote a Steamer reported.

The *red* lantern is always shown at the end of the yard arm, and the *white* one at the inner halliard, E or W, according to the quarter the Steamer is reported in.

Numbers are indicated the same as on the lower yard.

When the description of vessel is ascertained, the following descriptive colours will be hoisted at the masthead :

A Union Jack—a Flag Ship.

Man-of-War Screw Steamer, a white pendant with a *blue* ball in the centre, over the Union Jack.

Man-of-War Paddle Steamer, a white pendant with a *blue* ball in centre, under the Union Jack.

A red Flag pierced white, Royal Mail Packet from England.

A blue and red Flag crossed white, do from Boston.

A white and blue Pendant, do. from St John's, Nfld.

A white and red Pendant, do. from Bermuda.

A blue Pendant—a Ship.

A blue and white Pendant—a Barque.

A red Pendant—a Brig.

A red and white Pendant—a Brigantine.

A white Pendant—a Sloop or Schooner.

A blue and white Flag horizontally divided—a Foreign or Neutral Fleet.

A white and blue Flag vertically divided—a Foreign or Neutral Man-of-War.

A blue Flag—a Foreign or Neutral Merchantman.

A red Flag—an Enemy's Merchantman.

A red, white and blue Flag, red next the mast, Enemy's Fleet, red next the mast under Steamer's signal, a French Man-of-War.

American Flag (Stars and Stripes) under Steamer's signal, American Man-of-War.

When an English Packet arrives between evening and morning gun-fire, a red triangular flag will be kept flying at the mast head from seven till eight o'clock.
